Sites

with more than **650** sites  
**that welcome hunters!**

including **Ducks Unlimited Canada**  
and **Alberta Fish & Game sites**

**+ stocked  
fishing sites**

Alberta Conservation  
Association

# It's time to talk about the birds and the bees

## *It's a perfect match.*

While providing habitat for waterfowl and wildlife, wetlands near canola crops and alfalfa fields are also home to bumblebees and other pollinators. On the Canadian Prairies, these small but mighty species have an important role as they increase pollination which makes agricultural crops more productive.

At Ducks Unlimited Canada, our research scientists are discovering how even the smallest wetland can support a diverse community of pollinators on Canada's prairie landscape. To learn more, visit our research wing, the Institute for Wetland & Waterfowl Research, at [iwwr.ducks.ca](http://iwwr.ducks.ca).

Ducks Unlimited  
Canada

# Raven River. It's about the fishing.

Visit [www.ab-conservation.com/RavenAngling](http://www.ab-conservation.com/RavenAngling) to plan your fly-fishing adventure with maps and access information.

54 km of protected world-class brown trout habitat on the Raven River have been conserved by Alberta's hunters and anglers, conservation organizations, corporate partners, landowners, and local and provincial governments.

# Discover this guide. Discover your home.

photo: Brad Fenson

**Put on your comfortable shoes, get to a conservation site near or far, and discover your province. Just show up—and you might see Alberta in a whole new way.**

For over a century, our scenery has drawn people from across the world. It has depths to be discerned; just like in certain movies, you'll see things that you may have missed the first time. Isn't that what keeps us coming back?

So make a conservation site your playground. Your sanity-gatherer. Your grocery store. Your family connector. Hunt, fish, explore. This all started with our ancestors exploring and stewarding our stunning vistas, developing into sustainable recreation that has been a huge part of shaping our identity as Albertans. Not only do conservation sites beget recreational experiences of all stripes, they also ensure we enjoy these pockets of wilderness responsibly so the generations after us can do the same.

In this guide, there are far more sites to explore than there are days in a year. But don't let choice deter you. A little fresh air here, a quick stop there, and you're well on your way to making the most of home.

**Explore a little. Discover a lot.**

**You can download the  
*Alberta Discover Guide* app**

onto iOS and Android platforms. The app has the same great information about sites but the new edition of the app focuses even more on the needs of hunters and anglers.

## North Pine Creek Conservation Site

Map Grid D3

# How to use this guide

**HUNTING** – This site allows hunting.

**FISHING** – This site contains a lake, river, or stream and allows fishing.

**HIKING** – This site offers exploring, hiking, bird watching, and photography opportunities.

**NEW SITE** – We have 3 new sites for you to enjoy!

**STOCKED** – This site contains a stocked waterbody.

**BOAT LAUNCH** – This site contains a public boat launch.

**All Conservation Sites  
are Foot Access Only.**

No motorized vehicles allowed.

# Use Respect, Ask First

**Respect the landowner:** Obtain permission from private landowners for access to their properties. Refer to a county or municipal landowner map, or download Google map directions for each conservation site at [www.albertadiscoverguide.com](http://www.albertadiscoverguide.com)

**Respect the land:** Pack out what you've brought in, including garbage. Don't forget to close any gates that you've opened. Take care not to damage vegetation.

**Remember:** Temporary hunting structures may be installed up to one month before hunting season begins and must be removed within 14 days after the season ends.

**Respect the wildlife:** Keep a safe distance from wildlife at all times. Refer to the current Alberta Hunting and Sportfishing Regulations when on conservation sites: [www.albertaregulations.ca](http://www.albertaregulations.ca)

**Stop. Don't Shoot.** Do not target practice or sight in firearms on conservation sites. For the safety and enjoyment of all users and neighbouring residences, conduct these activities at a gun range.

**Contact:** If you have questions or concerns related to the conservation sites listed in this guide, please contact one of these organizations:

**ACA sites:** 1-877-969-9091

**AFGA sites:** 1-780-437-2342

**DUC sites:** 1-866-479-3825

**Disclaimer:** Alberta Conservation Association (ACA) and its partners are not responsible for errors or omissions. Conservation sites are available for recreational access at your own risk. By accessing these properties, you agree that ACA and its partners are not liable for any injury or damage whatsoever caused to yourself or others irrespective of the cause of the injury or damage. Be aware of the potential for grazing livestock or other users.

Alberta Conservation Association

# ABOUT ACA

Since 1997, Alberta Conservation Association (ACA) has directed over \$100 million toward conservation efforts across Alberta.

We are governed by a multi-stakeholder Board of Directors represented by hunting, fishing, trapping, and naturalist groups; government; First Nations; public at large; industry; and academic representatives.

Our conservation efforts are supported throughout the province with contributions from partnerships, donations, and fishing and hunting licences levies. Through ACA's resource programs, we help enhance angling and hunting opportunities for Albertans by aerating lakes, stocking waterbodies, releasing pheasants, and conserving habitat. In addition, we engage our stakeholders in the Alberta outdoor experience with events like Kids Can Catch and the Taber Pheasant Festival.

## Our Mission

*ACA conserves, protects, and enhances fish and wildlife populations and their habitats for Albertans to enjoy, value, and use.*

## Our Vision

*An Alberta with an abundance and diversity of wildlife, fish, and their habitats; where future generations continue to use, enjoy, and value our rich outdoor heritage.*

PUBLICATIONS MAIL AGREEMENT NO. 41260556

## Member Groups

### Alberta Bowhunters Association (ABA)

The ABA is the recognized voice of the bowhunting community to the Government in Alberta. We work together with other outdoor stakeholder groups as well as government agencies to ensure the preservation and continuation of not just bowhunting, but all outdoor opportunities in Alberta.

### Alberta Fish & Game Association (AFGA)

Our passion is to promote, through education and programs, the conservation and utilization of fish and wildlife, and to protect and enhance the habitat they depend upon.

### Alberta Hunter Education Instructors' Association (AHEIA)

AHEIA is a non-profit organization dedicated to creating an ethical, humane, and educated Alberta that values wildlife, fish, and the environment.

### Alberta Professional Outfitters Society (APOS)

APOS provides leadership and direction in the continuing development of Alberta's outfitted hunting industry. The Society strives for long-term sustainability in its approach to wildlife management, business opportunities, and global competitiveness.

### Alberta Trappers' Association (ATA)

ATA's vision is of an Alberta where the sustainable harvest and management of wild furbearers is an established and recognized conservation activity integral to our heritage, culture, and identity. Our mission is to ensure that trapping continues in Alberta as a way of life that promotes respect for wildlife and stewardship of the land.

NATURE ALBERTA

### Nature Alberta

Nature Alberta is a federation of local natural history groups representing a dynamic network of 42 clubs with upwards of 5,000 members participating in the study, enjoyment, and conservation of wild Alberta.

### Pheasants Forever Alberta Council (PF)

Representing all the Pheasants Forever chapters in Alberta, we are dedicated to the conservation of pheasants and other wildlife in southern Alberta through habitat improvements, public awareness, education, and land management policies and programs.

### Treaty 8 First Nations

Treaty 8 First Nations of Alberta's mandate is to operate as a unified and collective organization that promotes, preserves, and ensures the true spirit and intent of Treaty No. 8. They coordinate, facilitate, and advocate relevant issues and matters as directed by the member First Nations, and continue to be stewards of the land within the unceded traditional territories of Treaty No. 8.

### Trout Unlimited Canada (TUC)

TUC's mission is to conserve, protect, and restore Canada's freshwater ecosystems and their coldwater resources for current and future generations. TUC's work includes on the ground stream restoration, scientific research, and education through our Yellow Fish Road program.

### Wild Sheep Foundation Alberta

Our mission is to enhance wild sheep populations, promote professional wildlife management, educate the public about wild sheep and the conservation benefits of hunting, encourage fair chase hunting, and protect sportsmen's rights—while keeping administrative costs to a minimum.

# CONSERVATION PARTNERS

The success of this publication is made possible through ongoing support from participating partners as well as private landowners, hunters, anglers, and trappers, whose donations and funding directly support our work.

Conservation partners such as Alberta Fish & Game Association (AFGA) and its affiliated clubs as well as Ducks Unlimited Canada (DUC) contributed a large number of the conservation sites in the *Guide*. Their involvement makes this one of the most extensive outdoor guides around.

## PARTNERS ACRONYM LEGEND

ACA	Alberta Conservation Association
AEP	Alberta Environment and Parks
AFGA	Alberta Fish & Game Association
ALF	Alberta Lottery Fund
ARC	Alberta Research Council
ASRPWF	Alberta Sport, Recreation, Parks & Wildlife Foundation
ATPR	Alberta Tourism, Parks and Recreation (currently Alberta Environment and Parks)
BRID	Bow River Irrigation District
CPR	Canadian Pacific Railway
CWF	Canadian Wildlife Federation
DMI	Daishowa-Marubeni International Ltd.
DUC	Ducks Unlimited Canada
EALT	Edmonton & Area Land Trust
ECCC	Environment and Climate Change Canada
EID	Eastern Irrigation District
FESA	Fisheries Enhancement Society of Alberta
LNID	Lethbridge Northern Irrigation District
MULTISAR	Multiple Species at Risk
NCC	Nature Conservancy of Canada
PF	Pheasants Forever Canada
PFRA	Prairie Farm Rehabilitation Administration
RID	Raymond Irrigation District
RMEFC	Rocky Mountain Elk Foundation Canada
TID	Taber Irrigation District
TUC	Trout Unlimited Canada

## Thank you!

Thank you to our advertisers, whose support helps make the publication of this guide possible. We gratefully acknowledge the hundreds of hunting and fishing licence retailers in Alberta who distribute the majority of copies.

## CLEAN + DRAIN + DRY YOUR GEAR

Help stop the introduction of aquatic invasive species and diseases. Whether you're travelling around Alberta or out of province, be sure to CLEAN, DRAIN and DRY everything that's been in contact with the water before you come home – including your boat, waders and fishing gear.

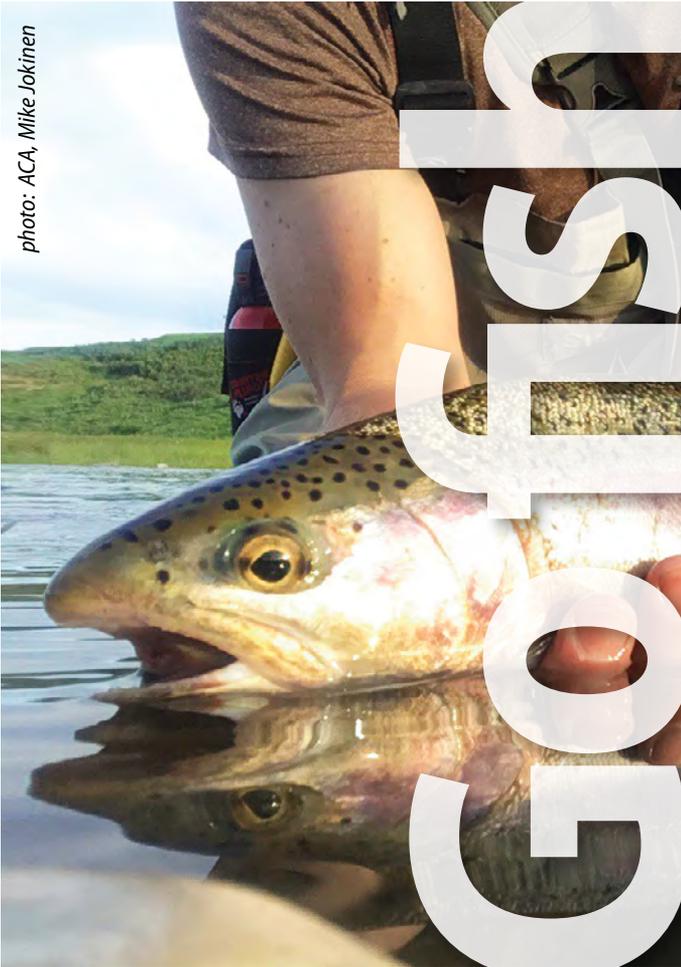

FOR MORE INFORMATION ON INVASIVE SPECIES, CALL:

**1-855-336-BOAT (2628)**

or visit [aep.alberta.ca](http://aep.alberta.ca)

# Split the Bill

# B2

As you might've guessed, managing Alberta's wildlife and habitat can be expensive. Even though millions of dollars are invested each year, we have to be choosy about what receives attention.

Here's why we at Alberta Conservation Association care about hunters and anglers so much: unlike other programs in Alberta's government, conservation receives little support from taxes paid by the general public. Instead, the majority of operating funds (which ACA helps plan and direct) come from hunter and angler licensing fees, and has for many years.

This system of management is widely considered to be the world's most successful. Proven in many places, it supports principles that restore and safeguard fish, wildlife, and their habitats—through sound science and active management. In Alberta, it has created sound management, emphasizing restoring and conserving habitats that benefit a wide range of fish and wildlife—including non-hunted species—and benefits anyone who enjoys nature.

Currently, our province has no set or dedicated funding mechanisms in place (carbon or conservation offsets are not yet a predictable funding source) to support conservation. Hunters have always been the mainstay in terms of dollars put towards habitat programs and wildlife management. And hunters are a smaller group, so consider that they contribute nearly 50 percent of all conservation funding in Alberta!

As hunting participation rates decrease (older generations are retiring from hunting), conservation funding available decreases too. That's bad news for our province as a whole, and one of the best motivators to get new people enjoying the tradition of hunting and fishing.

For more details on conservation revenue, visit [www.ab-conservation.com/about/revenue-sources](http://www.ab-conservation.com/about/revenue-sources)

### 1 Peace Breaks Uplands

**Site Details:** This 180-acre site is located approximately 30 km northeast of Manning and consists of ungulate winter range and upland habitat. Several habitat enhancement clearings have been completed to improve vegetation forage and browse for ungulates. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** SW/SE-23-093-21-W5M

### 2 Bear River

**Site Details:** This 1,680-acre site is located approximately 22 km southeast of Fort Vermilion along Highway 88. Several habitat enhancement clearings have been completed to improve vegetation browse for ungulates. Wildlife found in the area includes white-tailed and mule deer, moose, elk, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-35-106-12-W5M, NE-36-106-12-W5M, NW/NE-05-107-11-W5M, NE/SW/SE-06-107-11-W5M, NW/SW-09-107-11-W5M, SE-17-107-11-W5M, SW/SE-01-107-12-W5M

### 3 Blues Creek

**Site Details:** This 800-acre site is located approximately 58 km southwest of Fort Vermilion and consists of upland habitat. Several habitat enhancement clearings have been completed to improve forage and browse for ungulates. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NW-31-104-17-W5M, NW/NE/SW/SE-36-104-18-W5M

### 5 North Peace Uplands

**Site Details:** This 276-acre site is located approximately 100 km northeast of Manning and consists of upland habitat that is used as winter range by ungulates. Several habitat enhancement clearings have been completed to improve vegetation forage and browse for ungulates. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SW/SE-17-101-19-W5M

### 6 Whillans Flat

**Site Details:** This 108-acre site is located approximately 25 km northeast of Manning and consists of ungulate winter range, upland

habitat, and haylands. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of songbirds. The Notikewin River provides habitat for northern pike, walleye, and Arctic grayling.

**Restrictions:** Day use only. No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP, PFRA

**Quarter Sections:** NE/SE-29-092-22-W5M

### 7 North La Crete Uplands

**Site Details:** This 160-acre site is located 30 km southwest of Fort Vermilion and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-33-106-15-W5M

### 8 West Hotchkiss Uplands

**Site Details:** This 160-acre site is located approximately 20 km north of Manning and consists of upland and riparian habitat. Wildlife found in the area includes elk, moose, mule deer, black bear, grizzly bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-16-093-23-W5M

### 9 Bushe River

**Site Details:** This 2,720-acre site is located 20 km southwest of High Level and consists of upland, riparian and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW-30-108-17-W5M, NW/NE/SW/SE-31-108-17-W5M, NW/NE/SW/SE-23-108-18-W5M, NW/NE/SW-25-108-18-W5M, NE/SE-26-108-18-W5M, SE-06-109-17-W5M

### 10 Wilson Prairie Uplands

**Site Details:** This 314-acre site is located approximately 40 km southwest of Fort Vermilion and consists of upland, wetland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SW/SE-30-105-13-W5M

### 11 Gravina Creek

**Site Details:** This 120-acre site is located approximately 45 km north of Manning and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NE-02-095-22-W5M

**TEMPORARY HUNTING STRUCTURES** may be put into place up to one month before hunting season and must be taken down no more than 14 days after the season ends.

Get the *Alberta Discover Guide* app! Free on the App Store and on Google Play! Search conservation sites by name, activity, or proximity.

**It won't be long before five million people will call Alberta home. That is major ongoing pressure on our land that we've never experienced before—impacting water quality, food production, and wildlife habitat.**

This is why the Habitat Securement Fund exists. ACA works with a variety of groups, agencies, and industries to secure, protect, and enhance wildlife and fish habitat. In 2018, we secured 605 acres valued at approximately \$1,730,000.

Big purchases aren't required to make a big difference though. Some of our favourite conservation sites came to us because of

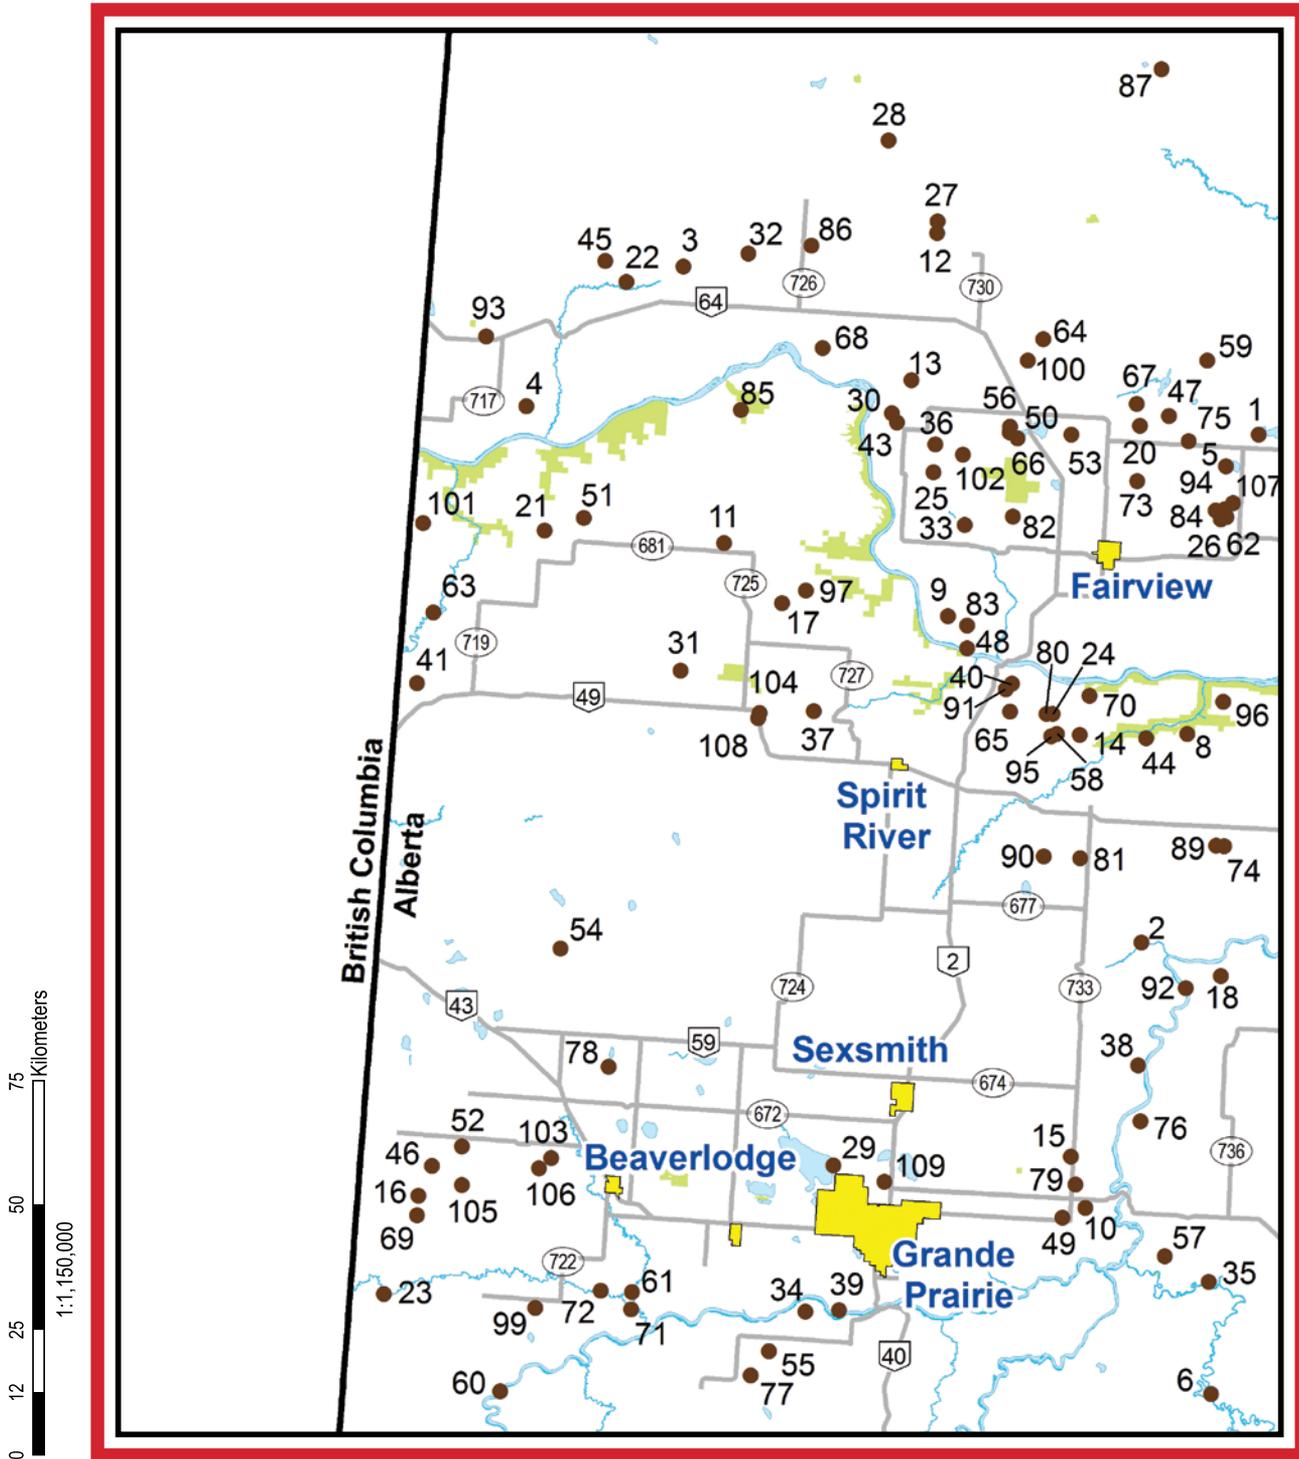

an individual or family's foresight, generosity, and concern. Conserving land, no matter how big or small, is a special commitment unlike anything else. We take it seriously. We truly mean it will remain in its natural state forever.

Whether your property is an operating farm, forest, shoreline, wetland, or natural prairie, ACA can purchase land, accept land donations, joint purchase with other conservation groups, or even negotiate conservation agreements. We will do what it takes as we recognize the importance of ensuring habitat remains on the landscape, which is essential to our precious wildlife and fish resource. If you feel the same way and want to know more, email [darren.dorge@ab-conservation.com](mailto:darren.dorge@ab-conservation.com). 🏡

# Keep it Simple

Everything you need to know about fishing with kids?

Is at an event near you!

All you need to do is show up: your kids will have fun, try out the basics, and maybe even learn a couple life lessons. Because for many of us, few memories stand out as clearly as catching our first fish.

That's why all Kids Can Catch events have helpful fishing experts on hand, loaner rods for the taking, and snacks to replenish those energy stores while you're busy waiting for that magical bite.

Plus Kids Can Catch is always free, making it possible for all families to introduce fishing to the next generation. Kids under the age of 16 don't need a licence, as long as they're with an adult. And while volunteers help new anglers bait a hook, drop a line, and figure out what to do once a fish has been caught, kids gain an appreciation of the outdoors and learn how to treat it with respect.

# kids can catch

The province-wide program continues to grow—thanks to local community groups and businesses coming together—so likely you'll find a Kids Can Catch event at a pond near you. If not, consider if your community might be a good fit and let us know! 🏞️

## Sydorko

**Site Details:** This 160-acre site is located 17 km northeast of Whitelaw. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present between July 15th and October 15th. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-35-083-01-W6M

## Bad Heart River

**Site Details:** This 480-acre site is located approximately 23 km southeast of Wanham and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NE-05-076-02-W6M, NW/SW-09-076-02-W6M

## Eureka River West

**Site Details:** This 1,040-acre site is located approximately 20 km southwest of Worsley and consists of upland habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE-30-085-09-W6M, NW/NE/SW/SE-31-085-09-W6M, LSD 01 AND 08 OF SE-36-085-10-W6M

## Bear Canyon Uplands

**Site Details:** This 320-acre site is located approximately 100 km west of Hines Creek, north of the Peace River, and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE-24-083-12-W6M

### Lake Seventeen

**Site Details:** This 320-acre site is located approximately 10 km north of Whitelaw and consists of upland and wetland habitat. Several habitat enhancement clearings have been completed to improve vegetation forage and browse for ungulates. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, waterfowl, grouse, and a variety of small mammals and songbirds.

**101** **Dorer**

**Site Details:** Located near Bear Canyon, this site consists of 480 acres of tame grass intermixed with a large poplar stand that includes seasonal and semi-permanent wetlands. Wildlife found in the area includes waterfowl, white-tailed deer, moose, elk, and black bear.

**Restrictions:** No open fires. Day use only. Cattle may be present between July 15th and October 15th. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE/SW-28-081-13-W6M

**102** **Reiner Homestead**

**Site Details:** This 322-acre site consisting of native boreal forest and hayland was donated to ACA by the Reiner family. It is located 10 km southwest of the town of Hines Creek. A picnic table is situated on the banks of Hines Creek for all to enjoy. The mixedwood forest provides excellent cover for wildlife such as elk, deer, black bear and moose. A cairn located in NW 9, remains on the property in memory of the Reiner family.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Reiner family

**Quarter Sections:** NW-09-083-05-W6M, SW-16-083-05-W6M

**103** **Albright**

**Site Details:** This 160-acre site is dominated primarily by boreal forest and is located 9 km northwest of Beaverlodge. This site consists of upland aspen-spruce and wetland black spruce-Labrador tea habitat. Observations suggest there are high densities of ungulates, especially moose. Wildlife in the area also includes ruffed grouse, snowshoe hare and black bear.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** NE-14-072-11-W6M

**104** **Shell True North Forest**

**Site Details:** This 1,700-acre site is 30 km west of Spirit River, near Moonshine Lake Provincial Park. The Ksituan River flows through this mixedwood forest and hayland site. High densities of ungulates can be found here including moose, elk, and white-tailed and mule deer. Other wildlife in the area includes black bear, coyote and snowshoe hair. The former landowner is allowed to hay and graze the site. The pond in SW 10 is stocked annually with brook trout.

**Restrictions:** Day use only. No open fires. Foot access only. The 15-acre subdivision in SW 15 is excluded from all recreational activities.

**Partners:** ACA, Saddle Hills County, Shell Energy Canada

**Quarter Sections:** NW/NE-03-079-08-W6M, NE-04-079-08-W6M, NE/SE-09-079-08-W6M, NW/NE/SW-10-079-08-W6M, NW/SW-14-079-08-W6M, NW/SW/SE-15-079-08-W6M

**105** **North Kamisak Lake**

**Site Details:** This approximately 298-acre site is located 21 km west of the town of Beaverlodge and can be accessed via gravelled municipal roads off Highway 671. Mostly flat, this site consists of a mixture of boreal forest and hayland. Wildlife species such as moose, elk, black bear, mule and white-tailed deer, and upland game birds can be spotted here. Hunting, hiking, and wildlife-viewing opportunities are excellent.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** NE-33-071-12-W6M, NW-34-071-12-W6M

### Shell True North Pond - ACA Fish Stocking

**Site Details:** This pond is located about 100 km north of Grande Prairie near Moonshine Lake Provincial Park. It is situated in the Shell True North Forest Conservation Site. To access this pond from the town of Spirit River, travel west on Highway 49 for about 30 km. At Twp Rd 791 continue to travel north on Highway 49 for approximately 400 m, then turn west into the approach and then immediately north to the pond. Parking is available along the eastern shore of the waterbody. ACA annually stocks this 0.8-ha pond with brook trout. Permission is not required to access the pond for fishing. Please refer to the site description for Shell True North Forest for more details.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Energy Canada

**Quarter Sections:** SW-10-079-08-W6M

### County Sportsplex Pond - ACA Fish Stocking

**Site Details:** County Sportsplex Pond is located in Clairmont immediately east of the Crosslink County Sportsplex west of Highway 2 and north of Highway 43X. There is currently paved vehicle access to within 100 m of the pond and a paved walking path around the perimeter of the pond. The site has a paved parking lot and park benches. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** County of Grande Prairie No. 1

**Quarter Sections:** NW-14-072-06-W6M

*Conservation Magazine* is a FREE biannual magazine that's all about discovering and connecting with the people and research that impact the conservation of Alberta's fish and wildlife.

**Until** you've seen a true "whiteout"—snow geese migrating to their far northern nesting grounds—it's difficult to really understand the impact sheer numbers can have. The spring snow goose hunt wasn't created because of popular demand by hunters; it was created to help save the tundra. The lesser snow goose and Ross's goose have been on the list of huntable waterfowl in Alberta for both spring and fall seasons since 2015: all because of their crushing numbers.

**How many are we talking?** Well, back in the '70s and '80s we thought there were lots, with around two to three million in central North America. Today we're very close to 15 million!

The geese cause damage to human agriculture and their own habitat, particularly their arctic breeding grounds. Scientists worry the Arctic tundra can't handle it. With their relentless eating habits, they are turning fertile grasslands into salty mudflats.

Information is expensive and difficult to collect, but hunters truly are free citizen scientists. More information about the geese's movements is needed before any sort of bigger decision is made—and hunters certainly help provide this data by reporting and submitting recovered bands. 🏹

# Trouble on the Tundra

### 1 Dollar Lakes - Lake Aeration

**Site Details:** This 50-acre site is approximately 30 km north of Valleyview. These lakes are stocked annually by AEP with rainbow and brown trout and aerated in winter through ACA's Lake Aeration Program. A gravel boat launch in fair condition and day-use

facilities (outhouses, garbage bins, gravel walking trail, floating docks and picnic tables) are available. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse and waterfowl.

**Restrictions:** Day use only. No open fires.

**Partners:** ACA, AEP, MD of Greenview No.16

**Quarter Sections:** NW/SE-08-073-21-W5M

### 2 Clouston Creek North

**Site Details:** This 160-acre site is located 45 km north of Valleyview, just off of Highway 43, and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-23-074-21-W5M

### 3 Last Lake

**Site Details:** This 480-acre site is located 16 km northeast of Whitelaw. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present between July 15th and October 15th. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE-25-083-01-W6M, SE-36-083-01-W6M

### 4 Canyon Creek Uplands

**Site Details:** This 480-acre site is located 35 km southeast of Watino and consists of upland and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/SW/SE-21-076-23-W5M

### 5 Scaup

**Site Details:** This 160-acre site is located 10 km south of Dixonville and consists of wetland and upland habitat. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-14-086-24-W5M

### 6 Steinbrenner

**Site Details:** This 160-acre site is located approximately 30 km northeast of Valleyview and consists of native parkland forest with numerous small wetlands. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, Morinville Fish & Game, Spruce Grove Fish & Game, St. Albert Fish & Game, Stony Plain Fish & Game, Zone 4 Fish & Game

**Quarter Sections:** SW-26-072-21-W5M

### 7 Long Valley

**Site Details:** This 320-acre site is located approximately 21 km southeast of Whitelaw and consists of upland and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-35-080-26-W5M, SW-02-081-26-W5M

### 8 South Watino

**Site Details:** This 1,760-acre site is located approximately 38 km west of Falher and consists of upland and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NW/SW/SE-17-077-24-W5M, NW/NE/SW/SE-18-077-24-W5M, SW/SE-19-077-24-W5M, NW/SW-20-077-24-W5M

### 9 East Deadwood

**Site Details:** This 440-acre site is located approximately 30 km southeast of Manning and consists of mixedwood boreal forest. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, and grouse. This site provides excellent hunting and wildlife-viewing opportunities.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, DUC, NCC, RMEFC, Suncor Energy Foundation

**Quarter Sections:** NE/SE-17-089-21-W5M AND Pt. NW-08-089-21-W5M

### 10 Swan Lake - Lake Aeration

**Site Details:** This lake is approximately 42 km west of Valleyview and produces above-average rainbow trout. The best fishing conditions are in May and June when the water is clearest. The lake is stocked annually by AEP and is aerated in winter through ACA's Lake Aeration Program. The MD of Greenview No. 16 maintains day-use, camping and boat launch facilities.

**Restrictions:** Please follow the rules that M.D. of Greenview No.16 has in place for the day and overnight areas.

**Partners:** ACA, AEP, MD of Greenview No.16

**Quarter Sections:** NW/SW-18-070-25-W5M, SE-13-070-26-W5M

### 11 Chambers

**Site Details:** This 120-acre site is located approximately 3 km east of Dixonville and consists of upland and wetland habitat. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-17-087-23-W5M

### 12 Swan Lake

**Site Details:** This 159-acre site, located approximately 42 km west of Valleyview, has a small upland forage plot managed as nesting cover and as a winter food source for ungulates. The rest of the site is idled parkland. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, waterfowl, shorebirds, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, ASRPWF, DUC, RMEFC

**Quarter Sections:** SW-13-070-26-W5M

### 13 Lac Cardinal Point Uplands

**Site Details:** This 623-acre site is located approximately 13 km northwest of Grimshaw and consists of upland, riparian, and wetland habitat, as well as haylands. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals, waterfowl, and songbirds. Delicious wild strawberries grow here, but be prepared, it can take quite some time to fill a cup! Parking is available on site. This is a designated pheasant release site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, DUC

**Quarter Sections:** NW/NE-03-084-24-W5M, NE-04-084-24-W5M, NW/NE/SW/SE-10-084-24-W5M, NW-11-084-24-W5M

### 14 East Puskwaskau River

**Site Details:** This 1,120-acre site is located approximately 40 km north of Valleyview and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-18-073-22-W5M, NW/NE/SE-13-073-23-W5M

### 15 Puskwaskau Uplands

**Site Details:** This 960-acre site is located approximately 70 km northeast of Grande Prairie and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes elk, white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds. The Smoky River, which borders the site, supports sport fish include northern pike, walleye, and Arctic grayling, as well as non-sport species.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE-31-075-25-W5M, NW/NE-32-075-25-W5M, NW/NE-33-075-25-W5M

### 16 Weberville Pond

**Site Details:** This 150-acre site is located approximately 21 km north of Peace River. The pond is stocked annually by AEP with rainbow trout and provides fishing opportunities for area residents. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of waterfowl, small mammals, and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-07-085-21-W5M

### 17 Roy Ozanne Memorial

**Site Details:** This 320-acre site is located approximately 10 km east of Deadwood and consists of wetlands and treed uplands. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** NE-20-089-21-W5M, SE-29-089-21-W5M

### 18 Peavine Creek Uplands

**Site Details:** This 540-acre site is located approximately 20 km southwest of Falher and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes elk, white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** SW-15-076-22-W5M, NW/NE/SW/SE-16-076-22-W5M, NE/SE-21-076-22-W5M

### 19 Cecil Thompson Pond - Lake Aeration

**Site Details:** This site, located approximately 7 km southeast of Peace River, is stocked annually by AEP with rainbow trout and aerated in winter through ACA's Lake Aeration Program.

**Restrictions:** Camping is allowed in designated areas and fires in fire pits only. Restrooms and parking available.

**Partners:** ACA, AEP, Northern Sunrise County

**Quarter Sections:** SW-23-083-21-W5M

### 20 Figure Eight Lake - Lake Aeration

**Site Details:** This site is approximately 21 km west of Grimshaw. It is stocked annually by AEP with rainbow trout and aerated in winter through ACA's Lake Aeration Program.

**Restrictions:** This site is located within Figure Eight Lake Provincial Recreation Area and is subject to its rules and regulations.

**Partners:** ACA, AEP

**Quarter Sections:** NW-20-084-25-W5M

### 21 South Whitemud

**Site Details:** This 320-acre site is located approximately 36 km north of Peace River and consists of upland habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NE-31-086-21-W5M, SW-04-087-21-W5M

### 22 Deadwood Uplands

**Site Details:** This 1,920-acre site is located approximately 10 km east of Deadwood and consists of upland, riparian and wetland habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, RMEFC

**Quarter Sections:** NE/SE-03-089-21-W5M, SW-10-089-21-W5M, NW-15-089-21-W5M, NW/NE-16-089-21-W5M, NW-17-089-21-W5M, NW-20-089-21-W5M, NW/SW/SE-21-089-21-W5M, NW/SW-28-089-21-W5M, NW/NE-29-089-21-W5M, SE-31-089-21-W5M, SW/SE-32-089-21-W5M, NW/SW-33-089-21-W5M

### 23 Chinook Valley

**Site Details:** This 932-acre site is located 35 km northwest of Grimshaw and consists of upland and riparian habitat. Wildlife found in the area includes moose, mule deer, black bear, waterfowl, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** SW/SE-13-086-25-W5M, SW/SE-14-086-25-W5M, SW-17-086-25-W5M, SE-18-086-25-W5M

### 24 Winagami Northeast

**Site Details:** This 343-acre site is located approximately 6 km southeast of McLennan and consists of a mixture of uplands and wetlands. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, waterfowl, grouse, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, ATPR, DUC, Suncor Energy Foundation

**Quarter Sections:** NE-14-077-19-W5M, SE-22-077-19-W5M, SE-23-077-19-W5M

### Joussard 2

**Site Details:** This 192-acre site is located 10 km east of Joussard and can be accessed directly adjacent to Highway 2. The site consists of forested boreal habitat with a large percent of mature aspen, making it an ideal area to experience a variety of recreational activities. Wildlife found in the area includes deer, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** SW/SE-22-073-12-W5M

### South Crooked Creek

**Site Details:** This 642-acre site is located approximately 23 km south of Crooked Creek and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, waterfowl, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/SW-27-069-26-W5M, SW/SE-28-069-26-W5M

### Hutton Creek

**Site Details:** This 2,859-acre site is located 10 km southeast of Deadwood and supports winter range for ungulates including upland and riparian habitat. Prescribed burns have been done to enhance vegetation forage and browse for ungulates. The Peace River, which borders the site, offers numerous angling opportunities. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grizzly bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, RMEFC

**Quarter Sections:** NW/NE-30-089-20-W5M, SW/SE-31-089-20-W5M, NW/NE-25-089-21-W5M, NW/NE/SW/SE-26-089-21-W5M, SE-27-089-21-W5M, SW/SE-36-089-21-W5M,

NW/SW/NE-27-089-21-W5M, SW/SE/NW/NE-34-089-21-W5M, NW/SW-35-089-21-W5M, NW/SW-02-090-21-W5M, SE/NW/NE-03-090-21-W5M, NE/NW/SE/SW-10-090-21-W5M

### Gayton

**Site Details:** This 80-acre site is located approximately 12 km north of Grimshaw and consists of upland habitat and seasonal wetlands. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SE-24-084-24-W5M

### Kestrel

**Site Details:** This 320-acre site is located approximately 5 km northwest of Eaglesham and consists of wetland and upland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present between July 15th and October 15th. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-27-078-25-W5M, NE-28-078-25-W5M

### Weberville

**Site Details:** This 1,760-acre site is located approximately 35 km north of Peace River and consists of upland and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

### Three Creeks

**Site Details:** This 6,335-acre site is located approximately 36 km northeast of Peace River and consists of upland and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE/SE-19-084-20-W5M, NW/NE/SW/SE-20-084-20-W5M, NE/SE-30-084-20-W5M, NW/NE/SW/SE-31-084-20-W5M, NW-25-084-21-W5M, NW/SW-36-084-21-W5M, SW-05-085-20-W5M, NE/SW/SE-06-085-20-W5M, SW/SE-07-085-20-W5M, NE/SE-18-085-20-W5M, NE/SE-19-085-20-W5M, NE/SE-27-085-20-W5M, NW/SW-29-085-20-W5M, NW/NE/SW/SE-32-085-20-W5M, NW/NE/SW/SE-34-085-20-W5M, NW/NE/SW/SE-35-085-20-W5M, SE-01-085-21-W5M, SE-02-086-20-W5M, NW/NE-04-086-20-W5M, SE-05-086-20-W5M, SW-09-086-20-W5M

### Deadwood Uplands

**Site Details:** This 160-acre site is located approximately 20 km northeast of Dixonville and consists of upland habitat. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-16-089-23-W5M

### Winagami South

**Site Details:** This 150-acre site is located approximately 22 km southeast of McLennan and is adjacent to Winagami Lake Provincial Park. The site is within the boreal forest. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, ducks, grouse, and a variety of songbirds. Northern pike, walleye, perch, and whitefish are common sport fish found in Winagami Lake.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, ATPR, Suncor Energy Foundation

**Quarter Sections:** NW-23-076-18-W5M

### South Snipe Lake

**Site Details:** This 375-acre site is located approximately 19 km southeast of Sunset House and consists of upland and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds. Snipe Lake supports a variety of fish species including northern pike, walleye, yellow perch, and lake whitefish.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NW-19-070-18-W5M, NE-24-070-19-W5M, SE-25-070-19-W5M

### West Puskwaskau Uplands

**Site Details:** This 874-acre site is located approximately 100 km northeast of Grande Prairie near the Smoky River and consists of ungulate winter range and upland habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-32-075-26-W5M, NW/NE-33-075-26-W5M, NW/NE/SW/SE-05-076-26-W5M

### Goose River Uplands

**Site Details:** This 308-acre site is located approximately 26 km southeast of Valleyview and consists of important ungulate winter range and upland habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NW/SW-24-068-21-W5M, NW-25-068-21-W5M

### Dixonville Parkland

**Site Details:** This 160-acre site is located 8 km northwest of Dixonville and consists of upland and wetland habitat. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-19-087-24-W5M

### Clouston Creek Uplands

**Site Details:** This 160-acre site is located 28 km north of Valleyview and consists of critical ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-20-072-22-W5M

### Harmon Valley

**Site Details:** This 280-acre site is located 18 km northeast of Nampa and consists of upland habitat. Several habitat enhancement clearings have been completed to improve vegetation forage and browse for ungulates. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-07-082-18-W5M, NE-03-082-19-W5M

### North Rabbit Lake

**Site Details:** This 320-acre site is located approximately 25 km southeast of Manning and consists of mixedwood boreal forest. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, NCC, RMEFC

**Quarter Sections:** NE/SW-31-089-21-W5M

### Winagami Southwest

**Site Details:** This 30-acre site is approximately 11 km southeast of McLennan and is part of the Winagami Conservation Area managed by AEP. Walking trails and a picnic shelter can be found at the site. Wildlife in the area includes white-tailed and mule deer, moose, black bear, grouse and waterfowl. Northern pike, walleye, perch and whitefish are common sport fish found in Winagami Lake.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Suncor Energy Foundation

**Quarter Sections:** SW-01-077-19-W5M

### Big Stoney Lake Uplands

**Site Details:** This 160-acre site is located approximately 6 km west of Brownvale and consists of mixedwood and grassland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present between July 15th

and October 15th. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

## Little Smoky River Uplands

**Site Details:** This 320-acre site is located 35 km west of High Prairie, just off of Highway 2A, and consists of upland habitat and haylands. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SW/SE-32-074-20-W5M

## Carmon Creek

**Site Details:** This 160-acre site is located 33 km northeast of Peace River and consists of upland and riparian habitat. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SW-22-085-20-W5M

## Harmon Valley Uplands

**Site Details:** This 3,203-acre site is located 28 km northeast of Nampa and consists of upland and riparian habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Harmon Valley Grazing Association

**Quarter Sections:** NW/NE-31-082-18-W5M, NW/NE-10-083-19-W5M, NW/NE-13-083-19-W5M, NW/NE-14-083-19-W5M, NE/SE-15-083-19-W5M, NW/NE/SW/SE-23-

083-19-W5M, NW/NE/SW/SE-24-083-19-W5M, NW/NE/SW/SE-25-083-19-W5M, NW/NE/SW/SE-36-083-19-W5M

## Flicker

**Site Details:** This 160-acre site is located 12 km west of Dixonville and consists of wetland and upland habitat. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-15-087-25-W5M

## Canyon Creek Slopes

**Site Details:** This 1,548-acre site is located approximately 70 km south of Peace River and supports important winter range for ungulates including upland and riparian habitat. Wildlife habitat enhancement activities have enhanced vegetation forage and browse for ungulates. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, RMEFC

**Quarter Sections:** NW/NE/SW-19-076-23-W5M, NW/NE/SW/SE-29-076-23-W5M, NE/SW/SE-30-076-23-W5M, NW/NE/SW/SE-24-076-24-W5M, SE-25-076-24-W5M

## Whitemud River Uplands

**Site Details:** This 435-acre site is located approximately 40 km north of Grimshaw and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of songbirds. Northern pike, walleye, and Arctic grayling can be found in the Whitemud River, which runs adjacent to the site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE-15-086-23-W5M, SE-16-086-23-W5M

## West Murdoch Lake Uplands

**Site Details:** This 320-acre site is located approximately 17 km southwest of Deadwood and consists of upland habitat. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/SW-05-089-23-W5M

## Boulder Creek Uplands

**Site Details:** This 320-acre site is located approximately 33 km northeast of Valleyview and consists of upland, riparian, and wetland habitat, as well as haylands. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, AFGA

**Quarter Sections:** NW/SW-35-071-20-W5M

## Joussard

**Site Details:** This 156-acre site is located within 1 km of the shoreline of Lesser Slave Lake in the hamlet of Joussard. Habitat at the site consists of mixedwood boreal forest. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. No hunting.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** NW-04-074-13-W5M

**73 Little Smoky**

**Site Details:** This 680-acre site is located approximately 28 km northeast of Valleyview and consists of upland and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds. Northern pike, walleye, and Arctic grayling are some of the sport fish found in the Little Smoky River, which runs adjacent to the site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-06-072-20-W5M, SW/SE-07-072-20-W5M, NE-01-072-21-W5M

**74 South Little Smoky River Uplands**

**Site Details:** This 160-acre site is located approximately 12 km south of Guy and consists of ungluate winter range, upland, and riparian habitat. Wildlife found in the area includes elk, moose, mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-32-074-21-W5M

**75 Lot 27 Uplands**

**Site Details:** This 140-acre site is located approximately 6 km southwest of Peace River along Highway 684 (Shaftesbury Trail) and consists of upland habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-04-083-22-W5M

**76 Stout**

**Site Details:** This 80-acre site is located approximately 28 km northwest of High Prairie and consists of upland and riparian habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse and a variety of small mammals and songbirds. Northern pike and walleye are two sport fish found in the South Heart River.

**Restrictions:** Day use only. No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NW-30-076-17-W5M, NE-25-076-18-W5M

### Kinley

**Site Details:** This 160-acre site is located approximately 14 km northwest of Grimshaw and consists of wetland and upland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-07-084-24-W5M

### East Peace Uplands

**Site Details:** This 1,905-acre site is located approximately 35 km northeast of Peace River and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-08-086-20-W5M, NE-09-086-20-W5M, NW-10-086-20-W5M, NW/NE/SW/SE-16-086-20-W5M, NW/NE/SW/SE-21-086-20-W5M, NE/SE-28-086-20-W5M, NE/SE-33-086-20-W5M

### Deadwood/Peace River

**Site Details:** This 1,532-acre site is located 41 km southeast of Manning and supports winter range for ungulates including upland and riparian habitat. Prescribed burns have occurred to enhance vegetation forage and browse for ungulates. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds. The Peace River provides habitat for walleye and northern pike.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, RMEFC

**Quarter Sections:** NW-18-089-20-W5M, SW/SE-19-089-20-W5M, NW/NE-13-089-21-W5M, NW/NE/SW-14-089-21-W5M, NE/SE-15-089-21-W5M, SW/SE-23-089-21-W5M, SW/SE-24-089-21-W5M

### Cardinal River

**Site Details:** This 160-acre site is located 35 km north of Peace River and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** NE-24-086-22-W5M

### West Peace Uplands

**Site Details:** This 52-acre site is located approximately 32 km northeast of Peace River and consists of upland and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Obtain permission before crossing private land to access this site.

**Partners:** ACA, AEP

**Quarter Sections:** SE-35-085-21-W5M

### Whitemud

**Site Details:** This 1,920-acre site is located approximately 35 km northwest of Peace River and consists of ungulate winter range, upland, and riparian habitat. Wildlife habitat enhancement activities have occurred to enhance vegetation forage and browse for ungulates. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of songbirds. The Whitemud River provides habitat for northern pike, walleye, Arctic grayling, and mountain whitefish.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-33-086-22-W5M, NW/NE/SW/SE-34-086-22-W5M, NW/NE/SW/SE-35-086-22-W5M

## Deep Creek Uplands

**Site Details:** This 1,077-acre site is located approximately 40 km northeast of Valleyview and consists of ungulate winter range, upland, and riparian habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-03-073-20-W5M, NE/SE-10-073-20-W5M, NE/SE-15-073-20-W5M, NE/SE-22-073-20-W5M

## Northern Lights Uplands

**Site Details:** This 480-acre site is located approximately 40 km northeast of Peace River and consists of ungulate winter range and upland habitat. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-05-087-20-W5M, NE/SE-08-087-20-W5M

## West Noon Creek

**Site Details:** This 471-acre site is located approximately 16 km west of High Prairie, just north of Highway 2A, and consists primarily of upland habitat. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SE-30-074-18-W5M

## Sheehan

**Site Details:** This 320-acre site is located approximately 7 km northwest of Dixonville and consists of upland and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, black bear, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present between July 15th and October 15th. Contact Dave Matheson of Ducks Unlimited at 780-832-2676 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/SW-21-087-24-W5M

## Frank Lake

**Site Details:** This 800-acre site is located approximately 15 km northeast of Falher and consists of boreal mixedwood forest and a wetland complex that supports trumpeter swans. Wildlife habitat enhancement clearings have been completed at this site to improve ungulate winter range. Wildlife found in the area includes moose, elk, white-tailed and mule deer, black bear, grouse, and a variety of waterfowl, small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE-33-079-19-W5M, NW-34-079-19-W5M, SW/SE-04-080-19-W5M

## Winagami Southwest 2

**Site Details:** This 160-acre site is located 8.8 km west of Winagami Lake Wildland Provincial Park. It is also located 7 km north of Kimiwan Lake, a Globally Significant Important Bird Area and Migratory Bird Sanctuary. This site consists entirely of native boreal forest and provides habitat for deer, moose, elk, and numerous small furbearers such as marten, lynx, and snowshoe hares.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** SE-29-076-19-W5M

## Warrensville

**Site Details:** This 640-acre site is located northwest of Peace River and consists almost entirely of native boreal forest. To access the site, travel 13 km west of Peace River on Highway 2 to RR 233. Turn north and travel 8 km to Twp Rd 844, and then turn east and travel 1.6 km. To the south and northeast, you will find a mix of forested and agricultural land, whereas forest dominates the landscape to the northwest. Lac Cardinal lies 6.5 km to the southwest and is an important waterfowl area. Several smaller waterbodies are scattered across the surrounding landscape. In a good year, there are enough saskatoons to make pies and muffins. High densities of ungulates occur in this area, including white-tailed and mule deer, moose, and elk.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, ASRPWF, Suncor Energy Foundation

**Quarter Sections:** NE/SE-22-084-23-W5M, NW/SW-23-084-23-W5M

## Northstar

**Site Details:** This approximately 960-acre site is located 13 km southwest of Manning. Mostly flat, the site consists of a mosaic of mature boreal mixedwood forest, wetland, hayland, and old livestock pastures reverting to native cover. Crown land is directly adjacent to the west and south sides of the site. Moose, elk, black bear, mule and white-tailed deer, and upland gamebirds can be spotted here. The site offers excellent opportunities for hunting, hiking, wildlife watching, and berry picking for saskatoons, raspberries, and wild strawberries.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** NW/NE/SW/SE-28-090-24-W5M, SE/SW-33-090-24-W5M

## Leddy

**Site Details:** This 480-acre site is located 28 km northwest of the town of Peace River. Three other conservation sites are within 6 km, North Leddy Lake Uplands (C2-52),

Rasmussen Wetland (C2-45), and Warrensville (C2-103). Access to the site is from the paved Secondary Highway 986. Undisturbed boreal forest exists on all quarter sections and is home to moose, black bear, mule and white-tailed deer, upland game birds, as well as a variety of furbearers and songbirds. Hunting, wildlife viewing, and berry picking for saskatoons are the main recreational activities to take in.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** SE-15-085-23-W5M, NE/SE-10-085-23-W5M

## Lac Cardinal West

**Site Details:** This approximately 170-acre site is located 20 km northwest of the town of Grimshaw and can be accessed via Highway 685 and RR 25-1. Mostly flat, the site consists of a mosaic of wetlands, hayland, and boreal mixedwood forest. Lac Cardinal is directly adjacent on the southeast side. Abundant waterfowl, moose, elk, black bear, mule and white-tailed deer, and upland game birds can be spotted here. Hunting, hiking, and wildlife-viewing opportunities are excellent.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** Pr. NW/SW-36-083-25-W5M, SW-01-084-25-W5M

## Reinwood

**Site Details:** This 160-acre site is located 20 km southeast of Deadwood and consists of a young trembling aspen forest that transitions to a mixedwood stand as you move towards the creek that runs through the site. Spend the day exploring a vast network of wildlife trails, but have some rubber boots handy to cross seasonal wetlands and depressions. Moose, white-tailed and mule deer, black bear, small furbearers, upland game birds, waterfowl, and a variety of songbirds are just some of the wildlife to be seen in the area.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA

**Quarter Section:** NW-07-088-21-W5M

### Salt Creek

**Site Details:** This 160-acre site is located 40 km northeast of High Prairie via Highway 2 and secondary Highway 750. It consists of moisture-loving deciduous trees and shrubs, small wetlands, riparian habitat, and a hayfield that is reverting to native cover. Salt Creek meanders through the site, providing excellent habitat for waterfowl and shorebirds. Moose, white-tailed deer, black bear, small furbearers, and ruffed grouse can be found in the area.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** SE-20-076-14-W5M

### Sundew

**Site Details:** This 160-acre site is located 6 km south of McLennan via RR 194. It consists primarily of black spruce bog with small patches of trembling aspen dominated habitat. Moose, white-tailed deer, black bear, small furbearers, and ruffed grouse can be found in the area.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** SW-09-077-19-W5M

### Whispering Timber

**Site Details:** This 608-acre site is located 36 km north of the town of Peace River via Secondary Highway 743 and Twp Rd 870. It consists entirely of boreal mixed-wood vegetation that has naturally regenerated from historical logging that occurred here. The young age class of forest provides excellent habitat for moose, white-tailed deer, elk, black bear, small furbearers, and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation, Wild Elk Federation

**Quarter Sections:** NW/NE/SW/SE-33-086-21-W5M

### North Long Lake

**Site Details:** This 159-acre site is approximately 53 km north of Peace River, and only 8 km south of Dixonville in the Chinook Valley. Long Lake is approximately 1 km to the south of the property. This site has lush riparian habitat of black spruce bog, marsh and fen, as well as mixedwood forest of white and black spruce with scattered aspen and willows. Wildlife using this site include ruffed grouse, black bear, moose and white-tailed and mule deer.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** NE-15-086-24-W5M

### Sturgeon Lake

**Site details:** This 400-acre property is comprised of boreal forest and borders Sturgeon Lake on the northwest corner. It is home to moose, mule deer, white-tailed deer, and black bears, as well as ruffed grouse and variety of song birds and raptures. This property conserves some critical riparian habitat along Sturgeon Lake and offers recreational access for both hunters and anglers.

**Restrictions:** Day use only. No open fires. Foot Access Only. Refer to the latest edition of Alberta Guide to Hunting/Fishing Regulations.

**Partners:** AFGA, NCC

**Quarter Sections:** SW/SE AND PORTION NE-30-070-24-W5M

### Beaton Wetland

**Site Details:** This 320-acre site is located approximately 45 km north of Grimshaw and west approximately 6.5 km on Twp Rd 880. The site consists of upland boreal forest and wetland habitat. An unnamed tributary of Beaton Creek flows through the property, creating a large tract of wetland habitat on this site. Wildlife in this area includes white-tailed and mule deer, moose, black bear, elk, waterfowl and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

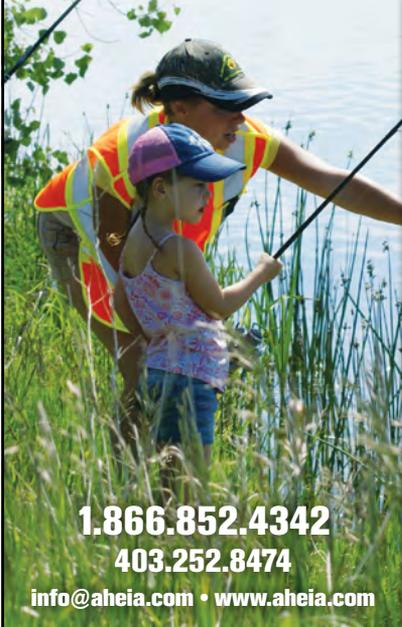

**Partners:** ACA, AFGA, ECCC, Suncor Energy Foundation

**Quarter Section:** SW-33-087-24-W5M AND NE-32-087-24-W5M

# From Zero to... Hunter!

photo provided by: ACA, Darren Dorge

Learning a brand new skill? Hard work. And it's sure a lot harder to do by yourself.

That's why Harvest Your Own exists. As an online hunting resource, it helps people who are interested in hunting but don't know where to start. For a first-time hunter—especially one with no support from friends or family—the program should help with that steep learning curve.

The articles and videos help the very beginner get started in the world of hunting. Whether it's learning how to get your hunter safety course, understanding difficult hunting regulations, deciding where to hunt, or preparing wild game to eat—Harvest Your Own is there every step of the way. Of course, nothing beats that real-life experience. That's why we offer a lot of info on finding a hunting mentor if you're new to this world.

But that's not to say there's nothing for the people who have more than a few hunts under their belt too. Harvest Your Own has several expert contributors who share tips and tricks about more in-depth and specialized hunting topics.

The point is, wherever you're at in your hunting journey, check out this great community of like-minded people. There are always questions to ask, advice to give, and of course, experiences to share. (And recipes! So many wild game recipes!) 🏹

Check out [harvestyourown.ca](http://harvestyourown.ca), or find them on Facebook at [facebook.com/HarvestYourOwn](https://facebook.com/HarvestYourOwn)

## Sheep Creek

**Site Details:** This 960-acre site is located approximately 30 km northeast of Grande Cache and supports winter range for ungulates. Wildlife habitat enhancement activities have occurred to improve vegetation forage and browse for ungulates. Wildlife found in the area includes moose, elk, mule deer, black bear, grizzly bear, grouse, and a variety of small mammals and songbirds. Sheep Creek supports a variety of fish species including Arctic grayling, bull trout, and mountain whitefish.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-05-059-07-W6M, NW/NE-06-059-07-W6M, SW/SE-07-059-07-W6M, SW-08-059-07-W6M

## Chases Flats

**Site Details:** This 934-acre site is located approximately 100 km north of Hinton. The site is a wildlife enhancement area where prescribed burning has been completed to improve ungulate winter range conditions. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-19-057-26-W5M, NW/SW-30-057-26-W5M, NW-13-057-27-W5M, NW/NE-14-057-27-W5M, SE-23-057-27-W5M, SW/SE/NE-24-057-27-W5M, NW/NE/SW/SE-25-057-27-W5M, SE/NE-26-057-27-W5M, SW-36-057-27-W5M

**TEMPORARY HUNTING STRUCTURES**

may be put into place up to one month before hunting season and must be taken down no more than 14 days after the season ends.

**3 Gold Creek**

**Site Details:** This 1,280-acre site is located approximately 65 km southeast of Grande Prairie and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-35-066-04-W6M, NW/NE/SW/SE-36-066-04-W6M

**4 Kvass Flats**

**Site Details:** This 439-acre site is approximately 15 km southwest of Grande Cache in the Willmore Wilderness Park. Access the site via the Sulfur Gates Provincial Recreation Area parking lot, followed by a hike along the old road for 5 km. Kvass Flats is a wildlife enhancement area where prescribed burning has been completed to improve elk winter range conditions. Wildlife in the area includes white-tailed and mule deer, elk, moose, black bear, grizzly bear and grouse. The Smoky River offers fishing opportunities for mountain whitefish, bull trout and Arctic grayling.

**Restrictions:** No motorized vehicles allowed. User must follow all restrictions for Willmore Wilderness Park.

**Partners:** ACA, AEP

**Quarter Sections:** NW/SW-02-056-09-W6M, NE/SW/SE-03-056-09-W6M

**5 Porcupine**

**Site Details:** This 1,920-acre site is located approximately 50 km northwest of Grande Cache and supports winter range for ungulates including upland and riparian habitat. Wildlife habitat enhancement activities have occurred to enhance vegetation forage and browse for ungulates. Wildlife found in the area includes elk, white-tailed and mule deer, moose, grizzly bear, black bear, grouse, and a variety of small mammals and songbirds. The Kakwa River, which runs adjacent to the site, provides habitat for Arctic grayling, bull trout, and mountain whitefish.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-02-061-10-W6M, NW/NE/SW/SE-03-061-10-W6M, NW/NE/SW/SE-04-061-10-W6M

**6 Wapiti River**

**Site Details:** This 2,240-acre site is located approximately 41 km southwest of Elmworth and consists of upland and riparian habitat. Wildlife habitat enhancement activities have occurred to enhance vegetation forage and browse for ungulates. Wildlife found in the area includes elk, moose, white-tailed and mule deer, black bear, grizzly bear, grouse, and a variety of small mammals and songbirds. The Wapiti River provides habitat for northern pike, walleye, Arctic grayling, bull trout, and mountain whitefish.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

# Don't Waste These Weekends

Alberta's Special Hunting Days are fun, that's a certainty, but they are also an extremely important chance to teach youth about hunting. With no licence necessary, kids are encouraged to join parents or mentors. It's not only teaching them about the outdoors, but also showing them the resilient wildlife species that inhabit it and how wild food works. Not to mention, you might be able to throw in some learning gems like patience, respect, ethics, confidence, and responsibility.

**Alberta has two special hunting initiatives that take place each September:**

- **Waterfowler Heritage Days**  
First Saturday and Sunday in September - migratory game birds
- **Provincial Hunting Day**  
Fourth Saturday in September - upland game birds

These special days are a chance for youth to experience hunting opportunities and learn the proper way. Take advantage. Because one day, they might be the ones filling your freezer! 🏹

# D2

Refrain from discharging firearms for the purpose of target practice or sighting in on conservation sites.

For the safety and enjoyment of all users and neighbouring residences, conduct these activities at a gun range.

### Asplund Creek

**Site Details:** This 1,384-acre site is located approximately 62 km northwest of Fox Creek and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-07-067-22-W5M, NE-02-067-23-W5M, NE/SE-11-067-23-W5M, NW/NE-12-067-23-W5M, SW/SE-13-067-23-W5M, NE/SE-14-067-23-W5M

### Chip Lake Southwest

**Site Details:** This 303-acre site is approximately 125 km west of Edmonton and is situated north of Highway 16 on the southwest shore of Chip Lake. The site consists of a sedge marsh extending west of the lake providing excellent habitat and cover for waterfowl. A small spruce forest in the upland portion of the site also provides excellent moose habitat. Recreational opportunities include hunting for waterfowl and ungulates including moose and deer, as well as nature viewing and access to fishing for northern pike.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE/SE-31-053-10-W5M, NW AND Pt.SW-32-053-10-W5M

### Chip Lake Southeast

**Site Details:** This 127-acre site is approximately 115 km west of Edmonton, north of Highway 16 on the southeast shore of Chip Lake. The site provides excellent year-round habitat and forage opportunities for ungulates. Recreational opportunities include hunting for moose and deer, as well as nature viewing.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** Pt.NE-28-053-09-W5M

### Athabasca Ranch

**Site Details:** This 7,825-acre site is located approximately 2 km northwest of Hinton. The site is a wildlife enhancement area where prescribed burning has been completed to improve ungulate winter range conditions. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Refer to recreational access guidelines developed by AEP for the Athabasca Ranch FLUZ at [www.AEP.alberta.ca](http://www.AEP.alberta.ca).

**Partners:** ACA, AEP, ARC, landowners

**Quarter Sections:** NW/NE/SW/SE-07-051-25-W5M, NW/NE/SW/SE-08-051-25-W5M, NW-09-051-25-W5M, NW/NE-15-051-25-W5M, NW/NE/SW/SE-16-051-25-W5M, NW/SW/SE-17-051-25-W5M, NW/NE/SW-18-051-25-W5M, NW/NE/SW/SE-19-051-25-W5M, NW/NE/SW/SE-20-051-25-W5M, NW/NE/SW/SE-21-051-25-W5M, NW/NE/SW/SE-22-051-25-W5M, NW/NE-23-051-25-W5M, SE-26-051-25-W5M, NW/NE/SW-27-051-25-W5M, NW/NE/SW/SE-28-051-25-W5M, NE-01-051-26-W5M, NE/SE-12-051-26-W5M, NW/NE/SW/SE-13-051-26-W5M

### Millers Lake - Lake Aeration

**Site Details:** This 88-acre site is west of Edson and offers good sport fishing opportunities. There is a boat launch, and the lake is stocked annually by AEP with rainbow and brown trout and aerated in winter through ACA's Lake Aeration Program.

**Restrictions:** Day use only. No open fires. No gas powered motors.

**Partners:** ACA, AEP, TUC, West Fraser (Edson Forest Products)

**Quarter Sections:** SW-08-053-19-W5M

### Chip Lake

**Site Details:** This 180-acre site is located approximately 8 km northwest of Wildwood on the north shore of Chip Lake. The site is managed as upland nesting cover and winter forage for ungulates. Wildlife found in the area includes moose, elk, black bear, white-tailed and mule deer, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires.

**Partners:** AFGA, Morinville Fish & Game, Spruce Grove Fish & Game, St. Albert Fish & Game

**Quarter Sections:** NE/SE-12-054-10-W5M

### Allen

**Site Details:** This 320-acre site is 25 km southwest of Mayerthorpe. Access to the southeast corner is via RR 105, and is on foot from the gated lease road. Access to the northwest corner is via Hwy 751 and the undeveloped TWP 564 road allowance. Access from both sides is on foot, and is at least a 2 km walk. GPS navigation recommended. Habitat at the site consists of aspen stands with thick understories of native vegetation. Thick alder stands have revegetated old logging areas. Wildlife found here includes white-tailed deer, elk, moose and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** NW/NE-24-056-11-W5M

### Walters

**Site Details:** This 68-acre site is 73 km east of Edson and 110 km west of Edmonton along Hwy 16, immediately south of Chip Lake. There is a dense black spruce bog forest with a heavy Labrador tea understory and pockets of tamarack, lodgepole pine and a small aspen stand in the southwest corner. The location of this site makes it a welcome stop for travellers looking to enjoy a natural setting. Pick a handful of cranberries or gather some shaggy mane mushrooms for supper. Wildlife viewing opportunities are possible for black bear (see BearSmart.com), the occasional moose, white-tailed and mule deer and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** Pt. NW-25-053-10-W5M

### Edson Creek

**Site Details:** This 155-acre site is located approximately 27 km north of the town of Edson. From Edson, travel north and west on Highway 748 for approximately 19 km. Turn north onto Deer Hill Road and travel for approximately 8 km. This site can be accessed from the road shortly after crossing a bridge over a tributary of the Edson River that flows from west to east through the property. There is a mosaic of mixed forest, stream, and wetland in a deep valley with steep slopes, and cleared patches dominated by grasses and shrubs. A mix of cutlines exist on the site in various stages of natural regrowth. The surrounding properties are predominantly forested Crown land. Moose, elk, black bear, mule and white-tailed deer, upland game birds, and various furbearers can be spotted here. Foraging opportunities for berries and mushrooms are excellent. Fish available in this tributary are Arctic grayling, mountain whitefish, rainbow trout, brook trout and burbot.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA

**Quarter Sections:** NE-17-055-17-W5M

### Jensen Donation

**Site Details:** This 20-acre site is located approximately 5 km south of Barrhead and consists of wetland and native parkland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-32-058-03-W5M

### Mittelstadt 22

**Site Details:** This 157-acre site is approximately 6 km southwest of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-27-048-22-W4M, SE-34-048-22-W4M

### Flatbush

**Site Details:** This 310-acre site is part of the Flatbush group of sites, all situated within 10 km of the hamlet of Flatbush. It is 2.5 km northwest of the hamlet, directly northwest of the RR 21 and Twp Rd 662 intersection. The site consists of reverting pasture land, upland forest and riparian areas. A 10-acre private residence located on the northeast side of NE-14 is not part of the site. Please mind this residence when using the site for recreational purposes. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** NE/SE-14-066-02-W5M

### Steinwand

**Site Details:** This 160-acre site is approximately 16 km southeast of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-16-048-15-W4M

### Rainbow Park Pond - ACA Fish Stocking

**Site Details:** This pond is located approximately 7 km east of Westlock. From the junction of Highway 2 and Highway 18 (Clyde Corner), travel 3.2 km west to RR 255, turn south and travel 0.5 km to the Rainbow Park sign. Turn west and follow this road for a short distance to the pond. ACA stocks this pond annually with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Westlock County

**Quarter Sections:** NE-31-059-25-W4M

### Kramer Pond

**Site Details:** This 33-acre site is located approximately 4 km south of Buck Lake. To access this site, travel west of Winfield to the Buck Lake turnoff. Travel south on RR 61 for 3.2 km, then east on Twp Rd 454 for 0.6 km, and then north into the site. AEP stocks the pond annually with rainbow trout. Facilities include a parking area, garbage bins, a fish cleaning stand, and outhouses.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SW-25-045-06-W5M

### Vegreville Children's Pond - ACA Fish Stocking

**Site Details:** This pond is located in the town of Vegreville right beside the iconic "World's Largest Easter Egg." It can be accessed via Highway 16A and 43 Street. ACA stocks this pond annually with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Town of Vegreville

**Quarter Sections:** LOCATED IN VEGREVILLE

### Ashmore /Antonchuk

**Site Details:** This 150-acre site is approximately 8 km southeast of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-02-053-16-W4M

### Camrose

**Site Details:** This 122-acre site is approximately 8 km southeast of Camrose along Highway 13. The site has a reclaimed coal mine and includes a rainbow trout fishery (see D3-41 Pleasure Island Conservation Site). The large wetlands are managed for optimal waterfowl production with idled nesting cover, managed cover and a spring backflood.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, Camrose Fish & Game Association

**Quarter Sections:** SW-20-046-19-W4M

### North Fawcett 2

**Site Details:** This 160-acre site is part of the North Fawcett group of sites, all situated within 10 km of the hamlet of Fawcett. It is located on the south side of Twp Rd 650, 1 km west of Highway 44, and approximately 4 km northwest of the hamlet of Fawcett. It is directly east of North Fawcett (D3-94) and north of portions of North Fawcett 6 (D3-156). Site habitat is open pasture mixed with native boreal forest. Over the years, a variety of trees have been planted on the site and DUC has restored 20 acres of wetland habitat.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, DUC, Shell Canada Energy

**Quarter Sections:** NW-32-064-01-W5M

### Millet Fish and Game

**Site Details:** This 154-acre site is located approximately 16 km southwest of Millet and is managed by the Millet Fish & Game club.

**Restrictions:** Contact Millet Fish & Game.

**Partners:** AFGA, Millet Fish & Game

**Quarter Sections:** SW-17-047-25-W4M

### Muir Lake - Lake Aeration

**Site Details:** This 72-acre lake is 10 km northeast of Stony Plain and provides good sport fishing opportunities. AEP stocks the pond annually with rainbow trout and it is aerated in winter through ACA's Lake Aeration Program.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Parkland County

**Quarter Sections:** NW-32-053-27-W4M

### Porcupine 22

**Site Details:** This 160-acre site is approximately 10 km east of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose,

white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-31-048-20-W4M, SW-05-049-20-W4M

### Morning Glory

**Site Details:** This 155-acre site is approximately 4 km south of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-19-048-21-W4M

### Eschak

**Site Details:** This 240-acre site is approximately 8 km west of Mundare and consists of wetland, grassland and bush habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE-23-053-17-W4M

### Daly

**Site Details:** This 104-acre site is approximately 7 km northwest of Mundare and consists of wetland, grassland and bush habitat. Wildlife in the area includes white-tailed and mule deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

### Annie

**Site Details:** This 160-acre site is approximately 13 km southwest of Mundare and consists of wetland, grassland, and bush habitat. Wildlife in the area includes white-tailed and mule deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. This site is under a land use exchange agreement. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-26-052-17-W4M

### Lyseng

**Site Details:** This 156-acre site is approximately 20 km northwest of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on site. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-24-048-21-W4M

### George and Joan Mitchell Memorial

**Site Details:** This 160-acre site is located at the northwest corner of Pigeon Lake in the Parkland region of central Alberta. The vegetation consists of mature native shrubs and grasses. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds. Tide Creek runs through the property and provides important spawning areas for walleye, northern pike, spottail shiner, and longnose whitesucker. If you get hungry as you hike, head east to find chokecherries and saskatoons. You can also pick Labrador tea leaves.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AEP, AFGA, ASRPWF, Zone 3 Fish & Game clubs

**Quarter Sections:** NW-14-047-02-W5M

### Casavant

**Site Details:** This 80-acre site is approximately 14 km north of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** S1/2-NE 28-50-16-W4M

### Sanpro

**Site Details:** This 160-acre site is approximately 11 km southwest of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-24-052-17-W4M

### Martyshuk 80

**Site Details:** The 80-acre site is 11 km west of Mundare and consists of upland, riparian and wetland habitat. Wildlife found in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-23-053-18-W4M

### Wabamun/Whitewood

**Site Details:** This 313-acre site is located approximately 4 km north of Wabamun and north of the East Pit Lake Conservation Site. (D3-132) The site is comprised of transition zone forests between aspen parkland and boreal/mixedwood. Several wetlands and sedge meadows are also present. Wildlife found in the area includes white-tailed and mule deer, moose, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, ALF, Busby Fish & Game, Fort Saskatchewan Fish & Game, Lethbridge Fish & Game, Mayerthorpe Fish & Game, Millet Fish & Game, Morinville Fish & Game, Sherwood Park Fish & Game, Spruce Grove Fish & Game, St. Albert Fish & Game, Stony Plain Fish & Game, Thorsby Fish & Game, TransAlta, Vegreville Fish & Game, Wabamun Fish & Game, Whitecourt Fish & Game, Zone 4 Fish & Game

### Reubin Grinde

**Site Details:** This 160-acre site is approximately 18 km southeast of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-32-047-15-W4M

### Phantom River

**Site Details:** This 59-acre site is approximately 16 km west of Perryvale and consists of open meadow riparian areas and mature mixedwood forest. Access is through a road allowance at the junction of

RR 251 and Twp Rd 632. The site is 1 km south of this junction. Though small, the site borders protected Crown lands on its west and south sides, and provides a habitat buffer between Bolloque Creek, which flows through the site, and a grazing lease on its north and east sides. Wildlife includes moose, white-tailed and mule deer, black bear and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SW-12-063-25-W4M

### Wetaskiwin Lions Trout Pond - ACA Fish Stocking

**Site Details:** This pond is located on the northeast side of Wetaskiwin. It is situated east of Highway 814 along Highway 13 in the Wetaskiwin Lions Campground. ACA stocks this pond annually with rainbow trout and brook trout, typically before the May long weekend.

**Restrictions:** No open fires. Foot access only.

**Partners:** ACA, AEP, Wetaskiwin Lions Club

**Quarter Sections:** LOCATED IN WETASKIWIN

### Heritage Lake - ACA Fish Stocking

**Site Details:** Heritage Lake is located less than 1 km west of Morinville. From Highway 2, turn west at Morinville on Highway 642 and travel 0.7 km. The lake is immediately south of the highway and can be accessed from the Morinville RV Park. ACA annually stocks this pond with rainbow trout and brook trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-33-055-25-W4M

### 38 Gibbons Pond - ACA Fish Stocking

**Site Details:** This pond is located in the town of Gibbons, just off Landing Trail. Landing Trail is accessed via 50 Avenue from either Highway 28 or 28A, or by 59 Avenue via Highway 643. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Nutrien, Town of Gibbons

**Quarter Sections:** LOCATED IN GIBBONS

### 39 McNary

**Site Details:** This 150-acre site is approximately 6 km west of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-02-047-21-W4M

### 40 Boyle Pond - ACA Fish Stocking

**Site Details:** This 10-acre pond is situated on the west side of Highway 831, 5.5 km south of Boyle. Visitors can try their luck at catching trout, watching wildlife or simply relaxing. Facilities include an observation platform with interpretive signage, a camp kitchen, picnic area and ample parking. It is stocked annually by ACA with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. Fires are permitted in the designated campfire sites only.

**Partners:** ACA, AEP, Athabasca County

**Quarter Sections:** NE-16-064-19-W4M

### 41 Pleasure Island Fish Pond - ACA Fish Stocking

**Site Details:** This pond is approximately 4 km southeast of Camrose and is accessed south of Highway 13 on RR 195. ACA annually stocks this pond with rainbow and brown trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Camrose and District Fish & Game Association

**Quarter Sections:** SW-20-046-19-W4M

### 42 Kotlarchuk 80

**Site Details:** This 80-acre site is 4 km west of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-27-053-17-W4M

### 43 Ferleyko 1

**Site Details:** This 80-acre site is 9 km southeast of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-34-052-16-W4M

### 44 Eikerman

**Site Details:** This 160-acre site is located approximately 30 km southwest of Camrose and consists of a mix of upland aspen forest and small wetlands in which

moose, white-tailed deer, and grouse abound. This site also offers great saskatoon berry picking opportunities. From the hamlet of Gwynne, travel south on Highway 822, east on Twp Rd 462, and south on RR 223 for 1.6 km. This is the NE corner of the property.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-04-046-22-W4M

### 45 Tawatinaw

**Site Details:** This 160-acre site is approximately 32 km northeast of Westlock. Access is from Twp Rd 621, which turns north to meet RR 241 and bisects the site. The site consists mostly of mature aspen forest with a thick understory. Wildlife found in the area includes moose, white-tailed and mule deer, black bear and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SE-11-062-24-W4M

### 47 Liber 80

**Site Details:** This 80-acre site is 5 km southwest of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-14-053-17-W4M

### 49 Nuggent Pond - ACA Fish Stocking

**Site Details:** ACA annually stocks this pond with rainbow trout, typically before the May long weekend. Mobility-impaired access improvements include a wheelchair-friendly asphalt path, casting platform

and outhouse. From the hamlet of Bluffton travel north on Highway 20, east on Twp Rd 442, north on RR 30 for 0.75 km and turn west into the site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Safari Club International

**Quarter Sections:** SE-14-044-03-W5M

### 50 Gardenview

**Site Details:** This 100-acre site is located 20 km southwest of Barrhead and consists of approximately 100 acres of upland habitat adjacent to a wetland. Take Highway 33 south from Barrhead to Highway 654. Travel west on Highway 654 for 4.9 km and then travel south on RR 41 for 2.2 km. The range road runs through the site, and a parking area and signage are present. The uplands are reclaimed from a previous cultivation lease and are predominantly grassland with some planted shrubs and tree encroachment from scattered clumps of aspen. The open grassland is used by upland nesting songbirds and ducks. The adjacent wetland is an important breeding and staging area for waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, County of Barrhead

**Quarter Sections:** SE-11-058-04-W5M

### 51 Ramsay

**Site Details:** This 106-acre site is approximately 9 km southeast of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-11-053-16-W4M

### Sherwood Park 1

**Site Details:** This 160-acre site is located approximately 10 km southwest of Tofield and consists of native parkland and managed forage. From Highway 14, turn south on Secondary Highway 833 to Twp Rd 504. Follow Twp Rd 504 west to RR 203. The site is located on the west side of RR 203 and the south side of Twp Rd 504. The wetlands support a large diversity of waterfowl and the uplands are managed for nesting cover and winter forage. Wildlife found in the area includes white-tailed deer, moose, grouse, and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC, NE Alberta Fish & Game, Sherwood Park Fish & Game

**Quarter Sections:** NE-21-050-20-W4M

### Greenwall

**Site Details:** This 640-acre site is approximately 13 km southeast of Wetaskiwin and consists of native parkland. From Highway 2A at Wetaskiwin, travel east on Highway 613 for 16 km. Travel south on RR 224 for 3.2 km and then west 0.4 km to a parking lot. Wildlife abundant in the area includes white-tailed deer, moose, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-29-045-22-W4M, SE-31-045-22-W4M, NE/SW-32-045-22-W4M

### Lyseng Reservoir

**Site Details:** This 564-acre site is located approximately 11 km northwest of Camrose and consists of upland, riparian, and wetland habitat. The SE-05-048-20-W4M quarter can be accessed via the southwest corner of the quarter section and no permission is required. However, the crop fields in this quarter are private property and not part of the site. Do not use the crop fields to access other areas of the quarter.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on site. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/SE-05-048-20-W4M, SE-08-048-20-W4M

### West Neerlandia

**Site Details:** This 160-acre site is approximately 22 km northwest of Barrhead and 12 km west of the hamlet of Neerlandia. It is 800 m west of RR 44. There is no direct road access to the site, but it can be accessed on foot via Crown land to the north. This is a mixedwood forest of aspen, spruce, tamarack and birch, with low-lying wetlands. There is a 7-acre field on the site's east side. Wildlife in the area includes moose, white-tailed and mule deer, black bear and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, AFGA, Suncor Energy Foundation

**Quarter Sections:** NW-32-061-04-W5M

### Sherwood Park 2

**Site Details:** This 80-acre site is managed by the Sherwood Park Fish & Game Association.

**Restrictions:** Contact Sherwood Park Fish & Game.

**Partners:** AFGA, Sherwood Park Fish & Game

**Quarter Sections:** NW-15-050-20-W4M

### Rozumniak 80

**Site Details:** This 80-acre site is approximately 3 km west of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** West Half SW-26-053-17-W4M

### Churchill

**Site Details:** This 156-acre site is approximately 10 km northeast of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-12-049-21-W4M

### Seniuk Native 80

**Site Details:** This 80-acre site is approximately 10 km northeast of Mundare and consists of wetland, grassland and bush habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may

be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-02-054-16-W4M

### Vandenberg Purchase

**Site Details:** This 80-acre site is approximately 12 km north of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please contact Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW/SE-16-044-22-W4M

### Morinville Fish and Game Pond - ACA Fish Stocking

**Site Details:** This pond is located in Morinville. From Highway 2, turn east on Highway 642 (100 Ave.), then north onto 107 St. for about 0.5 km and east on 103 Ave. ACA annually stocks this pond with rainbow trout and brown trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Morinville Fish & Game Association

**Quarter Sections:** LOCATED IN MORINVILLE

### Turchin

**Site Details:** This 63-acre site is approximately 8 km southeast of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-02-053-16-W4M

### Andruchow

**Site Details:** This 80-acre site is approximately 8 km northwest of Mundare and consists of wetland, grassland, and bush habitat. Wildlife in the area includes white-tailed and mule deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please contact John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-11-054-17-W4M

### Flatbush 2

**Site Details:** This 140-acre site is part of the Flatbush group of sites, all situated within 10 km of the hamlet of Flatbush. It is 4.5 km from the hamlet, directly southwest of the RR 21 and Twp Rd 664 intersection. Flatbush 3 and 6 (D3-98 and D3-155) neighbour this site. Two 10-acre private residences are also located on the quarter section, but are not part of the site. Please mind these residences when using the site for recreational purposes. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Total E&P Canada

**Quarter Sections:** NE-23-066-02-W5M

### Krause H

**Site Details:** This 156-acre site is approximately 12 km southwest of Bittern Lake and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-04-046-22-W4M

### Daysland

**Site Details:** This 964-acre site is approximately 20 km south of Holden. Access is on the east side from Highway 855, on the north side from Twp Rd 474, on the west side from RR 163 or on the south side from Twp Rd 472. The site has a typical parkland mix of small wetlands, small deciduous forest stands and open fields. Wildlife in the area includes moose and white-tailed and mule deer.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, DUC

**Quarter Sections:** NW/NE/SW/SE-15-047-16-W4M, NW/SW-22-047-16-W4M

### Dobbie

**Site Details:** This 153-acre site is approximately 13 km northwest of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-17-048-20-W4M

### Winczura

**Site Details:** This 320-acre site is approximately 20 km southeast of Holden and consists of wetland, grassland and bush habitat. Wildlife in the area includes white-tailed and mule deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE/SE-32-047-15-W4M

### Rossington

**Site Details:** This 319-acre site along the Pembina River is approximately 20 km east of Barrhead. While there is no direct road access, it is 350 m north of Hwy 18 and can be accessed on foot along the river or through a narrow public access corridor located directly north of the site sign. The access trail follows the treeline west of a cultivated field. The site includes the quarters listed on the east side of the Pembina River, except for the cultivated lands, which are held under a farm development lease. The site does not include the portion of NW 09 north of the oxbow or those portions of quarter sections on the west side of the Pembina River. It is mostly forested with mature trembling aspen. Part of an oxbow lake enters the site on the east side, providing habitat for ducks and other wetland species. Other wildlife in the area includes moose, white-tailed and mule deer, black bear and ruffed grouse. Fish species in the Pembina River include northern pike, walleye and goldeye.

**Restrictions:** Day use only. No open fires. Foot access only. To enter the farm development lease, refer to access and restrictions on AEP's website.

**Partners:** ACA, AEP

**Quarter Sections:** NE/SE-08-060-01-W5M, NW/SW-09-060-01-W5M, SE-17-060-01-W5M

### North Fawcett 4

**Site Details:** This 146-acre site is part of the North Fawcett group of sites, all situated within 10 km of the hamlet of Fawcett. It is located approximately 4 km north of Fawcett on the northeast side of the intersection between Highway 44 and Twp Rd 650. A 14-acre

private residence on the south side of the site next to Twp Rd 650 is not part of the site. Please be mindful of the residence when using the site for recreational purposes. Habitat is diverse and ranges from low-lying areas dominated by ephemeral wetlands and willow, to dry pine-dominated microsites. Wildlife found in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** SW-04-065-01-W5M

### Rehlaui

**Site Details:** This 41-acre site is approximately 11 km northwest of Mundare consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-30-054-16-W4M

### Kormish 80

**Site Details:** This 80-acre site is 10 km southwest of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-34-052-17-W4M

### 76 Mound Red Reservoir - ACA Fish Stocking

**Site Details:** Mound Red Reservoir features a large stocked pond, native woodland habitat and a campground. ACA stocks this pond annually with rainbow trout, typically before the May long weekend. Migratory birds like ducks and geese frequent the pond, and you might see a moose feeding on weeds in the pond. From Wetaskiwin travel west on Highway 13. At the village of Westeros travel south on RR 10, then east on Twp Rd 452 and south at the sign for Mound Red Reservoir.

**Restrictions:** No open fires. Foot access only.

**Partners:** ACA, AEP, Wetaskiwin County

**Quarter Sections:** NW-11-045-28-W4M

### 77 Cherniawski

**Site Details:** This 120-acre site is approximately 10 km north of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present on site. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-36-054-17-W4M

### 78 Granger

**Site Details:** This 80-acre site is 7 km northwest of Mundare and consists of upland, riparian and wetland habitat. Wildlife found in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-11-054-17-W4M

### 79 Don Sparrow Lake - ACA Fish Stocking

**Site Details:** This pond is located in Beaumont's Four Seasons Park. From Highway 625 turn north onto 60 Street. Follow this road for 0.8 km to the parking lot. The pond is northwest of the spray park. ACA annually stocks this pond with rainbow trout and brown trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Aquality Environmental Consulting Ltd., City of Beaumont, Northern Lights Fly Fishers, SysGen Solutions Group, TUC

**Quarter Sections:** LOCATED IN BEAUMONT

### 80 French

**Site Details:** This 80-acre site is 20 km southeast of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** EAST HALF OF NE-24-047-16-W4M

### 81 Ambler

**Site Details:** This 120-acre site is approximately 11 km north of Gwynne and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-31-047-22-W4M

### 82 Whitford Lake

**Site Details:** This 738-acre site is east of Andrew. Quarter section NE-10 is southwest of the intersection between Twp Rd 562 and RR 162 and provides a lookout over Whitford Creek. Take RR 162 north to reach the quarter sections NW/NE-14 and SW/SE-23 on Whitford Lake. Whitford Lake is a good example of a shallow lake system that provides open water for waterfowl in wet years and ground-nesting opportunities for songbirds and marsh birds in dry years. Located 1.6 km east of the Whitford Lake quarters are SW/SE-18 which are on the north end of what is known as Whitford Rush. This wetland is mostly dry during dry years but fills up with water in wet years, providing additional waterfowl habitat.

**Restrictions:** Day use only. No open fires. Foot access only. Hunting restrictions are in place on Whitford Lake.

**Partners:** ACA, Alberta Ecotrust, AEP, County of Lamont, County of Two Hills, PFRA – Vegreville, Sunoma Energy, Union Pacific Resources Inc.

**Quarter Sections:** SW/SE-18-056-15-W4M, NE-10-156-16-W4M, NW/NE-14-056-16-W4M, SW/SE-23-056-16-W4M

### 83 Lamont Pond - ACA Fish Stocking

**Site Details:** This pond is located approximately 2 km northeast of Lamont. Follow 48 St. north for 1.6 km to Highway 637. Turn east and travel 1.6 km to the pond located on the north side of the highway. Access is via the gravel road along the west shore. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Lamont Fish & Game, Town of Lamont, Aux Sable

**Quarter Sections:** SW-27-055-19-W4M

### 84 Karvonen

**Site Details:** This 160-acre site is just over 8 km east of Boyle and close to the west side of Amisk Lake. It is directly southeast of intersection of Twp Rd 650 and RR 184 and accessible from RR 184. It is forested with trembling aspen, white spruce and black spruce. A 20-acre open water wetland along the east side is connected via a creek to Amisk Lake. Wildlife in the area include moose, white-tailed deer, mule deer, black bears and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** NW-33-064-18-W4M

### 85 Dapp Lake

**Site Details:** This 320-acre site is located approximately 10 km southeast of Dapp and consists of a shallow marsh surrounded by upland grasses. Wildlife found in the area includes waterfowl and ungulates.

**Restrictions:** Day use only. No open fires. Foot access only. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-18-062-24-W4M, NE-12-062-25-W4M, SE-13-062-25-W4M

### 86 Tanasichuk

**Site Details:** This 79-acre site is located approximately 13 km west of Mundare and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes waterfowl and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-12-053-18-W4M

### Rachansky 30

**Site Details:** This 152-acre site is approximately 10 km southwest of Mundare and consists of upland, riparian and wetland habitat. Wildlife found in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-02-053-17-W4M

### Cindy

**Site Details:** This 150-acre site is approximately 10 km north of Mundare and includes a large wetland that provides important nesting habitat for a variety of waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** AFGA, DUC

**Quarter Sections:** NE-19-054-16-W4M

### Pigeon Lake

**Site Details:** This 160-acre site is located at the northwest corner of Pigeon Lake in the Parkland region of central Alberta. The vegetation consists of mature native shrubs and grasses. Wildlife found in the area includes white-tailed and mule deer, moose, black bear, grouse, and a variety of small mammals and songbirds. Tide Creek runs through the site and provides important spawning areas for walleye, northern pike, and suckers.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AEP, AFGA, ASRPWF, Zone 3 Fish & Game clubs

**Quarter Sections:** NE-15-047-02-W5M

### Kim-Bo

**Site Details:** This 160-acre site is approximately 20 km southwest of Lac La Biche and consists of aspen stands and native grass. Wildlife in the area includes ungulates and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-18-065-16-W4M

### Legal Reservoir - ACA Fish Stocking

**Site Details:** This reservoir is located in Centennial Park in Legal. From Highway 651, which becomes 50 Avenue, turn south on 50 Street and then east on 49 Avenue. Centennial Park is at the east end of 49 Avenue. ACA stocks this pond annually with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Town of Legal

**Quarter Sections:** LOCATED IN LEGAL

### Tod

**Site Details:** This 160-acre site is approximately 6 km northwest of Kingman and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-24-049-20-W4M

### North Fawcett

**Site Details:** This 150-acre site is part of the North Fawcett group of sites, all situated within 10 km of the hamlet of Fawcett. It is located

on the south side of Twp Rd 650, 2 km west of Highway 44 and approximately 4 km northwest of the hamlet. It is directly west of North Fawcett 2 (D3-12) and corners North Fawcett 6 (D3-156) on the northwest side. A 10-acre private residence located on the northeast side on Twp Rd 650 is not part of the site. Please be mindful of the residence when using the site for recreational purposes. It has a mix of open grassland and forest. Many young spruce and pine trees are growing in the open areas due to reforestation efforts and several wetlands have been restored by DUC. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Fort Saskatchewan Fish & Game Association, Spruce Grove Fish & Game Association, Suncor Energy Foundation

**Quarter Sections:** NE-31-064-01-W5M

### Ambrose

**Site Details:** This 313-acre site is located approximately 100 km west of Edmonton, just north of Lake Isle. The site consists of native upland habitat, some muskeg, and small wetlands. Wildlife found in the area includes white-tailed and mule deer, moose, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, ASRPWF, Mayerthorpe Fish & Game, Morinville Fish & Game, Spruce Grove Fish & Game, St. Albert Fish & Game, Stony Plain Fish & Game

**Quarter Sections:** NE/SE-31-054-05-W5M

### North Fawcett 3

**Site Details:** This 160-acre site is part of the North Fawcett group of sites, all situated within

10 km of the hamlet of Fawcett. It is approximately 4 km northeast of the hamlet and borders the Hubert Lake Wildland Provincial Park. It is bisected by RR 20, though most of the site is west of the road. A mixed forest of aspen, pine and birch dominates this site. Wildlife includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** NE-24-064-02-W5M

### Flatbush 3

**Site Details:** This 160-acre site is part of the Flatbush group of sites, all situated within 10 km of the hamlet of Flatbush. It is 5 km from the hamlet on the south side of Twp Rd 664, 800 m west of RR 21. Flatbush 2 and 6 (D3-66 and D3-155) neighbour the site. A large marsh and wetland complex lie along most of the west half. The rest is covered in an aspen and spruce mixedwood forest. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** NW-23-066-02-W5M

### Daly 2

**Site Details:** This 150-acre site is 3 km northwest of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-34-053-17-W4M

**TEMPORARY HUNTING STRUCTURES** may be put into place up to one month before hunting season and must be taken down no more than 14 days after the season ends.

### Martin Kachuk Memorial

**Site Details:** This 316-acre site is located approximately 8 km southeast of Willingdon on Highway 45 and is managed for wildlife in memory of Martin Kachuk. The site consists of two separate quarter sections restored to a parkland ecosystem from annual cropland. This transformation was accomplished by planting forest shelterbelts, seeding grasses, and restoring wetlands, as well as through natural encroachment of the aspen bluffs. These enhancements provide important habitat for deer, small mammals, and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. No hunting.

**Partners:** ACA, AEP

**Quarter Sections:** SSW-27-055-14-W4M, SW-34-055-14-W4M

### Mulloy

**Site Details:** This 156-acre site is approximately 11 km northeast of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-13-049-21-W4M

### Seniuk South 80

**Site Details:** This 80-acre site is approximately 8 km east of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-11-053-16-W4M

### Spring Lake (Stony Plain) - Lake Aeration

**Site Details:** This 171-acre lake, approximately 8.5 km west of Stony Plain, is annually stocked with rainbow trout by AEP and is aerated in fall through ACA's Lake Aeration Program. Park in the designated day-use parking areas within the Village of Spring Lake and use foot trails to get to the lake.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Village of Spring Lake

**Quarter Sections:** SW-30-052-01-W5M

### Holt D

**Site Details:** This 170-acre site is approximately 31 km southeast of Wetaskiwin and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW/SE-21-044-22-W4M

### Meyer

**Site Details:** This 80-acre site is approximately 32 km southeast of Wetaskiwin and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW/SE-16-044-22-W4M

### Lac Ste. Anne

**Site Details:** This 744-acre site is located approximately 80 km west of Edmonton on the southwest arm of Lac Ste. Anne and can be accessed from Highway 633 by travelling north on RR 43. The habitat consists of upland deciduous forest, tame meadows, and riparian areas. Sport fish in Lac Ste. Anne include lake whitefish, walleye, northern pike, and yellow perch.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-28-054-04-W5M, SE-29-054-04-W5M, NE/SW/SE-33-054-04-W5M

### Telegraph Park Pond - ACA Fish Stocking

**Site Details:** This pond is bordered by Highway 617, Highway 21, and RR 215. The access road runs south off Highway 617, southeast of Hay Lakes. ACA annually stocks this pond with rainbow, brown, and brook trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Village of Hay Lakes

**Quarter Sections:** NW-32-048-21-W4M

### Lunnford

**Site Details:** This 124-acre site is approximately 20 km southeast of Barrhead. It can be accessed from RR 25A from the south along an unimproved portion of the road north of Twp Rd 583B. The site includes those parts of the quarter sections that fall on the east side of the Pembina River and consists of abandoned and naturally reseeded fields, shrublands and a small wooded area. The Pembina River holds walleye, goldeye and northern pike. Wildlife found in the area includes moose, white-tailed and mule deer, black bear and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SW-30-058-02-W5M, SE-25-058-03-W5M

### Blue Sky 22

**Site Details:** This 160-acre site is approximately 1 km east of Bittern Lake and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-29-046-21-W4M

### Jackpine

**Site Details:** This 161-acre site is located approximately 19 km east of Smoky Lake along the north side of Highway 28. Mature Jack pine dominates the landscape and trembling aspen, balsam poplar, birch, alder, willow, and rose are also present. Wildlife found in the area includes white-tailed deer, moose, grouse, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only with the exception of the designated snowmobile trails that cut across and border the site.

**Partners:** AFGA, County of Smoky Lake, Vilna Fish & Game

### Daysland Pond - ACA Fish Stocking

**Site Details:** This pond is located in Daysland and is adjacent to the golf course. From Highway 13, take 50 Street north to 52 Avenue. Turn west at 52 Avenue and proceed to the 52 Street alley. Turn north at the alley and proceed to the end. Follow the path to the pond. ACA annually

stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Town of Daysland

**Quarter Sections:** LOCATED IN DAYSLAND

### Atim Creek

**Site Details:** This 126-acre site is on the south side of Highway 16 eastbound about 3.5 km west of Spruce Grove. Site access and parking are on the northeast corner. The site covers the portion of the quarter section that lies south of Highway 16 and southeast of the creek in the northwest corner of the quarter. Habitat consists of grasslands with a small wooded portion bordering Atim Creek. Wildlife in the area includes white-tailed deer and upland birds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, DUC, Volunteer Stewards - Spruce Grove Fish & Game Association

**Quarter Sections:** NE-07-053-27-W4M

### Tritten

**Site Details:** This 155-acre site is approximately 3 km north of New Sarepta and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-09-050-22-W4M

### Lucyk 80

**Site Details:** This 70-acre site is 11 km northwest of Mundare and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-08-054-17-W4M

### Maruschak

**Site Details:** This 160-acre site is approximately 6 km southwest of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-26-048-22-W4M

### Klassen

**Site Details:** This 155-acre site is approximately 32 km southeast of Wetaskiwin and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse, and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-22-044-22-W4M

### Dochstader

**Site Details:** This 74-acre site is 3 km south of Mundare and consists of upland, riparian and wetland habitat. Wildlife found in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-07-053-16-W4M

### Beck 22

**Site Details:** This 153-acre site is approximately 13 km northwest of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-15-047-21-W4M

### Sunohara

**Site Details:** This 153-acre site is approximately 6 km west of Ferintosh and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call 403-352-9353 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-36-043-22-W4M

### Lindstrand 22

**Site Details:** This 80-acre site is approximately 18 km northeast of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** S1/2-NE 28-50-16-W4M

### Rasmuson 10

**Site Details:** This 160-acre site is approximately 18 km northwest of Bittern Lake and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-36-047-23-W4M

### Grace

**Site Details:** This 294-acre site is approximately 13 km northwest of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE-09-048-20-W4M

### Holowachuck

**Site Details:** This 640-acre site is approximately 20 km southwest of Lac La Biche. Habitat includes large wetlands surrounded by aspen and native grasses. Wildlife in the area includes ungulates and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Misyk**

**Site Details:** This 160-acre site is approximately 24 km southeast of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-28-047-15-W4M

**McGrane Lagoon**

**Site Details:** This 333-acre site is located approximately 7 km northwest of the town of Lac La Biche. Take Highway 55 west from Lac La Biche to Mission Road, turn north and follow the road northwest for approximately 4.8 km. The site is on the east side of the road and consists of River Lots 53 and 53½ on the south shore of Lac La Biche. A fenceline runs along the site's north and south boundaries. A relatively old-growth aspen forest and a wetland complex is situated on the south and west sides of the lagoon. The lagoon is an important northern pike spawning area and provides habitat for waterfowl and shorebirds. Good news for berry pickers, gooseberries and raspberries are abundant throughout!

**Restrictions:** Day use only. No open fires. Foot access only. Boat access is not possible at this site.

**Partners:** ACA, AEP

**Quarter Sections:** SE-22-067-14-W4M

**East Pit Lake**

**Site Details:** This 312-acre site is located directly north of Wabamun. The site is managed as a day-use, recreation area with hiking trails and a well-established rainbow trout fishery.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AEP, AFGA, County of Parkland, Fording Coal, Stony Plain Fish & Game, TransAlta

**Quarter Sections:** NW-13-053-04-W5M, NW/NE-14-053-04-W5M, SW/SE-23-053-04-W5M

**Gouin**

**Site Details:** This 480-acre site is north of Clyde. Travel north on Highway 2, turn east on Twp Rd 604, and then north on RR 250. The parking area is on the east side of the road and an unmaintained access trail can be followed from there into the center of the site. This site transitions between Jack pine, trembling aspen and birch tree stands. A large open waterbody is at the center of the site, thanks to efforts from Ducks Unlimited Canada. Donated by a passionate naturalist, Robert Gouin, Gouin still holds some of his artistic creations and numerous bird boxes, which are maintained by the Westlock Whitetails Junior Forest Warden Club.

**Restrictions:** Day use only. No open fires. Foot access only. No hunting. Access is by permission only from ACA (1-877-969-9091).

**Partners:** ACA, Volunteer Stewards - Westlock Whitetails, Junior Forest Wardens

**Quarter Sections:** NE/SW/SE-30-060-24-W4M

**Grieve**

**Site Details:** This 158-acre site is north of Clyde. From Clyde, travel north on Highway 2, turn east on Twp Rd 604, south on RR 250, and then east on Twp Rd 603A. Access is from the south. Other than a small open field on the southeast corner, the site is covered by mixedwood forest stands of trembling aspen, white spruce and jack pine. Wildlife in the area includes black bear, deer, ruffed grouse and moose.

**Restrictions:** Day use only. No open fires. Foot access only. Discharging of firearms for the purpose of target practice or sighting in firearms on conservation sites is prohibited for the safety and enjoyment of all users and neighbouring residents. Violators will be prosecuted.

**Partners:** ACA

**Quarter Sections:** NE-19-060-24-W4M

**Lacombe Lake Park - ACA Fish Stocking**

**Site Details:** This pond is in St. Albert. From St. Albert Trail/Highway 2, turn west on McKenney Avenue and travel 1.8 km. The pond is on the north side. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, City of St. Albert

**Quarter Sections:** LOCATED IN ST. ALBERT

**Bergquist**

**Site Details:** This 155-acre site is approximately 6 km southwest of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-27-048-22-W4M

**Golden Ranches**

**Site Details:** This 1,350-acre site is 15 km northwest of Tofield along the east shore of Cooking Lake. It can be accessed from RR 205, 210 or 211 or by Twp Rd 513A, 514 or 515. A private driveway leads to the two quarter sections (SW/SE-36-051-21-W4M) that are privately owned and not part of the site. The portion of NE-25-051-21-W4M lying north of the driveway is also privately owned and not part of the site. Located in the heart of the Cooking Lake Moraine, the site features an impressive 8 km of shoreline and provides an opportunity to view rare avian species, waterfowl and other water birds staging on the lake during migration. The upland habitat is a mixture of mature aspen forest and open grassland, providing habitat for wildlife including moose, white-tailed and mule deer, elk and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC, EALT, Matrix Solutions Inc., NCC, Suncor Energy Foundation, Syncrude Canada Ltd.

**Quarter Sections:** NE-30-051-20-W4M, NW/SW/SE-31-051-20-W4M, NW-24-051-21-W4M, NW/NE/SW/SE-25-051-21-W4M, NE/SE-35-051-21-W4M, NW/NE-36-051-21-W4M

Refrain from discharging firearms for the purpose of target practice or sighting in on Conservation Sites.

For the safety and enjoyment of all users and neighbouring residences, conduct these activities at a gun range.

## 141 Cameron Development Corporation

**Site Details:** This 80-acre site is on the south half of the quarter section (Lots 3 and 4), approximately 3.5 km south of Hastings Lake. It is 2 km south of Hwy 14 and can be accessed on the west side from RR 205. The site is covered mostly with mature aspen forest with a thick hazelnut understory. A small white spruce stand is near the middle of the site. A number of small wetlands dot the landscape. Wildlife in the area includes moose, white-tailed and mule deer and ruffed grouse

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Cameron Development Corporation

**Quarter Sections:** NW-05-051-20-W4M

## 142 Busenius

**Site Details:** This 155-acre site is approximately 4 km south of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-19-048-21-W4M

## 143 Thomson Park

**Site Details:** This 79-acre site lies in the northwest portion of the quarter section and was donated by Walter and Ansgard Thomson. Found within the hamlet of Fort Assiniboine, it consists of a unique combination of upland, riparian areas, and old growth forest. There is a steep ravine in the western portion of the site and a small ephemeral creek runs north-south through the site. This site also provides particularly good cranberry picking opportunities.

**Restrictions:** Day use only. No open fires. Foot access only. No hunting.

**Partners:** ACA

**Quarter Sections:** Pt.NE-02-062-06-W5M

## 144 Coykendall

**Site Details:** This 156-acre site is approximately 10 km southeast of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-31-048-20-W4M

## 145 North Fawcett 5

**Site Details:** This 160-acre site is part of the North Fawcett group of sites, all situated within 10 km of the hamlet of Fawcett. This site is approximately 10 km northwest of the hamlet. It can be accessed at the southwest corner via a developed road allowance on RR 20, 3.2 km north of Twp Rd 650. The site has a low riparian area that cuts through its centre, mixedwood aspen and spruce uplands and black spruce bog areas. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** SE-18-065-01-W5M

## 146 Rettaller

**Site Details:** This 235-acre site is approximately 8 km southwest of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW/SE-33-048-22-W4M

## 147 Flatbush 5

**Site Details:** This 316-acre site is part of the Flatbush group of sites, all within 10 km of the hamlet of Flatbush. It is 5 km north of the hamlet and lies between RR 15 and RR 20 on the north side of Twp Rd 664. The land is a mix of historical agricultural land and forested areas, and is bordered on the north by lowland habitat. Trees, shrubs, herbs and grasses have been planted over the years to restore native habitat. Wildlife found in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** SW/SE-30-066-01-W5M

## 148 Washing Lake

**Site Details:** This 140-acre site is approximately 8 km southwest of Hay Lakes and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-27-048-22-W4M

## 149 Flatbush 4

**Site Details:** This 160-acre site is part of the Flatbush group of sites, all situated within 10 km of the hamlet of Flatbush. It is 2.5 km east of Highway 44 on Twp Rd 662, on the south side. Predominantly a low wetland site, it is forested with black spruce and white birch. A 55-acre portion was logged a number of years ago but has filled in with young trees and willow bushes.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** NE-10-066-01-W5M

## 150 East Oakley Lake

**Site Details:** This 464-acre site is located approximately 24 km north of the town of Boyle and may be accessed by travelling east 3.7 km on Twp Rd 670A from its junction with Highway 55. Park along the west border of the property. The site is largely forested, with access to Oakley Lake in the northwest corner. The native forest consists of a combination of upland vegetation and low-lying wet areas dominated by black spruce, tamarack, and willow, which provide good moose habitat. Berry pickers will enjoy the sights and smells of bog cranberries, cloudberry, blueberries, and raspberries.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Suncor Energy Foundation

**Quarter Sections:** NW-06-067-18-W4M, NW/SW-07-067-18-W4M

## 151 Radway Fish Pond - Lake Aeration and ACA Fish Stocking

**Site Details:** This 2.2-acre pond is just southwest of the town of Radway and can be accessed from Railway Avenue and the corner of RR 205. ACA annually stocks this pond with rainbow trout, typically before the May long weekend, and aerates the pond during the summer.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Radway Lions Club, Shell Canada Energy, Thorhild County

**Quarter Sections:** SW-32-058-20-W4M

## HUNT | HARVEST

### harvestyo

A hunter in a white ghillie suit and a dark hat with snow on it is walking through a field of dry, brown grass. He is carrying a long-barreled rifle over his shoulder and a large, harvested goose in his left hand. The background shows a vast field with many other geese scattered across it. The sky is overcast and grey.

Spring Goose Season  
opens March 15th, 2020

### Labyrinth Lake Uplands

**Site Details:** This 460-acre site is approximately 24 km northeast of Wetaskiwin and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-04-048-22-W4M, NE-05-048-22-W4M, SE-08-048-22-W4M

### Clifford E. Lee Nature Sanctuary

**Site Details:** This 330-acre site is located about 5 km northwest of Devon. From Highway 60, head west on Twp Rd 514 for 1.5 km. Turn south on RR 264 and look for the parking lot and trailhead on your right, about 1 km down the road. The trail consists of meandering boardwalk and dry land paths totalling almost 3.5 km. This site is home to various songbirds, shorebirds, waterfowl, insects, ungulates, and amphibians. Interpretive signs describe different habitats you will come across including wetland, aspen forest, pine forest, meadow, and mixed coniferous/deciduous forest.

**Restrictions:** No open fires. Day use only. Please stay on paths. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-20-051-26-W4M, NE-17-051-26-W4M

### John E. Poole Boardwalk

**Site Details:** A new interpretive wetland boardwalk is now open to the public, located in Lois Hole Provincial Park, at the east end of Big Lake. Be sure to bring your binoculars and camera as you explore the marsh on over 350 m of boardwalk. This site is host to a great variety of waterfowl, shorebirds, songbirds, and insects. Moose, deer, and muskrat have also been spotted in the area. Find walking access to the site from the Red Willow Trail system in St. Albert.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** Alberta Parks, City of St. Albert, DUC

**Quarter Sections:** NW-29-053-25-W4M

### Flatbush 6

**Site Details:** This 139-acre site is part of the Flatbush group of sites, all situated within 10 km of the hamlet of Flatbush. It is 5 km from the hamlet, on the northwest side of Twp Rd 664 and RR 21 intersection. Flatbush 2 and 3 (D3-66 and D3-98) neighbour this site. A 20-acre private residence on the southeast corner of the quarter section is not part of the site. Please mind this residence when using the site for recreational purposes. On the south side of the property is a small, 7-acre field. In 2001, a large fire went through the area and burned most of the trees on the site. There are plenty of young trees and shrubs growing to replace the large black spruce that burned down, but this can be challenging to walk through.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** SE-26-066-02-W5M

### North Fawcett 6

**Site Details:** This 316-acre site is part of the North Fawcett group of sites, all situated within 10 km of the hamlet of Fawcett. It is approximately 4 km north of the hamlet on the northwest side of the intersection of Highway 44 and Twp Rd 645. It lies directly south of North Fawcett 2 (D3-12) and southeast of North Fawcett (D3-94). Though most of the site was open grassland when purchased, young aspen, spruce, tamarack and pine trees have been planted in the open fields to help reforest the site. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** SW/SE-32-064-01-W5M

### Karvonen 2

**Site Details:** This 144-acre site is approximately 10 km east of Boyle and borders Amisk Lake, although the lake is not easily accessible from here. It was partially donated by the Karvonen family, with the remainder covered through a partnership with Suncor Energy Foundation. It can be accessed via Twp Rd 644A which ends at a private, gated road. The private road leads to a residence by the lake and visitors can walk along this road to access areas of the site, but it is not open for general vehicular traffic. The landscape slopes downward from the west toward the lake, and the site is forested with trembling aspen and white spruce. Amisk Lake is a popular angling spot for walleye, northern pike and perch.

**Restrictions:** Day use only. No open fires. Foot access only. No hunting.

**Partners:** ACA, Suncor Energy Foundation

**Quarter Sections:** NE-28-064-18-W4M

### North Fawcett 7

**Site Details:** This 160-acre site is part of the North Fawcett group of sites, all situated within 10 km of the hamlet of Fawcett. It is approximately 8 km northwest of the hamlet, on the east side of RR 20 and 1.6 km north of Twp Rd 650. Its mixedwood forest is dominated by spruce, with pine and tamarack occurring in select locations throughout. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** SW-07-065-01-W5M

### Strohhaecker

**Site Details:** This 320-acre site is approximately 14 km north of Daysland and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE-28-046-16-W4M

### Big Country

**Site Details:** This 156-acre site is approximately 22 km south of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-33-046-16-W4M

### Big Country 3

**Site Details:** This 156-acre site is located approximately 22 km south of Holden and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on site. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-33-046-16-W4M

### Don Seniuk

**Site Details:** This 80-acre site is approximately 7 km northwest of Mundare and consists of upland, riparian, and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-03-054-17-W4M

### J.H. Brown

**Site Details:** This 158-acre site is approximately 10 km west of Tofield and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on site. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-35-050-20-W4M

### Dusty North

**Site Details:** This 160-acre site is approximately 10 km east of Round Hill and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present between July 20 and October 30. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

### Stavne

**Site Details:** This 147-acre site is approximately 12 km north of Camrose and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-10-048-20-W4M

### Fort Lions Community Fish Pond at West River's Edge - ACA Fish Stocking

**Site Details:** This pond is in the southwest corner of Fort Saskatchewan's West River's Edge Recreational Area. Accessible off Highway 21, this recreational area is maintained and managed by the City of Fort Saskatchewan. This pond was stocked with yellow perch by AEP.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, City of Fort Saskatchewan, Fort Saskatchewan Lions Club

**Quarter Sections:** LOCATED IN: FORT SASKATCHEWAN'S WEST RIVER'S EDGE RECREATIONAL AREA

### Parkland

**Site Details:** This 160-acre site is approximately 48 km west of Stony Plain, 1.6 km south of Highway 16 just west of Wabamun Lake. The site consists mainly of aspen forest, black spruce and tamarack bogs, small wetlands and an unnamed lake. There is a good understory of dogwood, willow, alder and wild rose, with some saskatoon and chokecherry. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** SW-13-53-6-W5

### Wabamun North Shoreline

**Site Details:** TransAlta has been a significant part of the Wabamun landscape since 1956 and has provided employment opportunities and electricity for a growing Alberta. With the decommissioning of the power plant, TransAlta is donating several parcels of land to be maintained as habitat through the Wildlife Trust Fund. The 54.5-acre Wabamun North Shoreline Conservation Site ensures that environmental and habitat values along Wabamun Lake are maintained into the future. Prime fish spawning habitat, shorebirds, and a variety of waterfowl are associated with the riparian habitats. The uplands are diverse and provide year-round cover for deer and moose. Songbirds, woodpeckers, and a host of other wildlife also use the diverse uplands and tree cover.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, TransAlta

**Quarter Sections:** Pt. NW-34-052-05-W5M

### Flatbush 7

**Site Details:** This 150-acre site is part of the Flatbush group of sites, all situated within 10 km of the hamlet of Flatbush. It is only 800 m west of the railroad that goes through the hamlet and is on the south side of Twp Rd 661. A 10-acre private residence on the northeast corner of the quarter section is not part of the site. Please be mindful of this residence when using the site. About 70 acres in the center is forested with a mix of upland aspen and white spruce stands and lowland black spruce and tamarack stands. The perimeter of the site was mostly cleared, but is now regenerating back to a forest system. Wildlife in the area includes moose, mule and white-tailed deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** NW-01-066-02-W5M

### Sylvan Glen

**Site Details:** This 161-acre site lies 10 km east of the hamlet of Fawcett. The site is on the southwest corner of the RR 265 and Twp Rd 642 intersection. It consists of a mostly upland aspen forest stand surrounded by about 70 acres of grassland that was once cleared for pasture. Wildlife in this area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** NE-07-064-26-W4M

### North Pine Creek

**Site Details:** This 260-acre site is approximately 33 km south of Athabasca, just west of Highway 827. While there is no direct road access, the site can be accessed on foot via Crown land from the north along Twp Rd 632. The oil lease and associated road to the north of the site have a high volume of industry traffic. If parking in this area, ensure that your vehicle is not obstructing traffic. It consists predominantly of mixedwood forest with tamarack, white and black spruce, trembling aspen and paper birch. A large wetland borders the NE 02 parcel along the west boundary. Wildlife in the area includes moose, mule and white-tailed deer, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** NW-01-063-22-W4, Pt. NE-02-063-22-W4M

### South Pine Creek

**Site Details:** This 150-acre site lies approximately 37 km south of Athabasca and is easily accessed on the north side from Twp Rd 624 or from Highway 827, which bisects the property. The site consists of undisturbed boreal forest. Wildlife in the area includes moose, white-tailed and mule deer, black bear and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Canada

**Quarter Sections:** NE-23-062-22-W4M

### Letourneau

**Site Details:** This 79-acre site is approximately 10 km south of Stony Plain and 22 km west of Edmonton. It can be accessed from RR 11 about 400 m north of Hwy 627. Longhurst Lake borders its southeast corner. Atim Creek, a tributary to the Sturgeon River, flows through the southeast portion and into Longhurst Lake. The site consists of lush riparian habitat and native mixedwood and old growth coniferous forest that boast a highly productive understory full of Labrador tea, lichens and moss. Wildlife found in the area includes moose, mule and white-tailed deer, ruffed grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** SW-1-052-01-W5M

### Camp Creek

**Site Details:** This 160-acre site is approximately 35 km northwest of Barrhead and 9 km west of the hamlet of Camp Creek. Access is on the east side from RR 55. A 65-acre crop field and 18-acre hay field is at the centre of the site, which will eventually be converted back to native habitat. The rest of the site is mostly forested with trembling aspen, balsam poplar, white spruce and paper birch. Wildlife in the area includes moose, white-tailed deer, black bear and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, Shell Canada Energy

**Quarter Sections:** SE-07-061-05-W5M

### Macahonic

**Site Details:** This 80-acre site is approximately 18 km northwest of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/SW/SW-33-050-16-W4M

### Martin

**Site Details:** This 160-acre site is located approximately 15 km northwest of Camrose and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-21-048-20-W4M

### Naslund L&K

**Site Details:** This 316-acre site is approximately 24 km southeast of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/SW-15-047-15-W4M

### Naslund M&H

**Site Details:** This 310-acre site is approximately 22 km southeast of Holden and consists of upland, riparian and wetland habitat. Wildlife in the area includes moose, white-tailed and mule deer, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

### Archibald A 3

**Site Details:** This 160-acre site is located approximately 4 km northwest of Irma and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.  
**Quarter Sections:** NW-04-046-09-W4M

### 7D Coulee

**Site Details:** This 757-acre site is approximately 5 km east of Innisfree and consists of wetland, grassland and bush habitat. Wildlife the area includes white-tailed and mule deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.  
**Quarter Sections:** NW/SW-31-050-10-W4M, NE/SE-36-050-11-W4M, NW/SW-06-051-10-W4M

### Kochan R

**Site Details:** This 160-acre site is located approximately 27 km southwest of Vermilion and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.  
**Quarter Sections:** SW-01-049-08-W4M

### Battle River Ridge

**Site Details:** This 127-acre site is approximately 18 km north of Wainwright. Access is on the north side from Twp 464B or from the south side on Twp Rd 64. The large ridge on the site has an open field on top and is forested with aspen below. Wildlife in the area includes moose, white-tailed and mule deer and upland birds.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** ACA, AEP

**Quarter Sections:** NW-28-046-06-W4M  
EXCEPT LANDS NORTH AND WEST OF TWP RD 464B

### Stoney Lake

**Site Details:** This 247-acre site is located approximately 14 km west of Elk Point and is accessible from RR 83. While it is heavily forested with mature deciduous trees, foot access is possible to the lake, which supports northern pike and yellow perch. Wildlife found in the area includes moose, white-tailed and mule deer, black bear and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** ACA, AEP

**Quarter Sections:** SW/SE-27-056-08-W4M

### Westbrook 2

**Site Details:** This 320-acre site is located approximately 20 km south of Minburn and consists of upland, riparian and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.  
**Quarter Sections:** NE/SE-10-048-10-W4M

### Rauser 1

**Site Details:** This 160-acre site is located approximately 16 km northeast of Kinsella and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.  
**Quarter Sections:** SE-06-048-10-W4M

### Geneva Lake

**Site Details:** This 160-acre site, located approximately 44 km northwest of Vermilion, was partially donated by Victor Bilyk to conserve wildlife habitat. From Vermilion, travel west on Highway 16 to Highway 881, turn north on Highway 881 and travel 21 km. The site is located on the west side of the highway and consists of aspen forest with a few small hay meadows. This habitat provides shelter for wintering deer and grouse and provides nesting cover for songbirds, birds of prey, upland birds, and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SE-23-052-09-W4M

### Lac Delorme

**Site Details:** This 89-acre site is approximately 16 km southeast of St. Paul and is on the north side of lake it is named after. It can be accessed from Twp Rd 571 or RR 84. While it is a predominantly aspen forest, some large spruce is mixed in, along with young regrowth planted over the years by the St. Paul Beavers, Cubs and Scouts. Situated just 200 m west of RR 84, the 30-acre lake is stocked annually with rainbow trout by AEP.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-05-057-08-W4M

### Merlin

**Site Details:** This 160-acre site is located approximately 19 km northeast of Sedgewick and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may

be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-35-045-12-W4M

### SWAP

**Site Details:** This 160-acre site is approximately 21 km northwest of Innisfree and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-29-052-11-W4M

### Osback 3

**Site Details:** This 160-acre site is located approximately 16 km southwest of Kinsella and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-03-046-12-W4M

### Rauser 5

**Site Details:** This 160-acre site is located approximately 12 km northeast of Viking and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-01-048-12-W4M

### Rocky II

**Site Details:** This 161-acre site is approximately 12 km northwest of Innisfree and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-16-052-11-W4M

### Wasyliw H 27

**Site Details:** This 160-acre site is approximately 21 km south of Two Hills and consists of wetland, grassland and bush habitat. Wildlife in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-31-052-12-W4M

### Silverberry

**Site Details:** This 2,100-acre property is located approximately 12 km northeast of Myrnam. It can be accessed from RR 74, 80, and 81, and from Twp Rd 554. Horseback riders can enjoy designated equine trails that have been restored and are maintained by the Alberta Trail Riding Association. Look for the staging areas on RR 80 and 81. A large waterbody lies in its centre, and a DUC water-controlled structure has created an excellent waterfowl marsh west of the lake. Mature aspen and white spruce surround much of the waterbody, and the site is otherwise covered by

open fields with small patches of forest scattered throughout. Wildlife in the area includes moose, white-tailed and mule deer, black bear and upland game birds.

**Restrictions:** Day use only. No open fires. Foot access only with the exception of horseback riding or snowmobile use on designated trails for those activities and vehicle use on road allowances.

**Partners:** ACA, AEP, AFGA, Alberta Trail Riding Association, DUC

**Quarter Sections:** NW/NE-29-054-07-W4M, NW/NE/SW/SE-30-054-07-W4M, SW/SE-31-054-07-W4M, SW-32-054-07-W4M, NW/NE/SW/SE-25-054-08-W4M

### Reishus 80

**Site Details:** This 80-acre site is located approximately 18 km northeast of Viking and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-36-048-12-W4M

### Bud Miller All Seasons Park Lake - ACA Fish Stocking

**Site Details:** This pond is located in Bud Miller All Seasons Park in Lloydminster. Access to the park is via 59 Avenue. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only

**Partners:** ACA, AEP, City of Lloydminster

**Quarter Sections:** LOCATED IN LLOYDMINSTER

### Two Hills Pond -ACA Fish Stocking

**Site Details:** This pond is located at the south end of the town of Two Hills, on the east side of Highway 36. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Partners:** ACA, AEP, Two Hills and District Fish & Game Association

**Quarter Sections:** LOCATED IN TWO HILLS

### Rebryna 21

**Site Details:** This 160-acre site is approximately 19 km southeast of Elk Point. Habitat includes a large wetland surrounded by tame grassland. Wildlife in the area includes ungulates and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-30-054-06-W4M

### Yellowhead

**Site Details:** This 66-acre site is approximately 20 km northwest of Innisfree and consists of upland, riparian and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-30-051-12-W4M

### Beartrap Lake

**Site Details:** This 219-acre site is approximately 19 km southeast of Bonnyville and borders the lake it is named after. There are two separate parcels to the site. One can be accessed on the south side of Twp Rd 604 on the east side of the lake and is forested with mature aspen. A 6-acre subdivision is next to the northeast corner; the lake is not part of the site. The other parcel can be accessed farther east on the north side of the same road and is roughly half mature aspen forest and half irregularly shaped open field. Wildlife includes white-tailed and mule deer, moose, black bear, grouse, waterfowl and raptors. Beartrap Lake, accessible on foot, has northern pike and yellow perch.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-21-060-04-W4M, SE-28-060-04-W4M

### Harry Rauser

**Site Details:** This 160-acre site is located approximately 11 km northeast of Viking and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-06-048-11-W4M

### Rauser 4

**Site Details:** This 160-acre site is located approximately 21 km northeast of Kinsella and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-18-048-10-W4M

### Wallace Park Pond - ACA Fish Stocking

**Site Details:** This pond is in Wainwright. From Highway 14 travel south on 10A Street for 100 m, then turn west into the parking lot. ACA stocks this pond annually with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Town of Wainwright

**Quarter Sections:** LOCATED IN WAINWRIGHT

### Osback 2

**Site Details:** This 160-acre site is located approximately 13 km southwest of Kinsella and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-12-046-12-W4M

### Parsons 29

**Site Details:** This 240-acre site is located approximately 3 km northeast of Sedgewick and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE-15-044-12-W4M

### Sow

**Site Details:** This 160-acre site is approximately 8 km southeast of Myrnam and consists of wetlands and tame grasslands. Wildlife in the area includes ungulates and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call John Donald at 780-239-1023 for more information.

## MacConnachie

**Site Details:** Dedicated to Peter MacConnachie, the 310-acre land provides an opportunity to reconnect with wildlife and their habitat and makes us appreciate all Alberta has to offer. Covered by woodland and scattered knob and kettle wetlands, the site is set in the mixedwood boreal forest. The forest is alive with flora and fauna alike. Wildlife such as ruffed grouse, waterfowl, deer, moose, and black bear are known to wander through the site. This serene landscape is open for outdoor enthusiasts to enjoy. It is located 17 km east of Two Hills, adjacent to the Morecambe Conservation Site (D4-119).

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Lac Emelien**

**Site Details:** This 160-acre site is located approximately 15 km southeast of Myrnam and consists of rolling hills with aspen-dominated forests and small pockets of seasonal wetlands. From Myrnam, travel south on Highway 881 for 13 km, turn east on Highway 631 and travel 3.5 km, and then turn south on RR 85 and travel 1.5 km to the site located on the east side of the road. When in season, patches of raspberries and saskatoons make a sweet treat. Geneva Lake Conservation Site (D4-81) is located approximately 3.5 km southwest of this site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** NW-29-052-08-W4M

**Musidora 3**

**Site Details:** This 160-acre site is approximately 19 km southeast of Two Hills. It can be accessed from Twp Rd 534 on the north side and RR 112 on the west side. Mostly covered in aspen forests, it has small open fields and shallow wetlands scattered throughout. Wildlife includes moose, white-tailed and mule deer, black bears and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** NW-23-53-11-W4

**Jober**

**Site Details:** This 320-acre site is located approximately 20 km northwest of Viking and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** NCC, This is a DUC site.

**Quarter Sections:** NW/SW-30-048-13-W4M

**Junction Lake**

**Site Details:** This 289-acre site is approximately 22 km east of Vegreville. Access is on the west side from RR 125 or the east side from RR 124. This site has a rolling topography with trembling aspen and balsam poplar stands, wetlands and open fields scattered throughout. There have been several habitat enhancements done on the site, including tree plantings, wetland restoration and habitat management for shorebirds. A shorebird viewing platform is on the east side of the shallow alkali lake located in the northwest side of the property. Many waterfowl use this and the other small waterbodies on the site. Other wildlife includes moose, white-tailed and mule deer, black bears and ruffed grouse.

**Restrictions:** To protect sensitive shorebirds and their habitat, do not walk on beaches and shorelines of waterbodies identified on the site map from April 15 to August 15. Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC, ConocoPhillips Canada Resources Corp.

**Quarter Sections:** NW/NE/SE-32-051-12-W4M

**Musidora 4**

**Site Details:** This 160-acre site is approximately 16 km southeast of Two Hills. It can be accessed from RR 114 on the northeast corner of the site. It borders the SE 20 quarter section of Musidora (D4-3). Trembling aspen and balsam poplar forests fill the majority of the site, but a number of cut lines run through the property. Rolling hills and wetlands are scattered throughout. Wildlife includes moose, white-tailed and mule deer, black bears, and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC, Suncor Energy Foundation

**Quarter Section:** NE-20-053-11-W4M

**Stefanik**

**Site Details:** This 320-acre site is located approximately 20 km northwest of Viking and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Angus Bryan at 780-678-7608 for more information.

**Partners:** NCC, This is a DUC site.

**Quarter Sections:** NW/SW-31-048-13-W4M

**Wintergreen**

**Site Details:** This 161-acre site is approximately 12 km north of Innisfree. Access is on the west side from RR 114 or the south side from Twp Rd 522A. It is next to the Rocky site (D4-73). The site is mostly forested with mature trembling aspen and balsam poplar, but small wetlands abound. There is a small crop field on the south end. Wildlife in the area includes moose, white-tailed and mule deer, black bears and ruffed grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC, Suncor Energy Foundation

**Quarter Sections:** NW-16-052-11-W4M

**North Cornerstone**

**Site Details:** This 68-acre site is located approximately 21 km north of Innisfree and has a nice mix of open areas, deciduous tree stands, and wetlands. From Innisfree, head north on Highway 870 to Highway 631. Turn west on Highway 631 and travel 1.6 km to RR 113. It is on the northwest side of the junction. Straight south of this property, on the other side of the highway, is the original Cornerstone property (D4-134) and several other sites are nearby. White-tailed and mule deer, moose, and elk can be found in the area. A 10-acre private residence is in the northeast corner of the quarter section, so please be mindful of this residence when using the site for recreational purposes.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC

**Quarter Sections:** SE-04-053-11-W4M

**Cornerstone**

**Site Details:** This 160-acre site is 21 km north of Innisfree and consists of native parkland habitat that is managed for nesting cover and winter forage. From Innisfree, head north on Highway 870 to Highway 631, then travel west to RR 113. The site is on the southwest side of the junction. The site borders the Kotowich (D4-135) and North Cornerstone (D4-133) Conservation Sites.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Lyle Hauser at 780-806-9055 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-33-052-11-W4M

**TEMPORARY HUNTING STRUCTURES may be put into place up to one month before hunting season and must be taken down no more than 14 days after the season ends.**

**Kotowich**

**Site details:** This 160-acre site is located 21 km north of Innisfree and consists of native parkland habitat that is managed for nesting cover and winter forage. From Innisfree, head north on Highway 870 to Highway 631, then travel west to RR 114. Head south on 114 for 1.6 km until you reach the site. The site is adjacent to Hughes G & L (D4 – 105), Cornerstone (D4-134), Roy K & L 27 (D4-117), and Hooska uplands (D4 -33). Other sites are also in the area.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, ACA

**Quarter Sections:** SW-33-052-11-W4M

**Pomrenk Homestead Property**

**Site Details:** This 160-acre site is 3 km southwest of the hamlet of Ranfurly and was a homestead donated by Friedl Pomrenk. It is accessible on the west side from RR 124. Though much of the quarter is leased for crop production, the site holds many patches of forest either around the old farmyard and wetlands or planted as shelterbelts through the field. Wildlife in the area includes moose, white-tailed and mule deer, and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** NW-04-051-12-W4M

Get the *Alberta Discover Guide* app! Free on the App Store and on Google Play! Search conservation sites by name, activity, or proximity.

**MacConnachie**

**Site details:** This 309-acre site is dedicated to the memory of Peter MacConnachie. It is 5 km northwest of the Hamlet of Morecambe, and it is adjacent to the Morecambe Conservation Site (D4-119). It is accessible via Twp Rd 545, Twp Rd 550, or RR 111. Rolling hills covered in aspen and spruce lead to small wetlands

scattered throughout the site. Wildlife in the area includes moose, white-tailed and mule deer, elk, black bear and grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

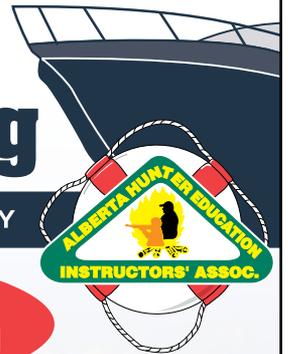

**Partners:** ACA, AFGA, Suncor Energy Foundation

**Quarter Sections:** NE-35-054-11-W4M, SE-35-054-11-W4M

## Honestly, who doesn't get excited when they spot a frog?!

Young or old, people's simple curiosity of the natural world is science in action. Or at least it is when AVAMP gets involved. AVAMP—Alberta Volunteer Amphibian Monitoring Program—is citizen-based conservation. You don't need a degree, super eyesight, or even any kind of expertise. Just walk outside, get curious, and record some notes about the amphibians you see.

Your observations contribute key information to the science community as a whole. After all, amphibians are highly sensitive to changes in habitat, and can help indicate imbalances in ecological health. Citizen data assists biologists with understanding the distribution and status of amphibians in our province and building a strong partnership. So go on, squeal when you spot that little frog hopping through the grass...and tell us about it! 🦎

For more about AVAMP, contact [kris.kendell@ab-conservation.com](mailto:kris.kendell@ab-conservation.com)

**Blackstone-Wapiabi Elk Range**

**Site Details:** This 4,397-acre site is approximately 110 km west of Rocky Mountain House in the Blackstone-Wapiabi Forest Land Use Zone. Mechanical clearing and prescribed burning on the site have improved ungulate winter ranges. This site provides good hunting for elk and moose in the Rocky Mountain Forest Reserve. Other wildlife in the area includes white-tailed deer, mule deer, black bear, ruffed grouse, spruce grouse and occasionally dusky grouse at higher elevations.

**Restrictions:** Refer to recreational access guidelines on AEP's website for the Blackstone-Wapiabi Forest Land Use Zone.

**Partners:** ACA, AEP

**Quarter Sections:** NE/SE-21-040-18-W5M, NW/NE/SE-22-040-18-W5M, NW/SW-26-040-18-W5M, SE-27-040-18-W5M, SE-28-040-18-W5M, NW/NE-31-040-18-W5M, NW/NE-32-040-18-W5M, NW-33-040-18-W5M, NW/NE/SW/SE-35-040-18-W5M, SW-36-040-18-W5M, NW/NE-36-040-19-W5M, NW/SE-04-041-18-W5M, SW/SE-05-041-18-W5M, SW/SE-06-041-18-W5M, SE-01-041-19-W5M, NE/SE-27-041-19-W5M, NW/NE/SW/SE-33-041-19-W5M, NW/SW/SE-35-041-19-W5M, NW-36-041-19-W5M, NW-02-042-19-W5M, NE/SW/SE-04-042-19-W5M, SE-09-042-19-W5M, NW/SW/SE-10-042-19-W5M, SW-11-042-19-W5M, SW/SE-12-042-19-W5M

**Mitchell Lake - Lake Aeration**

**Site Details:** This 46-acre site is approximately 19 km southwest of Rocky Mountain House and offers sport fishing opportunities. Camping facilities, outhouses and garbage bins (managed by AEP) are available. There are also three floating docks and a rough dirt boat launch open for public use. AEP stocks this lake annually with rainbow trout, brown trout and tiger trout, and it is aerated in winter through ACA's Lake Aeration Program.

**Restrictions:** This site is located within Mitchell Lake Provincial Recreation Area and is subject to its rules and regulations. No gas-powered motors.

**Partners:** ACA, AEP, ALF, Anger Enterprises Ltd., Rocky Fish & Game Association

**Quarter Sections:** NE-25-037-08-W5M, SE-36-37-8-W5M

**Prairie Creek**

**Site Details:** This site is approximately 21 km southwest of Rocky Mountain House. This site is a fisheries enhancement area. Cattle exclusion fencing has been constructed along Prairie Creek to improve riparian and instream habitat conditions. This creek provides good angling opportunities, primarily for brown trout, as well as brook trout and mountain whitefish. Lands surrounding the riparian corridor are Crown grazing leases; therefore, anglers must remain within the fenced corridor or obtain permission to do otherwise.

**Restrictions:** Day use only. No open fires. Foot access only. Refer to access condition information on AEP's Recreational Access to Agricultural Public Land website for leased Crown lands.

**Partners:** ACA, AEP

**Quarter Sections:** Pr.SW-24-037-08-W5M

**South Idlewild**

**Site Details:** This 1,776-acre site is approximately 55 km southwest of Rocky Mountain House in the Kiska/Willson Forest Land Use Zone. Mechanical cleaning and prescribed burning have improved ungulate winter ranges on the site. This site provides backcountry hunting opportunities for elk, and white-tailed and mule deer in the Rocky Mountain Forest Reserve. Other wildlife includes moose, black bear, ruffed grouse, spruce grouse and occasionally dusky grouse at higher elevations. The Clearwater River can be accessed to fish for brown trout, bull trout and mountain whitefish.

**Restrictions:** Refer to recreational access guidelines on AEP's website for Bighorn Backcountry.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE-30-035-11-W5M, NW/SW-21-035-12-W5M, NW/NE-25-035-12-W5M, SW-28-035-12-W5M, SW/SE-34-035-12-W5M, SE-35-035-12-W5M, SW/SE-36-035-12-W5M

**Ironside Pond - Lake Aeration**

**Site Details:** This 34-acre site is approximately 15 km southwest of Rocky Mountain House and offers good sport fishing opportunities. AEP stocks this pond annually with rainbow trout and tiger trout, and it is aerated in winter through ACA's Lake Aeration Program. A maintained parking area and a foot access boat launch are available.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, ALF, Clearwater County, Keyera Energy, Northern Lights Fly Fishers, TUC Edmonton

**Quarter Sections:** NW-06-038-07-W5M, SW-07-038-07-W5M

**Alford Creek**

**Site Details:** This site is approximately 30 km south of Rocky Mountain House. The site is a fisheries enhancement area where cattle fencing has been constructed along Alford Creek to improve riparian and instream habitat conditions. The creek provides good angling opportunities, primarily for brown and brook trout, as well as mountain whitefish. Lands surrounding the riparian corridor are privately-owned and Crown grazing lease; therefore, anglers must remain within the fenced corridor or obtain permission to do otherwise.

**Restrictions:** Day use only. No open fires. Foot access only. Please obtain permission from the landowner for access to private lands. Refer to access condition information provided on AEP's Recreational Access to Agricultural Public Land website for leased Crown lands.

**Quarter Sections:** Pr.NE-11-036-07-W5M

**Landslide Lake Interpretive Fire Trail**

**Site Details:** This site is approximately 170 km west of Rocky Mountain House, and within the 5,700 hectare 2009 Upper North Saskatchewan Prescribed Burn. The Interpretive Trail teaches people about fire ecology and the role of fire in forest management. The trail consists of two loops: the Short Loop is an easy 400 m walk through aspen forest, and the Long Loop is a 2 km walk through more hilly areas of the burn. Interpretive signs are found along the trail, and a brochure can be picked up on site and from AEP, Parks Canada and ACA offices. Wildlife found in the area includes elk, bear, sheep, deer and woodpeckers.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Mountain Equipment Co-op, TD Friends of the Environment Foundation

**Quarter Sections:** SW-15-035-18-W5M

### **Buffalo Lake Moraine Conservation Area**

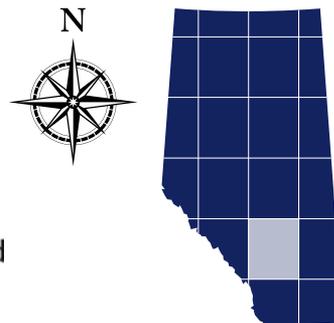

**Site Details:** Indulge in total serenity at this impressive 1,120-acre destination: park your vehicle and walk all day without interruptions. This large plot of land is home to moose, and mule and white-tailed deer. For trekkers, various berries and cavity-nesting birds can be found on your journey through the interpretive walking trail. This trail leads to Potter's Seep, where you'll find a picnic table and a babbling spring teeming with birdlife and plants nestled in an incredible grove of balsam poplar recognized by the Heritage Tree Foundation of Canada.

# The Good Ideas Fund

**Did you know** there are a lot of good conservation ideas out there? Maybe you even have a dream yourself? Sadly, without a financial boost (why are good ideas so expensive?!), most of them won't turn into anything tangible.

That's why we at Alberta Conservation Association get excited about our grants process every year. It means action. Funded by the province's hunters and anglers, ACA's grant programs help support projects that make a real difference—benefitting Alberta's wildlife and fish populations or the habitat they depend on.

To date, we've received more than 2,212 grant applications, with 1,276 projects receiving money. That adds up \$19.3 million dollars granted to conservation-related projects throughout Alberta!

From a highly successful fishing app to work with pronghorn to outdoor women's camps to helping endangered species to trapping engagement to invasive species studies and SO MUCH MORE...you've probably seen a grant in action.

**So keep those ideas coming.** 🦉

**Grant Project:** Community Engagement in River Valley Conservation

### Windsor Lake – ACA Fish Stocking Project

**Site Details:** This site is west of Bashaw. From Bashaw travel west on Highway 605 for 8 km, then north on RR 223 for 1.1 km, then east into the site. ACA stocks this pond annually with rainbow trout, typically before the May long weekend. A boat launch, dock, outhouse and garbage bins are available for public use. The

lake supports a large population of waterfowl like grebes, coots and Canada geese.

**Restrictions:** Day use only. No open fires. Foot access only. No hunting.

**Partners:** ACA, AEP, Camrose County

**Quarter Sections:** SW-10-042-22-W4M

### Tanglefoot North

**Site Details:** This 160-acre site is located approximately 8 km south of Gadsby and consists of wetland and grassland habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-27-037-17-W4M

### Moltzahn

**Site Details:** This 118-acre site is located 9.6 km west of Bashaw on Highway 605. Turn north on RR 224 and travel 0.8 km to the site located on the east side of the road. Habitat at the site consists of native parkland interspersed with small wetlands. Wildlife found in the area includes white-tailed deer, moose, ruffed grouse, and woodland songbirds. This site also offers saskatoon berry picking opportunities.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** Pr. NW-04-042-22-W4M

### Veteran

**Site Details:** This 158-acre site is located approximately 25 km east of Innisfail and consists of wetland and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-05-036-25-W4M

### Slemko

**Site Details:** This 286-acre site is approximately 16 km south of Strathmore and consists of upland, riparian and wetland habitat. Wildlife in the area includes waterfowl and grey partridge.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Kade McCornick at 403-465-3310 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE/SE-36-022-25-W4M

### Connie South

**Site Details:** This 160-acre site is located approximately 19 km south of Stettler and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-02-037-19-W4M

### Gilbert

**Site Details:** This 320-acre site is located approximately 12 km north of Stettler and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE/SE-18-040-19-W4M

### Larose

**Site Details:** This 148-acre site is located approximately 28 km southeast of Bashaw and consists of native parkland habitat. Travel east on Highway 53 from Bashaw to Highway 56. Travel 8.5 km south on Highway 56 to the site located on the east side of the highway. Wildlife found in the area includes white-tailed and mule deer, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Do not use the driveway or approach associated with the privately owned acreage near the southeast corner of the site. Please contact 403-352-9395 for additional information.

**Partners:** ACA, DUC, NCC

**Quarter Sections:** Pr. NW-04-041-19-W4M

### Battle River Section 7

**Site Details:** This unique 474-acre site is located along the Battle River, approximately 23 km southeast of Donalda. Wildlife found in the area includes white-tailed deer, mule deer, moose, grouse, small mammals, songbirds, and a heron colony. The badlands habitat along the river hosts cactus species. Berry picking opportunities occur at this site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-07-041-16-W4M

### Kerbes

**Site Details:** This 160-acre site is located approximately 14 km northwest of Big Valley and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-27-036-21-W4M

### Braithwaite

**Site Details:** This 27-acre site is located on the north shore of the Red Deer River, approximately 7 km north of Penhold. Wildlife found in the area includes white-tailed and mule deer, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** AFGA, Zone 3 Fish & Game

**Quarter Sections:** SW-22-037-28-W4M

### Radar Hill

**Site Details:** This 480-acre site is located approximately 14 km southeast of Red Deer. To access the site, travel 16 km east of Red Deer on Highway 595, then south 4.8 km on RR 260. Alternatively, the site may be accessed from the east on Twp Rd 372 (fair-weather road). The heavily treed hilltop provides views in all directions and is the highest elevation in Red Deer County. Wildlife that frequent the site include moose, elk, white-tailed deer, squirrels, and forest songbirds. The site also offers a vast amount of beaked hazelnut bushes as well as some cranberry-picking opportunities.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/SW/SE-18-037-25-W4M

### Fabris

**Site Details:** This 160-acre site is located approximately 31 km east of Red Deer and consists of forest interspersed with wetlands. To access this site, travel 30.4 km east of Red Deer on Highway 595, south 3.2 km on RR 243, east 1.6 km on Twp 374 to RR 242. Walk north for 0.8 km on an undeveloped road allowance. The site provides excellent hunting opportunities for white-tailed deer, moose, elk, and ruffed grouse. Other recreational opportunities include saskatoon berry picking and wildlife viewing for songbirds, raptors, owls, and amphibians.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW-26-037-24-W4M

### Dennis Doug

**Site Details:** This 160-acre site is located approximately 16 km north of Stettler and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call 403-352-9395 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-26-040-19-W4M

### Lore Lake

**Site Details:** This 420-acre site is located approximately 30 km northwest of Brooks and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes waterfowl, pheasants, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Carson McCormick at 403-363-8033 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-04-020-17-W4M, SW/SE-05-020-17-W4M

### Boehlke Pond

**Site Details:** To access this 129-acre site, travel 10 km north of Endiang on Highway 855, then east into site. A parking area and day-use facilities (outhouses and garbage bins) are available. The pond is an important nesting and staging area for waterfowl, and the upland habitat is important to many other wildlife species.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Stettler County

**Quarter Sections:** NE-30-035-15-W4M,

Pr. NE/SE-31-035-15-W4M

### Westview West

**Site Details:** This 130-acre site is located approximately 12 km west of Donalda and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

## Birch Lake - Lake Aeration

**Site Details:** This 71-acre site is 16 km southwest of Caroline. The lake provides good sport fishing opportunities and is stocked annually by AEP with brook, brown and rainbow trout. It is aerated in winter through ACA's Lake Aeration Program. Facilities include a maintained parking area, outhouse, a foot access boat launch and a floating dock for public use.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Braxxon Excavation, Compton Petroleum, North Shore Environmental Consultants, RTC Services Ltd., TAQA North

**Quarter Sections:** NW-18-035-06-W5M, SW-19-035-06-W5M

## Hansel

**Site Details:** This 144-acre site is located on the boundary of the counties of Paintearth and Stettler and is divided by Highway 12. Wetlands at this site are usually full because of a high-water table. Willows, aspen, and native grasses provide habitat for deer, waterfowl, and other birds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call 403-352-9395 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-22-038-16-W4M

## Nose Creek Pond - ACA Fish Stocking

**Site Details:** This pond is located in Airdrie in Nose Creek Park, just off of Main Street South. From Highway 2 at Airdrie, travel west on Big Hill Springs Road across from Nose Creek. Turn north on Main Street South and follow it to Nose Creek Park. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, City of Airdrie, SysGen solutions group.

**Quarter Sections:** Located in Airdrie

## Bottern

**Site Details:** This 153-acre site is located 9 km northwest of Bashaw and consists of wetland and grassland habitat. Wildlife found in the area includes white-tailed deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-22-042-22-W4M

## North Raven River

**Site Details:** This site consists of 430 acres of land along 14 km of the North Raven River (Stauffer Creek) and is 30 km southeast of Rocky Mountain House. Cattle exclusion fencing was constructed along the river to improve riparian and instream habitats. In addition, a public parking lot was developed at SW-10-037-05-W5M, which provides access to excellent angling opportunities, primarily for brown trout and brook trout. Lands surrounding the parking area and riparian corridors are both privately owned and Crown grazing lease. Anglers must remain within the fenced corridor or obtain permission to do otherwise.

**Restrictions:** Day use only. No open fires. Foot access only. Please contact landowner for access to private lands and refer to access condition information provided by AEP on the Recreational Access to Agricultural Public Land website for leased Crown lands.

**Partners:** ACA, AEP, AFGA, TUC

**Quarter Sections:** NW-30-036-04-W5M, NE-25-036-05-W5M, NW/NE-36-036-05-W5M, NW/SW/SE-02-037-05-W5M, NE/SE-09-037-05-W5M, NW/NE/SW/SE-10-037-05-W5M, SW-11-037-05-W5M, SW-16-037-05-W5M, SW/SE-17-037-05-W5M

## Bend

**Site Details:** This 640-acre site is approximately 25 km east of Penhold on the south side of

Highway 42. The site consists of aspen forest and wetlands. There is a limited grazing lease on this site. Various habitat enhancement activities including riparian wetland fencing, rock islands and duck nest box installation have ensured good habitat retention. Wildlife in the area includes white-tailed and mule deer, moose, elk, waterfowl and grouse.

**Restrictions:** Refer to access and restrictions on AEP's Recreational Access to Agricultural Public Land website.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW/SE-29-036-25-W4M

## Stainbrook Springs

**Site Details:** This 17-acre site is approximately 32 km southeast of Rocky Mountain House and is a fisheries enhancement area managed to protect important sport fish spawning and rearing habitat on the North Raven River (Stauffer Creek). This location provides excellent bird and fish watching (for brown trout and brook trout during fall spawning season), as well as hunting opportunities for moose, white-tailed deer, ruffed grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, TUC

**Quarter Sections:** Pr.NW-17-037-05-W5M

## Back Forty

**Site Details:** This 160-acre site is located approximately 20 km northeast of Rimbey and consists of wetland and muskeg habitat. Wildlife found in the area includes moose, white-tailed and mule deer, beaver, waterfowl, and a variety of songbirds. Access to the site is at the SW corner from Twp Rd 432.

**Restrictions:** Day use only. No open fires. Foot access only. Please contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-15-043-28-W4M

## Barritt

**Site Details:** This 160-acre site is located approximately 5 km southeast of Mirror and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-11-040-22-W4M

## Anderson Dam - ACA Fish Stocking

**Site Details:** Anderson Dam is a great place to visit for an afternoon of relaxation of fishing and berry picking in season. ACA annually stocks this pond with rainbow trout, typically before the May long weekend. The shoreline of the lake is surrounded by willows and Saskatoon shrubs. The site is easy to find: from Drumheller, take Highway 9 west for 13 km. Access is on the north side of the highway, opposite RR 211.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Anderson Family

**Quarter Sections:** SW-25-028-21-W4M

### Great West

**Site Details:** This 310-acre site is located approximately 5 km west of Erskine and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

### Lawson

**Site Details:** This 312-acre site is located approximately 14 km north of Stettler and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW/SE-23-040-20-W4M

### Tees Trout Pond - ACA Fish Stocking

**Site Details:** This reservoir is located 1 km north of Tees on Highway 821 on the west side of the road. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Lacombe County, Nutrien

**Quarter Sections:** NE-25-040-24-W4M

### Cipperley's Reservoir - ACA Fish Stocking

**Site Details:** This reservoir is located south of Olds.

From Olds travel south on Highway 2A, then west on RR 322, then south on RR 15 and east into site. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** No open fires. Foot access only.

**Partners:** ACA, AEP, Elks of Canada

**Quarter Sections:** SW-08-032-01-W5M

### Beaver Creek

**Site Details:** Totalling 122 acres, there are three sites here, located approximately 37 km southeast of Rocky Mountain House. On each site, cattle exclusion fences were constructed along Beaver Creek to improve riparian and instream habitats. The creek provides good angling opportunities for brook trout and mountain whitefish. Lands surrounding the riparian corridors are Crown grazing leases; therefore, anglers must remain within the fenced corridor or obtain permission to do otherwise.

**Restrictions:** Day use only. No open fires. Refer to access condition information on AEP's Recreational Access to Agricultural Public Land website for leased Crown lands.

**Partners:** ACA, AEP

**Quarter Sections:** Pr.NW-21-035-06-W5M, Pr.NW/Pr.NE-25-035-06-W5M

### Wood Lake

**Site Details:** This 149-acre site is approximately 8 km east of Delburne. Travel 8.2 km east on

Twp Rd 374 and 0.6 km south on RR 224. The NE corner of this quarter section (a 10-acre subdivision) is excluded from the site. Hunt in fall, appreciate stillness in winter, bird watch in spring and forage in summer. Saskatoon, chokecherry, rosehip, raspberry and beaked hazelnut abound. Watch for deer and ruffed grouse. The 12 acres of wetland support beaver and water birds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present from July 15 to October 15. Call 403-352-9395 for more information.

**Partners:** ACA, DUC

**Quarter Sections:** Pr. SE-20-037-22-W4M

### Ware Creek

**Site Details:** There are two sites, which total 51 acres located approximately 35 km west of Okotoks. Cattle exclusion fences were constructed along Ware Creek to improve riparian and instream habitats. The creek provides angling opportunities for rainbow trout, cutthroat trout and mountain whitefish. Lands surrounding the riparian corridors are Crown grazing lease, so anglers must remain within the fenced corridor or obtain permission to do otherwise.

**Restrictions:** Day use only. No open fires. Refer to access condition information on AEP's Recreational Access to Agricultural Public Land website for leased Crown lands.

**Partners:** ACA, AEP

**Quarter Sections:** Pr.NE-20-020-04-W5M, Pr.NE-21-020-04-W5M

### Farthing

**Site Details:** This 160-acre site is located approximately 14 km northeast of Elnora. To access this site, travel 3.2 km north of Elnora, then 9.6 km east on Highway 590. Travel north on RR 222 for 1 km to the site located on the west

side of the road. The site consists of hilly aspen poplar ridges, low areas, tame forage, and native grasslands. Wildlife found in the area includes moose, deer, grouse and a variety of parkland birds. There are opportunities for berry picking on this site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-27-035-22-W4M

### Ray's Pond - ACA Fish Stocking

**Site Details:** This site totals 10 acres, including 4 acres of pond. To access it from Benalto, travel west on Highway 11 for 1 km, then north for 0.5 km. The site is on the west side of the road. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Lacombe County

**Quarter Sections:** SE-01-039-03-W5M

### Schroeder

**Site Details:** This 150-acre site is located approximately 17 km southeast of Red Deer. Take Hwy 2 south, and travel 4.8 km east on Hwy 42, then south on RR 271 for 3.2 km and east on Twp Rd 364 for 1.6 km. The site consists of a large south-facing slope and topography that creates strong updrafts that are ideal for observing soaring raptors. Tree Canada planted 70,000 aspen and 30,000 white spruce trees at this site. Wildlife found in the area includes white-tailed and mule deer, grouse, and waterfowl. This site also offers saskatoon and chokecherry picking opportunities.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** Pr. NW-19-036-26-W4M

**TEMPORARY HUNTING STRUCTURES may be put into place up to one month before hunting season and must be taken down no more than 14 days after the season ends.**

## Dennis Brothers

**Site Details:** This 320-acre site is located approximately 16 km north of Stettler and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/SW-26-040-19-W4M

## Sharp

**Site Details:** This 62-acre site is located approximately 9 km northwest of Bashaw and consists of wetland and grassland habitat. Wildlife found in the area includes white-tailed deer, waterfowl and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

## Kerbes 2

**Site Details:** This 160-acre site is located approximately 23 km northwest of Big Valley. Travel west on Highway 590 from Big Valley to Highway 835. Turn north on Highway 835 and travel 10 km, then turn west and travel 1.6 km to arrive at the northeast corner of the site. Wildlife found in the area includes white-tailed deer, upland game birds, waterfowl, and a variety of small mammals and songbirds. This site also offers chokecherry picking opportunities.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** ACA, DUC

**Quarter Sections:** NE-22-036-21-W4M

## Murdoch

**Site Details:** This 160-acre site is approximately 18 km southeast of Bashaw, adjoining Buffalo Lake Moraine Conservation Area (E3/110) on the north. The habitat consists of numerous wetlands and approximately 70 acres of native aspen parkland uplands. Recreational opportunities include waterfowl viewing and deer and waterfowl hunting. Other wildlife in the area includes moose, coyote and beaver.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC, NCC

**Quarter Sections:** NE-31-040-19-W4M

## George

**Site Details:** This 160-acre site is located approximately 5 km south of Delburne and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-03-037-23-W4M

## Nicker

**Site Details:** This 159-acre site is located approximately 8 km southwest of Delburne and consists of wetland, grassland and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-10-037-24-W4M

## Cox Lake One

**Site Details:** This 160-acre site is located approximately 6 km northwest of Forestburg and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-17-042-15-W4M

## Kneehill Creek

**Site Details:** The 160-acre site is located approximately 20 km southeast of Innisfail. Kneehill Creek runs north to south through the entire length of the site, and aspen and balsam poplar dominate the forested areas. Access is strictly from the NE corner of the site. There is no access to the property from the west side. From Twp 350, turn south on an undeveloped road allowance (RR 27-1) and proceed a half mile to the NE corner of the site. In wet, summer conditions the undeveloped road allowance is not passable by vehicle

and access is by foot only. Always check the ground conditions before proceeding by vehicle. Wildlife in the area includes white-tailed and mule deer, moose, grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, ASRPWF, Sarcee Fish & Game

**Quarter Sections:** SE-35-034-27-W4M

## Big Buck

**Site Details:** This 310-acre site is located approximately 2 km northwest of Donalda and consists of wetland and planted cover habitats with scattered bush areas. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE-12-042-19-W4M

## Hagen Melvin

**Site Details:** This 160-acre site is located approximately 8 km northwest of Donalda and consists of wetland and grassland habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

## Nevis

**Site Details:** This approximately 367-acre site is located near the town of Nevis and consists of reclaimed gas plant featuring a mix of forest and seeded grasslands with a couple of small wetlands on its south side. Wildlife found at the site includes white-tailed and mule deer, moose, fox, coyote, Richardson's ground squirrels, and a variety of birds, amphibians, reptiles, and small mammals. Hunting opportunities exist for large ungulates, upland birds, and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Chevron Canada

**Quarter Sections:** SW/SE-22-039-22-W4M, NE-15-039-22-W4M

## Kinna

**Site Details:** This 2-acre site is located approximately 7.5 km west of Sylvan Lake on Highway 11A. The site includes a historical schoolhouse, providing unique habitat opportunities and is recognized within the community for its historic values.

**Restrictions:** Day use only. No open fires. Obtain permission from the landowner before crossing private land to access this site.

**Partners:** AFGA, Sylvan Lake Fish & Game

**Quarter Sections:** NW-35-038-02-W5M

## Sheep River

**Site Details:** This 54-acre site is located approximately 11 km west of Okotoks and encompasses mature cottonwoods, native shrubs, and grasses. To access the site from Highway 549, travel south on RR 15 and park at the end of the road. Continue on foot, south along the undeveloped road allowance, through two gates to the site boundary. The site lies within the flood plain of the Sheep River, and a natural spring exists at its east end. Wildlife found in the area includes white-tailed and mule deer, elk, moose, cougar, wolf, black bear, coyote, pheasant, turkey, grouse, and a variety of small mammals

and songbirds. Mountain whitefish and rainbow trout are the dominant fish species found on this stretch of the river.

**Restrictions:** Day use only. No open fires. Park in designated area only and not on road allowance. Ensure gates are closed. Obtain permission from landowner to access neighbouring private land.

**Partners:** ACA, AFGA, High River Fish & Game, Sarcee Fish & Game, TUC, Zone 3 Fish & Game

**Quarter Sections:** Pr. NE-19-020-01-W5M, Pr. NW-20-020-01-W5M

## Hummer

**Site Details:** This 160-acre site is located approximately 9 km northwest of Elnora and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-36-035-24-W4M

## Hawthorne

**Site Details:** This 160-acre site is located approximately 14 km southwest of Alix and consists of wetland, grassland and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-24-038-24-W4M

## Wik

**Site Details:** This 160-acre site is located approximately 14 km northwest of Elnora and consists of wetland, grassland, riparian and bush habitat. Wildlife found in the

area includes moose, white-tailed and mule deer, waterfowl and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

## Fallentimber Creek

**Site Details:** These two sites, totalling 79 acres, are approximately 20 km south and 25 km southwest of Sundre. Cattle exclusion fencing was constructed along Fallentimber Creek to improve riparian and instream habitats. The creek provides angling opportunities for brown trout, brook trout and mountain whitefish. These sites also provide hunting opportunities for white-tailed and mule deer. No direct access from the road. Lands surrounding the riparian corridors are Crown grazing lease. Anglers must remain within the fenced corridor or obtain permission to do otherwise.

**Restrictions:** Day use only. No open fires. Foot access only. Please obtain permission from the landowner to access private lands. For access conditions refer to AEP's Recreation Access to Public Land website.

**Partners:** ACA, AEP

**Quarter Sections:** Pr. NW/Pr. SW-29-030-05-W5M, Pr. NE-29-030-06-W5M

### Stauffer

**Site Details:** This 219-acre site is located 11 km north of Bashaw and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE-04-043-21-W4M

### Earl Stamm

**Site Details:** This 420-acre site is located approximately 5 km north of Bashaw and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

### Big Pond

**Site Details:** This 160-acre site is located approximately 8 km west of Bashaw and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-34-041-22-W4M

### Bobby Hale

**Site Details:** This 554-acre site is located 10 km east of Bassano and consists of wetland, grassland, and shrub habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, pheasants, gray partridge, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Carson McCormick at 403-363-8033 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE/SW/SE-08-021-17-W4M

### Rockeling Bay/Rider Lake

**Site Details:** This 167-acre site is located approximately 12 km southeast of Bashaw and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/SW-26-041-20-W4M, NE/SE-27-041-20-W4M

### Clear Creek

**Site Details:** This 4-acre site is approximately 21 km southeast of Rocky Mountain House. This is a fisheries enhancement area developed on a Crown subdivision to provide access to Clear Creek. There are good angling opportunities, primarily for brown and brook trout, as well as bull trout and mountain whitefish. Lands surrounding the riparian corridor access are private land. Anglers must remain within the fenced corridor or obtain permission to do otherwise.

**Restrictions:** Day use only. No open fires. Obtain permission from the landowner to access private lands.

**Partners:** ACA, AEP, TUC

**Quarter Sections:** Pr.SE-26-037-06-W5M

### Kroetsch

**Site Details:** This 160-acre site is located approximately 5 km southwest of Donalda and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-27-041-19-W4M

### Dickson Site 7

**Site Details:** This 480-acre site is located 23 km west of Innisfail along Twp Rd 352 on the south shore of Gleniffer Lake. This site has excellent trails for photography, hunting, lowbush cranberry picking, and observing natural habitat. Many species of wildlife frequent this site including moose, elk, deer, waterfowl, grouse, and a variety of birds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NW/NE/SW-11-035-03-W5M

### Kraft Wimborne Pond - ACA Fish Stocking

**Site Details:** From the hamlet of Wimborne, travel south on Highway 805, turn west on Twp Rd 334, then turn north on RR 263. The pond is on the west side of the road. ACA annually stocks this pond with rainbow trout and brook trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, AFGA

**Quarter Sections:** SE-28-033-26-W4M

### Whitebrush

**Site Details:** This 160-acre site is located approximately 7 km northeast of Bashaw and consists of large wetlands with aspen uplands. To access this site from Bashaw, travel east on Highway 53 for 6.4 km, then north on RR 210 for 1.6 km. Turn east on Twp Rd 421 for 2 km then north onto a road allowance that travels through a DUC property (E3-119 Perry). Follow the road allowance for 0.8 km to the southern boundary of the site. Many species of wildlife frequent this site including white-tailed and mule deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. No ATVs.

**Partners:** ACA, AEP

**Quarter Sections:** NW-08-042-20-W4M

### Link (Buffalo Meadows Habitat Link)

**Site Details:** This 160-acre site is located approximately 16 km southeast of Bashaw, and lies northwest of the Buffalo Lake Moraine Conservation Area. Tree Canada and Shell Canada planted an old hayfield with aspen whips in 2007 and native vegetation is rapidly re-establishing on this land. The site offers excellent wildlife viewing and good hunting opportunities.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, ASRPWF

**Quarter Sections:** NE-01-041-20-W4M

### Haskell

**Site Details:** This 160-acre site is located approximately 5 km south of Delburne and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

## Midway Reservoir - ACA Fish Stocking

**Site Details:** This reservoir is east of Carstairs. From Highway 2 travel 20.2 km east on Highway 581, then north on RR 273, then west into the site. ACA annually stocks this pond with rainbow trout, typically before the May long weekend. This site has picnic tables, benches and a campground.

**Restrictions:** No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** SE-16-030-27-W4M

## Feil

**Site Details:** This 160-acre site is located approximately 12 km northeast of Elnora and consists of wetland and grassland habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-36-035-22-W4M

## Caroline - Shell Canada Limited

**Site Details:** This 160-acre site is located approximately 28 km north of Sundre along Highway 22. The habitat consists of mature pine, white spruce, black spruce, trembling aspen, balsam poplar, birch, alder, willow, saskatoon, chokecherry, and rose. Wildlife found in the area includes white-tailed and mule deer, elk, moose, black bear, grizzly bear, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, Shell Canada Limited

**Quarter Sections:** SW-03-035-05-W5M

## Lowden Springs

**Site Details:** This 131-acre site is 19 km south of Stettler along Highway 56, and has excellent shoreline habitat. Wildlife in the area includes waterfowl and shorebirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present from July 15 to October 15. Call 403-352-9395 for more information.

**Partners:** ACA, DUC, NCC

**Quarter Sections:** NW/NE-06-037-19-W4M

## Buffalo Lake

**Site Details:** This 563-acre site is located approximately 20 km east of Alix on the southwest shore of Buffalo Lake in the Buffalo Lake Moraine. From Alix, take Hwy 601 northeast and east for approx. 13 km, then RR 214 north for 1.6 km. Nestboxes in the mature forest beside Buffalo Lake provide secure nest sites for saw-whet owls and common goldeneye ducks. Shelterbelt planting and crop rotations have transformed this site into an excellent Pheasant Release Site.

**Restrictions:** Day use only. No open fires. Foot access only. This location is a Designated Pheasant Release Site.

**Partners:** ACA, AEP, Volunteer Stewards - Buffalo Lake Naturalists

**Quarter Sections:** NW/NE/SW/SE-09-040-21-W4M, SW-10-040-21-W4M

## Boyden

**Site Details:** This 134-acre site is located approximately 5 km south of Lousana and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-11-036-23-W4M

## Mirror Reservoir - ACA Fish Stocking

**Site Details:** This reservoir is 1.6 km west of the Village of Mirror on Highway 50. ACA annually stocks this pond with brown trout, typically before the May long weekend. Day-use facilities include a parking area, outhouse and garbage bins.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Lacombe County

**Quarter Sections:** SW-29-040-22-W4M

## Spruce Coulee

**Site Details:** This 320-acre site is located approximately 40 km east of Bashaw. Follow Highway 53 east for 41 km to RR 171A and then travel 2.4 km west and north. Park at the property sign on the approach (NE-02-042-17-W4M) and walk west 0.8 km along the footpath to the site (NW-02-042-17-W4M). Wildlife found in the area includes white-tailed and mule deer, moose, elk, and upland game birds. The Battle River and Spruce Coulee run through the property providing fish foraging for kingfishers, mergansers, herons, and pelicans. Sportfish found in the Battle River include walleye and northern pike. This site also offers saskatoon and cranberry picking opportunities.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Battle River Community Foundation

**Quarter Sections:** NW-02-042-17-W4M, NE-03-042-17-W4M

## Hopewell

**Site Details:** This 640-acre site is approximately 3 km south of Langdon and consists of wetland and upland habitat. Wildlife in the area includes grouse, grey partridge and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Kade McCornick at 403-465-3310 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE/SW/SE-12-023-27-W4M

## Collins

**Site Details:** This 136-acre site is located approximately 6 km northwest of Elnora and consists of native parkland with a mix of wetland, grassland, and bush habitats. Wildlife found in the area includes moose, white-tailed and mule deer, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be on this conservation site from July 15 to October 15. Contact 403-352-9395 for additional information.

### Hebert Lake Uplands

**Site Details:** This 259-acre site is approximately 22 km southeast of Stettler and links Hebert Lake (E3-116) and Beltz Lake (E3-41) Conservation Sites. It provides habitat for waterfowl and shorebirds and breeding habitat for a variety of grassland songbirds such as western meadowlarks, Sprague's pipits, Baird's sparrows and occasionally loggerhead shrikes. The site also provides habitat for moose and white-tailed and mule deer. A 10-acre subdivision in the northwest corner of NW-19 is not part of this site.

**Restrictions:** Day use only. No open fires. Foot access only. Please avoid areas where livestock are grazing.

**Partners:** ACA, AFGA, DUC, NCC, Wildlife Habitat Canada

**Quarter Sections:** Pr.NW/SE-19-037-18-W4M, Pr.SW-20-037-18-W4M

### Lockerby

**Site Details:** This 319-acre site is approximately 5 km northwest of Pine Lake and is across Highway 816 from the north end of the Stonhouse/Pope Conservation Site (E3-42). It consists of native aspen parkland vegetation and old hayfields, with many wetlands. Wildlife includes white-tailed deer, moose, elk, waterfowl, ruffed grouse and coyote.

**Restrictions:** Day use only. No open fires. Foot access only. Please avoid areas where livestock are grazing.

**Partners:** ACA, AFGA, DUC, NCC, Wildlife Habitat Canada

**Quarter Sections:** NW/NE-33-036-25-W4M

### East Stormwater Pond - ACA Fish Stocking

**Site Details:** This pond is located in Lacombe. Travel east on Highway 12, then north on Wolf Creek Drive and then east on 53 Avenue. The pond is located just north of the junction of 53 Avenue and 39 Street. ACA stocks this pond annually with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. Foot access only.

**Partners:** ACA, AEP, City of Lacombe, Lacombe Fish & Game Association, Nutrien

**Quarter Sections:** LOCATED IN LACOMBE

### Len Thompson - ACA Fish Stocking

**Site Details:** This pond is located in Lacombe. From Highway 2A, turn east on Woodland Drive and then north on Len Thompson Drive to arrive at the pond. ACA stocks this pond annually with rainbow trout, typically before the May long weekend. Pack a lunch and enjoy a few minutes of solitude at the picnic tables. An annual Youth Fishing Day is held here each June.

**Restrictions:** Day use only.

**Partners:** ACA, AEP, City of Lacombe, Lacombe Fish & Game Association, Nutrien, Thompson-Pallister Bait Company

## Larches

**Site Details:** This 148-acre site is 19 km north of Sundre near the James River. To access this site from Highway 587, travel north on RR 5-1 to the end of the road, then proceed on foot across the pipeline right-of-way to the site's southeast corner. There is excellent ungulate habitat in a diverse forest consisting of black spruce, tamarack and bog birch, with a thick mossy ground cover as well as grasses and native flowering forbs and shrubs in open areas. Aspen, poplar, white spruce and lodgepole pines are also present, along with cattails in the wetter bog areas. Several cut lines crisscross the site. Wildlife in the area includes elk, moose, deer and grouse. Rarer species, such as Canadian toads, may be found.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Western Sky Land Trust Society

**Quarter Sections:** Pr SE-35-034-05-W5M

## Drake

**Site Details:** This 133-acre site is approximately 14 km east of Caroline next to the Porter Conservation Site (E3-170). To access the north side of the river go south on RR 44 from Highway 54. For the south side, go south on RR 43, west on TWP 361A and north on RR 44 to the end of the undeveloped road allowance. Surrounded mainly by mixed spruce and aspen forest, the Raven River meanders through this site, providing over 2 km of fishable water for anglers targeting brown trout. Wildlife in the area include moose, deer, black bear, elk, ruffed grouse and spruce grouse.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** Pr SE-17-036-04-W5M

## Mitford Pond - ACA Fish Stocking

**Site Details:** This pond is located in the town of Cochrane. From Highway 22 (Cowboy Trail), head west on West

Rock Rd. to the parking area by the soccer fields and ball diamonds. From the parking area, the pathways and trails take you to upper and lower Mitford ponds. ACA annually stocks these ponds with rainbow trout and brown trout, typically before the May long weekend.

**Restrictions:** Refer to the latest edition of Alberta Guide to Sportfishing Regulations.

**Partners:** ACA, AEP, Town of Cochrane, Canadian Tire

**Quarter Sections:** LOCATED IN COCHRANE

## Shell Buffalo Hills Conservation Ranch

**Site Details:** This site is located approximately 20 km southeast of Mossleigh and consists of 5,560 acres of both tame hay and native prairie pothole habitat. Visitors will be treated to rolling hills and numerous wetland basins, providing habitat for white-tailed and mule deer, elk and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Kade McCornick at 403-465-3310 for more information.

**Partners:** DUC, Shell Canada Energy

## Coulson

**Site details:** This 10-acre site is located approximately 35 km southeast of Rocky Mountain House along the North Raven River, which offers world-class fishing opportunities for brown trout. The site was donated by Lillian and Francis Coulson in honour of her parents Marino and Emily Cozzubbo. This generous gift was made to conserve and protect the valuable riparian habitat found along the stream. Facilities include a maintained parking area, outhouse,

garbage can, and picnic table. The site can be accessed from the east side of Highway 761 along a shared driveway approximately 6 km north of the junction of Highway 54.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** NE-35-036-05-W5M

## Scheerschmidt

**Site details:** This 240-acre site is located approximately 8 km southeast of Stettler. Surrounded by agricultural land, this property was largely set aside for wildlife habitat by the late Mr. James Scheerschmidt, and consists of a mix of native parkland, grassy, open areas, and wetland. The site provides opportunities for saskatoon berry and choke cherry picking in the summer and hunting for white-tailed and mule deer, as well as coyote in the fall and winter. From Stettler, travel east on Highway 12 to RR 19-2, then south for approximately 5.4 km to the parking area along the west boundary.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA

**Quarter Sections:** NW AND Pt. SW-14-038-19-W4M

## Porter

**Site Details:** This 155-acre site is approximately 13 km east of Caroline, next to the Drake Conservation Site (E3-165). There are three access points: one along Highway 54 and two along RR 45. From Caroline, travel east along Highway 54 for 13 km to RR 45, 0.5 km south to a small parking area near the river, or 0.8 km to an approach at the southwest corner. The landscape consists of mature spruce and aspen forest, with the Raven River meandering through 2 km of the site. Wildlife in the area includes moose, deer, elk and cougar. The privately owned subdivision, located off Highway 54 on the quarter section that borders the north bank of the Raven River, is

not part of the site. Do not trespass on private property. This site is restricted to bowhunting only (no firearms permitted).

**Restrictions:** Day use only. No open fires. Foot access only. Bowhunting only.

**Partners:** ACA, AFGA

**Quarter Sections:** Pr SW-17-036-04-W5M

## Raven Ridge

**Site Details:** This 300-acre site is approximately 50 km southeast of Rocky Mountain House and 44 km west of Red Deer. The site is easily accessed from the south along Secondary Highway 538. Do not block the lease road gate. The site is mainly spruce and aspen with a 20-acre wetland in the southwest corner. There is a network of maintained cross-country ski trails, which make exploring this site easy in any season. Wildlife in the area includes deer, moose, elk, bear, cougar and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, AFGA, NCC

**Quarter Sections:** SW/SE-29-035-03-W5M,

## Winchell Lake - Lake Aeration

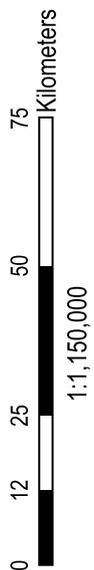

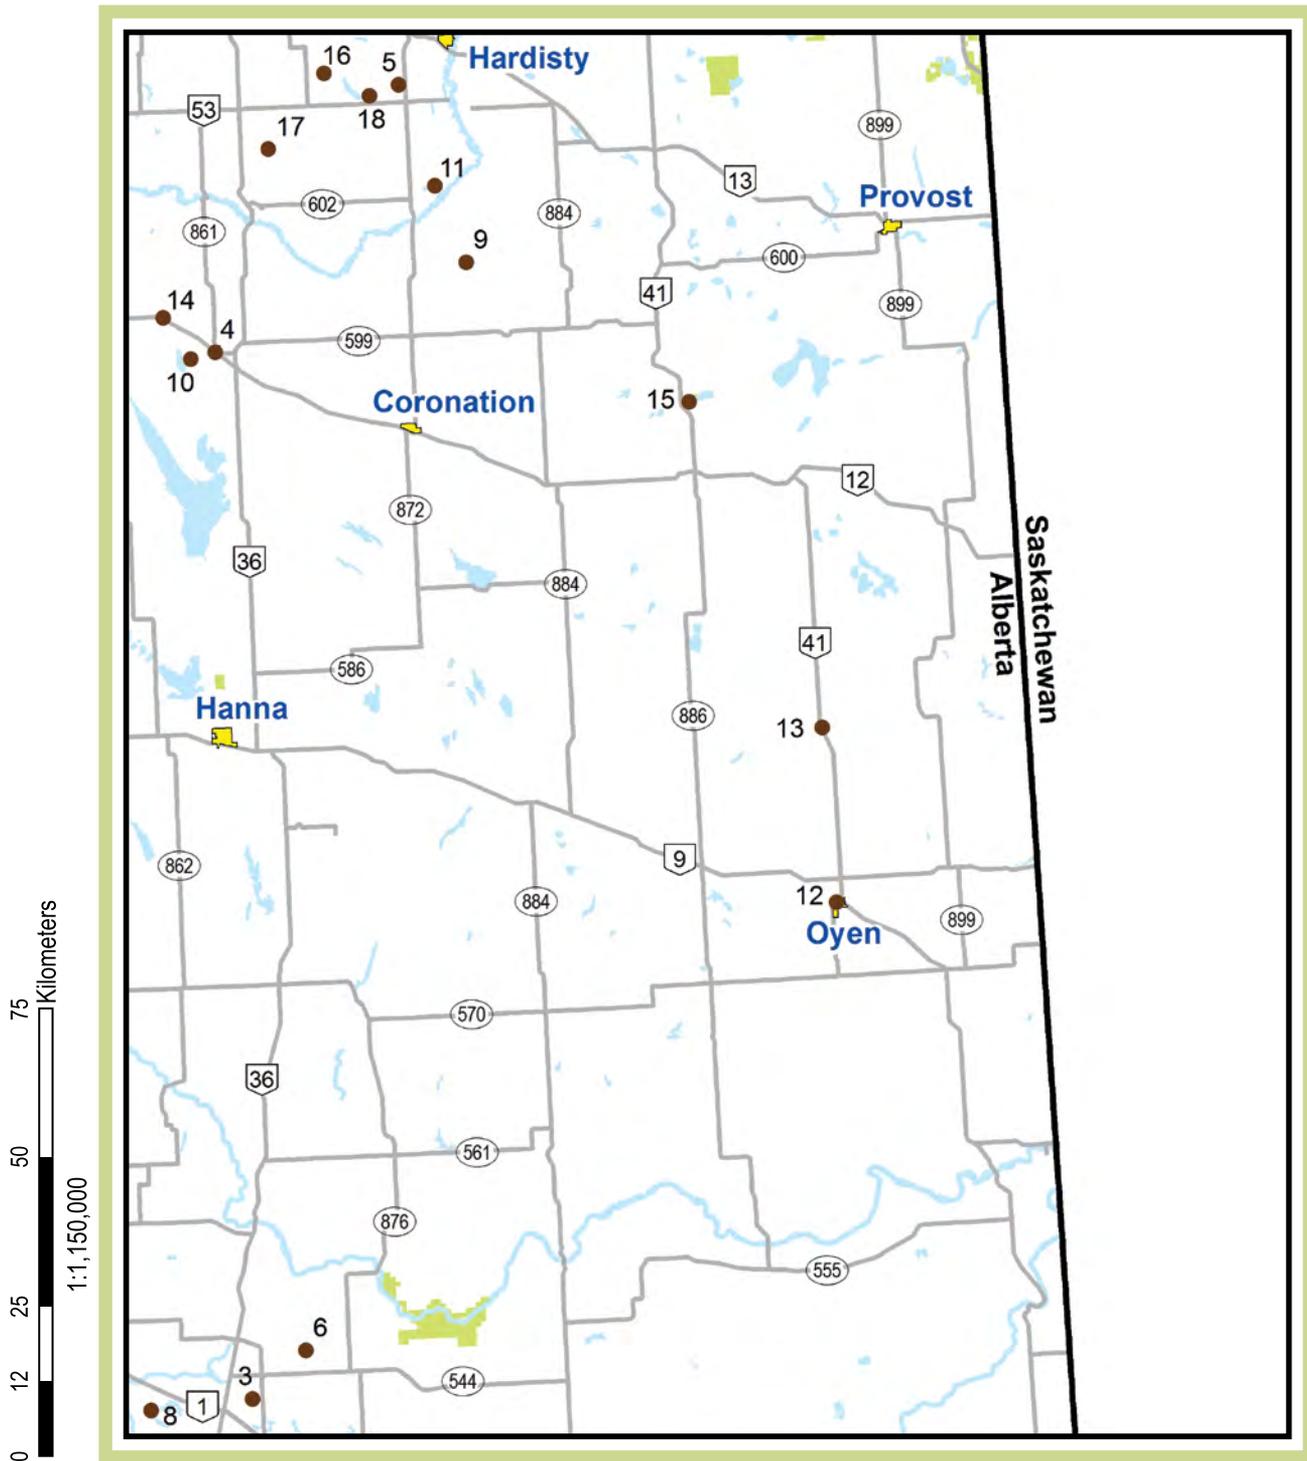

**Site Details:** This 12-acre lake is approximately 30 km northwest of Cochrane and consists of a small day-use area that provides access to good sport fishing opportunities. The lake is stocked annually by AEP with rainbow trout and aerated in the winter through ACA's Lake Aeration Program.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Mountain View County

**Quarter Sections:** NW-02-029-05-W5M

# Pheasants Forge On

# E4

**For decades**, southern Alberta was THE place to hunt pheasants—Bing Crosby and Bob Hope even made a trip (for real!). Rich habitat, mild winters and an active release program kept the ring-necked pheasant populations thriving from 1908 (when they were introduced near Strathmore) until the late '80s, when 27,000 hunters enjoyed the sport each year.

But great things... they only last so long. Pheasant hunting licences dipped to under 6,000 in 2010. Provincial budget changes saw fewer pheasants being released into the wild, and increasingly chilly winters made survival difficult. But vanishing habitat hit the birds the hardest. Farmers were able to increase output of their crops with new practices, and over time, unintentionally rid undisturbed areas full of native shrubs and grass—primo pheasant zone.

We couldn't let pheasant hunting disappear forever. A few years back, ACA began talking to local landowners and ranchers about the benefits of maintaining upland game bird habitat, launched the Taber Pheasant Festival, and took over the government's release program. Perhaps the most important component of the release program is engaging landowners, counties, and other conservation groups about existing habitat. Permanent cover, shrub, and cattail patches and healthy riparian areas are essential for pheasants while also improving water quality in our watersheds—clearly offering serious benefits for other wildlife in Alberta too.

ACA now operates 41 release sites, including one new site, Capital Power, west of Edmonton. Capital Power generously agreed to provide these lands as a Pheasant Release Site for Albertans to enjoy. Thanks to partnerships like these, we all have a second chance at carrying on the pheasant legacy. 🏹

### Long Pump

**Site Details:** This 40-acre site is located approximately 10 km north of Brooks. From Brooks, travel north on Highway 873 for 8 km and then turn west and travel 2 km. The site is managed as permanent cover that provides nesting habitat for waterfowl and upland game birds. Wildlife found in the area includes white-tailed and mule deer, pheasants, gray partridge, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Brooks Pheasant Festival, DUC

**Quarter Sections:** NE/SE-31-019-14-W4M

### Castor Fish Pond - ACA Fish Stocking

**Site Details:** This pond is located in Castor south of Highway 12 and west of Highway 861. ACA stocks this pond annually with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Town of Castor

**Quarter Sections:** LOCATED IN CASTOR

### Wylie

**Site Details:** This 160-acre site is located approximately 14 km southwest of Hardisty and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW-07-042-10-W4M

### Millicent

**Site Details:** This 770-acre site is located approximately 21 km northeast of Brooks. A Pheasant Release Site, Millicent offers some of the best pheasant and upland game bird hunting in the province. Numerous site improvements, including planting some 70,000 trees, developing a wetland, and seeding with attractive varieties of grassy vegetation, have made the habitat ideally suited to these species. For a great day of pheasant hunting or wildlife watching, be sure to visit Millicent.

**Restrictions:** Day use only. No open fires. Foot access only. This location is a Designated Pheasant Release Site.

**Partners:** ACA, AEP, County of Newell, DUC, EID, Partners in Habitat Development

**Quarter Sections:** NE/SE-19-020-13-W4M, NW/NE/SW/SE-30-020-13-W4M

### Oakland

**Site Details:** This 1,350-acre site is 19 km west of Brooks and consists of wetland and grassland habitat. Wildlife includes pronghorn antelope, waterfowl and shorebirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be on site. Please call Carson McCormick at 403-363-8033 for more information.

**Partners:** This is a DUC site.

### Cole A & K

**Site Details:** This 150-acre site is located approximately 11 km east of Brownfield and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-07-039-09-W4M

### Wiert Lanes Lake Imu

**Site Details:** This 640-acre site is located 7 km west of Castor and consists of wetland, grassland, and bush habitat. Wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Carson McCormick at 403-363-8033 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE/SW/SE-29-037-14-W4M, NE/SE-30-037-14-W4M

### John Golka

**Site Details:** This 320-acre site is located approximately 29 km south of Hardisty and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW/SE-22-040-10-W4M

### Oyen Concrete Plant Pond - ACA Fish Stocking

**Site Details:** This pond is located in Oyen near the concrete plant just north of 5 Avenue W and west of Main Street. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Town of Oyen

**Quarter Sections:** LOCATED IN OYEN

### Oyen Reservoir - ACA Fish Stocking

**Site Details:** This pond is north of Oyen. From the junction of Highway 9 and Highway 41, travel north on Highway 41 for 25.5 km. The pond is on the east side of Highway 41. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP

**Quarter Sections:** NE-33-030-04-W4M

### Anderson

**Site Details:** This 80-acre site is located 6 km west of Castor and is split by an abandoned railway line. Two large wetlands occur in the north portion of the site and the upland portion consists of open aspen, shrub, and grassland habitat. A variety of native plant and animal species are present in this parkland site.

**Restrictions:** Day use only. No open fires. Foot access only. Please call 403-352-9395 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-14-038-15-W4M

### Gooseberry Park Pond - ACA Fish Stocking

**Site Details:** From the town of Consort and the junction of Highway 12 and Highway 41, turn north on Highway 41 and travel 12 km, turn east on Twp Rd 364 and travel 1.6 km, turn south on RR 62 and travel 0.5 km, and then turn west into the site. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Bousquet family, Westview Cattle Co.

**Quarter Sections:** NE-22-036-06-W4M

### Kroetsch D & L

**Site Details:** This 160-acre site is located approximately 21 km southeast of Sedgewick and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-23-042-12-W4M

### Blumhagen

**Site Details:** This 160-acre site is located approximately 11 km north of Alliance and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes moose, white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Cattle may be present on site. Please contact Lyle Hauser at 780-806-9055 for additional information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-11-041-13-W4M

### Marlow

**Site Details:** This 160-acre site is located approximately 24 km southwest of Hardisty and consists of upland, riparian, and wetland habitat. Wildlife found in the area includes white-tailed and mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. This property is part of Bellshill (Goose) Lake, which is identified as a Restricted Lake in the Hunting Regulations. Please refer to the Regulations for specific restriction to the Bellshill (Goose) Lake area. Please call Lyle Hauser at 780-806-9055 for more information.

# Larger Fish Means...

# F3

## Better fishing of course!

Many of us know that fish stocking helps create great fishing in the parts of Alberta that need a little boost. But do you know how we really take it to the next level?

## By upping the oxygen!

Although each of our biologists would probably answer differently when asked why fish bite, we can all agree on this: water temperature and oxygen are responsible for active fish.

During our 20-year history of aerating lakes in Alberta, ACA has found that surface aeration is most successful in helping to prevent summer and winter fish kills. Central Alberta especially is prone to winterkill. We aerate waterbodies that are typically shallow and eutrophic (nutrient rich and teeming with plant life), and that experience prolonged ice cover—not ideal for fish survival.

To encourage fish to grow bigger (two to four years of growth is best), we try to maintain winter dissolved oxygen levels above 3 mg/L. It helps keep fish growing and biting all season long.

People inquire often about aeration and that's great; we love that people care enough to have conversations about water quality. After all, aeration is a result of a big picture desire: bigger, better, and more diverse fishing that is as accessible as possible. Now that's a great goal, even if we do say so ourselves! 🏞️

### Magrath Fish Pond - ACA Fish Stocking

**Site Details:** This horse-shoe shaped pond is in Magrath, just west of the junction of Highway 62 and East 3 Avenue S. It is visible from the highway. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Town of Magrath

**Quarter Sections:** LOCATED IN MAGRATH

### Rice

**Site Details:** This 320-acre site is located approximately 12 km southeast of Mountainview and consists primarily of native Foothills Parkland habitat. Wildlife found in the area includes white-tailed deer, elk, moose, black bear, grizzly bear, ruffed grouse, waterfowl, numerous songbirds, and small mammals.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, NCC, RMEFC

**Quarter Sections:** SW/SE-27-001-27-W4M

### Island Lakes

**Site Details:** This 288-acre site is located approximately 18 km southwest of Twin Butte. Numerous waterbodies are present throughout the site, as well as a short stretch of Yarrow Creek. Trembling aspen covers much of the area, with cottonwoods found along the creek. Grasslands occur sporadically and an old farmstead is situated in the site's southwest corner. Wildlife found in the area includes white-tailed and mule deer, moose, elk, black bear, grizzly bear, waterfowl, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, DUC, NCC

**Quarter Sections:** NW/SW-35-003-30-W4M

### Prouty Lake

**Site Details:** This 160-acre site is located 11 km north of Enchant and consists of wetland and upland habitat. Approximately 80 acres of cropland were reseeded in 2010 with a seed mix that will benefit nesting birds. Wildlife found in the area includes white-tailed and mule deer, pheasants, gray partridge, waterfowl, shorebirds, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** ACA, AEP, BRID, DUC, PF  
**Quarter Sections:** SE-18-015-18-W4M

### Sandstone Ranch

**Site Details:** This 4,147-acre site is approximately 35 km south of Magrath. The ranch lies within the Foothills Fescue grasslands, with the North Milk River flowing through the southern portion of the site. Sixty-six species of fish and wildlife were found in the area during inventories, including mule deer, sharp-tailed grouse, grey partridge, raptors, grassland birds and shorebirds.

**Restrictions:** Day use only. No open fires. Foot access only. Access is by permission only from ACA at 403-331-7657.  
**Partners:** ACA, AEP, AFGA, ECCC, NCC, Sandstone Ranch Grazing Co-op

### Clear Lake

**Site Details:** This 600-acre site is 16 km northeast of Stavely and primarily consists of upland planted cover and ephemeral wetland habitat. Wildlife in the area includes upland birds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Kade McCormick at 403-465-3310 for more information.  
**Partners:** This is a DUC site.  
**Quarter Sections:** NE-36-013-26-W4M, NW-24-014-26-W4M, NE/SE-27-014-26-W4M

### McQuillan Reservoir - ACA Fish Stocking

**Site Details:** This site is southeast of Coaldale. From Coaldale, travel south on Highway 845, then east on Twp Rd 82, north on RR 191 and east into site. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** ACA, AEP, Coaldale and District Fish & Game Association  
**Quarter Sections:** SW-13-008-19-W4M

### Linder

**Site Details:** This 160-acre site is located on the Milk River Ridge approximately 20 km southeast of Cardston. The site is part of the Jefferson Conservation Pasture, which is a conservation initiative led by Ducks Unlimited Canada in cooperation with the Nature Conservancy of Canada and Alberta Conservation Association. Wildlife found in the area includes white-tailed and mule deer, pronghorn antelope, gray partridge, sharp-tailed grouse, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Kade McCormick at 403-465-3310 for more information.  
**Partners:** ACA, DUC  
**Quarter Sections:** SW-20-001-24-W4M

### Stirling Fish Pond - ACA Fish Stocking

**Site Details:** This pond is in Stirling at the corner of 6 Street and 1 Avenue. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** ACA, AEP, Village of Stirling  
**Quarter Sections:** LOCATED IN STIRLING

### Stirling Lake

**Site Details:** This 1,309-acre site is located directly northwest of Stirling along Highway 4. This is a Wetlands for Tomorrow project that provides habitat for waterfowl and upland game birds and access for wildlife viewing and hunting.

**Restrictions:** Day use only. No open fires.  
**Partners:** ACA, AEP, Canadian Wildlife Service – ECCC, DUC, RID, Stirling Cattle Co.  
**Quarter Sections:** NW/NE-31-006-19-W4M, NW/NE-36-006-20-W4M, NW/SW/SE-05-007-19-W4M, NW/NE/SW/SE-06-007-19-W4M

### CPR Reservoir

**Site Details:** This 305-acre site is located approximately 11 km north of Coaldale on Highway 845. The site is leased until 2025 and is managed as upland cover, which provides outstanding waterfowl and upland game bird nesting cover. Wildlife found in the area includes white-tailed and mule deer, pheasants, partridge, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** AFGA  
**Quarter Sections:** NW/NE/SW/SE-13-010-20-W4M, NW/NE/SW/SE-14-010-20-W4M, NW/NE/SW/SE-23-010-20-W4M, NW/NE/SW/SE-24-010-20-W4M

### Bow City East Pond - ACA Fish Stocking

**Site Details:** This pond is located approximately 30 km southwest of Brooks, just north of the Bow River and west of Highway 36. From Highway 36, turn west on Highway 539 and proceed until the Bow City Park turnoff, just prior to crossing the Bow River. Follow this road west for 3 km to the pond access. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** ACA, AEP  
**Quarter Sections:** NW-15-017-17-W4M

### Eight Mile Lake

**Site Details:** This 81-acre site is located approximately 10 km northwest of Coaldale. The site is leased until 2028 and is managed as upland cover, which provides outstanding waterfowl and upland game bird nesting cover. Wildlife found in the area includes white-tailed and mule deer, pheasants, gray partridge, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** AFGA, ASRPWF, Lethbridge Fish & Game  
**Quarter Sections:** NW-32-009-20-W4M, SW-05-010-20-W4M

### Emerson Lake - ACA Fish Stocking

**Site Details:** Emerson Lake is located in the Town of High River. From 12 Ave SE travel north on 9th Street to 9 Ave. There is parking on the east side of 9th Street which is on the west side of the lake. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.  
**Partners:** ACA, AEP, Town of High River  
**Quarter Sections:** LOCATED IN HIGH RIVER

## Sentinel

**Site Details:** This 20-acre site, located approximately 7 km west of Coleman (near Sentinel) in the Crowsnest Pass, provides a buffer around a municipal Ecological Reserve on the Crowsnest River. Wildlife found in the area includes elk, moose, white-tailed deer, grizzly bear, cougars, and numerous songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, NCC, RMEFC

**Quarter Sections:** SE-10-008-05-W5M

## Wild Rose

**Site Details:** This 960-acre site is located on the Milk River Ridge approximately 20 km southwest of Magrath. The site consists of native vegetation common to the Foothills Fescue Natural Subregion. Its rolling terrain provides habitat for at least 44 different species, including mule deer, white-tailed deer, sharp-tailed grouse, raptors, and a variety of small mammals and songbirds. Evidence of grizzly bear has also been documented at the site.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, ECCS, NCC

**Quarter Sections:** NW/NE-25-003-23-W4M, NW/NE/SW/SE-36-003-23-W4M

## Burmis Lake

**Site Details:** This 16-acre fisheries access site is located approximately 12 km east of the Crowsnest Pass along Highway 3. AEP stocks this lake with rainbow trout for family fishing opportunities. The site also provides access to the Crowsnest River, which is a popular fishery for avid anglers. An outhouse and garbage bins are available for public use.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, AEP, Devon Canada Corporation, TUC

**Quarter Sections:** SE-14-007-03-W5M

## Lee Lake

**Site Details:** Nothing sets an angler's heart aflutter like a well-stocked lake that can be easily accessed. With rainbow trout stocked annually by AEP and an average fish size of 30 to 35 cm, Lee Lake is indeed the candy store of stocked lakes. Lee Lake is located approximately 16 km southeast of Crowsnest Pass. From Crowsnest Pass, travel east on Highway 3 for 10 km, then turn south at Highway 507,

and follow the road to the site. A parking area, a gravel boat launch in good condition, garbage bins, and an outhouse are available.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Devon Canada Corporation

**Quarter Sections:** SW-08-007-02-W5M

## Coleman Fish and Game Pond - Lake Aeration

**Site Details:** This pond is approximately 5 km northwest of Coleman and offers good sport fishing opportunities. AEP stocks this pond annually with rainbow trout and it is aerated in winter through ACA's Lake Aeration Program.

**Restrictions:** No restrictions at this site.

**Partners:** ACA, AEP, Border Building Materials, Devon Canada Corporation

**Quarter Sections:** SW-24-008-05-W5M

## Kenex

**Site Details:** This 506-acre site is approximately 11 km west of Nobleford on Highway 519. AEP stocks this pond annually with rainbow trout to enhance angling opportunities. Wildlife in the area includes upland game birds, white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Kade

Refrain from discharging firearms for the purpose of target practice or sighting in on conservation sites.

For the safety and enjoyment of all users and neighbouring residences, conduct these activities at a gun range.

McCornick at 403-465-3310 for more information.

**Partners:** ACA, AEP, DUC

**Quarter Sections:** NE/SE-03-011-24-W4M, NW/NE/SE-10-011-24-W4M, SW-14-011-24-W4M

## Frayn

**Site Details:** This 84-acre site, located 1 km west of Blairmore in the Crowsnest Pass, consists of riparian habitat with willows and meadow grasses along the Crowsnest River. Angling opportunities for rainbow trout are available along the Crowsnest River. Wildlife found in the area includes moose, elk, waterfowl, and numerous songbirds.

**Restrictions:** Day use only. No open fires. No hunting.

**Partners:** ACA, AFGA, CPR, NCC, RMEFC

**Quarter Sections:** NW/SW-03-008-04-W5M

## Sentinel Uplands

**Site Details:** This 320-acre site is located 14 km west of Crowsnest Pass on Highway 3 and consists of a mechanical clearing completed in 2000/2001 on a chinook-prone slope south of the Crowsnest River. Wildlife found in the area includes elk, moose, white-tailed deer, black bear, grouse and a variety of small mammals and songbirds.

**Restrictions:** Refer to access and restrictions provided by AEP on the Recreational Access to Agricultural Public Land website at [www.AEP.alberta.ca](http://www.AEP.alberta.ca).

**Partners:** ACA, AEP, RMEFC

**Quarter Sections:** NW/NE-03-008-05-W5M

## McVinnie Reservoir - ACA Fish Stocking

**Site Details:** This 152-acre site provides grassland habitat for songbirds, shorebirds and upland gamebirds. ACA annually stocks this pond with rainbow trout, typically before the May long weekend. The site has a parking area, floating docks, garbage bins and an outhouse. Travel north from West Lethbridge on Highway 25 for approximately 20.4 km to RR 214. Travel north on RR 214 for 17.9 km. An access road and site sign are located on the east side of the road.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, AFGA, County of Lethbridge, LNID, Partners in Habitat Development, PF

**Quarter Sections:** SW-33-012-21-W4M

## Skipworth (Jefferson Moraine)

**Site Details:** This 2,400-acre site is 65 km southwest of Lethbridge and consists of grassland and wetland habitat. Wildlife in the area includes white-tailed deer and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Kade McCornick at 403-465-3310 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE/SW/SE-17-001-24-W4M, NE/SW/SE-18-001-24-W4M, SE-19-001-24-W4M, NW/SW-29-001-24-W4M, NE/SE-30-001-24-W4M, SW-31-001-24-W4M, NW/NE/SW/SE-13-001-25-W4M

### Crowsnest Lake

**Site Details:** This 123-acre site is located on the north side of Crowsnest Lake in the Crowsnest Pass and provides habitat primarily for bighorn sheep, but elk and large carnivores are also found in the area. The site offers some scenic views of the Crowsnest Pass overlooking Crowsnest Lake.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, NCC, RMEFC

**Quarter Sections:** NE/SE-08-008-05-W5M

### Circle E

**Site Details:** This 320-acre site is located 20 km east of Lomond and primarily consists of grassland habitat. Wildlife found in the area includes waterfowl, upland birds, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Carson McCormick at 403-363-8033 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NE-36-015-18-W4M, SW-01-016-18-W4M

### Enchant Park Pond- ACA Fish Stocking

**Site Details:** This site is located directly south of Enchant in Enchant Park on the south side of Highway 526 and provides recreational angling and wildlife-viewing opportunities. ACA annually stocks this pond with rainbow trout, typically before the May long weekend. Wildlife found in the area includes waterfowl and a variety of shorebirds and songbirds.

**Restrictions:** Users are subject to Enchant Park restrictions. Refer to the latest edition of Alberta Guide to Sportfishing Regulations.

**Partners:** ACA, AEP, BRID, DUC, Enchant Park Committee

**Quarter Sections:** NW-08-014-18-W4M

### Blind Canyon

**Site Details:** This 160-acre site is located approximately 30 km south of Pincher Creek, west of Spread Eagle Road along the forest reserve boundary between Yarrow Creek and Spionkop Creek. Wildlife found in the area includes black bear, grizzly bear, white-tailed deer, bighorn sheep, wolves, numerous songbirds, and small mammals.

**Restrictions:** Day use only. No open fires. Access the site through the forest reserve.

**Partners:** ACA, AFGA, NCC, RMEFC

**Quarter Sections:** SW-21-003-30-W4M

### Tyrrell Lake

**Site Details:** This 72-acre site is located approximately 42 km south of Lethbridge on Highway 4 and consists of upland habitat. Travel south on Highway 4 from Lethbridge and then turn east on Twp Rd 54 and travel 2.5 km. Wildlife found in the area includes upland game birds, waterfowl, shorebirds, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, County of Warner

**Quarter Sections:** NW-24-005-18-W4M

### Granum Pond - ACA Fish Stocking

**Site Details:** This pond is in Granum south of the junction of Dufferin Street and Mountview Place. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Users are subject to Granview Recreation Park restrictions.

**Partners:** ACA, AEP, Granview Park

**Quarter Sections:** LOCATED IN GRANUM

### Frank Lake

**Site Details:** This 750-acre site is approximately 8 km west of High River and consists of upland, riparian and wetland habitat. Wildlife in the area includes waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Kade McCormick at 403-465-3310 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SW-04-019-27-W4M, NE-26-018-28-W4M, NE-35-018-28-W4M, SE-35-018-28-W4M, NW-36-018-28-W4M, NE-36-018-28-W4M

### Sharritt

**Site Details:** This 142-acre site is 16 km northeast of Stavely and is part of the Clear Lake project. Habitat at this site primarily consists of upland planted cover and ephemeral wetlands. Wildlife in the area includes upland birds.

**Restrictions:** Day use only. No open fires. Foot access only. Livestock may be present. Please call Kade McCormick at 403-465-3310 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** SE-34-014-26-W4M

### Timber Ridge

**Site Details:** This 640-acre site is located approximately 20 km southwest of Nanton. From Nanton, follow Highway 533 southwest to RR 295, then travel for 3 km to reach the most northerly quarter section of the site. This site was secured in partnership with the Hall Family to conserve wildlife habitat and demonstrate sustainable ranching practices. Wildlife found in the area includes moose, elk, white-tailed and mule deer, grizzly and black bear, cougar, grouse, and a variety of small mammals and songbirds.

**Restrictions:** Managed access is in effect on this site. Please contact 403-646-5813 to access the site and for seasonal restrictions.

**Partners:** ACA, Glen and Kelly Hall and Family

**Quarter Sections:** NE/SE-18-015-29-W4M, SE-08-015-29-W4M, NW-07-015-29-W4M

### Police Outpost Lake - Lake Aeration

**Site Details:** Police Outpost Lake is in Police Outpost Provincial Park approximately 32 km southwest of Cardston. The lake is 98 ha in size, and up to 5.5 m (18 ft) deep. The fishery is managed as a quality stocked fishery that allows harvest of one rainbow trout over 50 cm. Campsites, day use areas and boat launch are available in the park. The access road is closed at the park boundary from November 1 to April 1. This lake is aerated in winter through ACA's Lake Aeration Program.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, TUC – Oldman River Chapter

**Quarter Sections:** NE/NW-06-001-26-W4M

### Waldron Falls

**Site details:** This four-acre fisheries access site is located approximately 28 km north of Lundbreck on Highway 22. The site provides access to the Oldman River, which is a popular fishery for avid anglers. Sanitary facilities are available.

**Restrictions:** Day use only. No open fires.

**Partners:** ACA, Waldron Grazing Co-operative

**Quarter Sections:** NW-06-010-01-W5M

### Chinook

**Site Details:** Located in the Alberta badlands, this 464-acre site is approximately 8 km south of Irvine along Bull Trail. Despite its appearance of barren land, the site is alive with native grassland, upland, and riparian habitat along Ross Creek, which flows through the SW quarter of the property. The site provides diverse habitat for numerous Species at Risk including northern leopard frog, ferruginous hawk, Sprague's pipit, and chestnut-collared longspur. This site is also a magnet for many game species including white-tailed and mule deer, and pheasants.

**Partners:** ACA, AFGA, ECCC, PF – Calgary and Chinook Chapters, Wild Elk Federation

# Get it Right

**You've probably read** about a few high profile poaching cases this past year. But think of how many we don't hear about—smaller charges or arrests because of a simple mistake or ignorance of the law. Maybe it's one or two fish over the limit, or maybe it's straying too far and hunting out of area. No matter the intention, the legal consequences are the same.

**Spend ten minutes** with the Alberta hunting, trapping, and sport fishing regulations before you head out—those three publications cover everything hunters and anglers need to know about enjoying Alberta's recreational resources. That way, you're in the right.

**And of course,** don't be afraid to report any suspicious activity you do see out on your adventures. You can call 1-800-642-3800, or report through RAP's secure website at [alberta.ca/report-poacher.aspx](http://alberta.ca/report-poacher.aspx).

# F4

## 1 Cassills Marsh

**Site Details:** This 616-acre site is located approximately 19 km west of Brooks on Highway 542. The site is managed in conjunction with the Antelope Creek Ranch (F4-11). The large prairie wetlands are very productive and support a wide diversity of waterfowl. Wildlife found in the area includes white-tailed and mule deer, pronghorn antelope, pheasants, gray partridge, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only except on designated roads.

**Partners:** AFGA, AEP, DUC

**Quarter Sections:** NW-06-019-15-W4M, NW/NE-01-019-16-W4M, NE-02-019-16-W4M, SW/SE-11-019-16-W4M, SW-12-019-16-W4M

## 2 Sauder Reservoir

**Site Details:** This 109-acre site is located approximately 40 km southwest of Medicine Hat and consists of grass and shrub habitat, with approximately 4 km of reservoir shoreline. Wildlife found in the area includes waterfowl, shorebirds, small mammals, and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, Medicine Hat Fish & Game

**Quarter Sections:** SW/SE-07-012-09-W4M, NW/NE/SE-12-012-09-W4M

## 3 Fincastle Reservoir

**Site Details:** Fincastle Reservoir introduces visitors to a different kind of neighbourhood—great blue heron style. A rookery is located on a nearby island, home to generations of herons who have come, built nests, and reared their young. The human-made nesting structure, built by ACA staff in 2000, holds some 12 heron nests and replaces the since-deteriorated poplar tree that was the population's former home. Bring your binoculars and observe the peculiar feeding and nesting habits of these great birds. Be respectful and keep your distance. Pack your fishing rod and try landing a walleye, northern pike, or yellow perch. This 33-acre site is located approximately 10 km east of Taber. From Taber, travel east on Highway 3 for 9 km and then turn north and travel 0.5 km.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Lamb-Weston, MD Taber, TID

**Quarter Sections:** NE-16-010-15-W4M

## 4 Gold Springs Park - ACA Fish Stocking

**Site Details:** This pond in Gold Springs Park is an oxbow of the Milk River. From the town of Milk River, travel south on Highway 4 to Twp Rd 20. Travel east on Twp Rd 20 for 2.3 km then north for 1 km to the site. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Users are subject to Gold Springs Park restrictions.

**Partners:** ACA, AEP, Gold Springs Park

**Quarter Sections:** NE-06-002-15-W4M

### Potiuk/Wester Memorial

**Site Details:** This 160-acre site is located approximately 9 km southwest of Tilley and consists of wetland, shrubland, and some idle hayland. Conversion of the hayland to grass provides permanent cover to maintain nesting habitat for waterfowl and upland game birds. Wildlife found in the area includes white-tailed and mule deer, pheasants, gray partridge, waterfowl, shorebirds, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** AFGA, Brooks Pheasant Festival, DUC

**Quarter Sections:** SW-36-016-13-W4M

### Echo Dale Regional Park - ACA Fish Stocking

**Site Details:** This pond is located in Echo Dale Regional Park on the west side of Medicine Hat. The park is accessed via RR 64 off Highway 523. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, City of Medicine Hat

**Quarter Sections:** LOCATED IN MEDICINE HAT

### Inter-Lake

**Site Details:** This 37-acre site is located directly across the Trans-Canada Highway from Brooks and consists of wetland and upland habitat. The site provides excellent wetland wildlife viewing opportunities.

**Restrictions:** Day use only. No open fires. Foot access only. No hunting.

**Partners:** ACA, AEP, County of Newell, EID

**Quarter Sections:** NW/SW-09-019-14-W4M

### Foremost Reservoir - ACA Fish Stocking

**Site Details:** This reservoir is on the west side of the village of Foremost, south of Highway 61 and east of RR 115. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Village of Foremost

**Quarter Sections:** LOCATED IN FOREMOST

### Hays Drain C3

**Site Details:** This 37-acre site is located approximately 47 km northeast of Taber and consists of wetland and native upland habitat. From Taber, travel north on Highway 36 to Highway 875. Turn east on Highway 875 and travel 20 km, and then turn south and follow the road for 2 km. Wildlife found in the area includes white-tailed and mule deer, upland game birds, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, BRID

**Quarter Sections:** SW/SE-36-011-14-W4M

### Peigan Creek

**Site Details:** This site is a notable conservation success story of a collaboration of 10 project partners, all dedicated to maintaining its precious 960 acres of diverse and rare habitat. The site is located about 70 km southwest of Medicine Hat. From Medicine Hat, travel west on Highway 3. Just east of Seven Persons, turn south on Highway 887. Continue about 29 km south, passing the signs to Red Rock Coulee Natural Area. The site is on the west side of the highway. In addition to moose, white-tailed deer and mule

deer, this site is home to loggerhead shrikes, prairie rattlesnakes, and leopard frogs, as well as numerous other at-risk flora and fauna.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, ASRPWF, Lethbridge Fish & Game, Medicine Hat Fish & Game, NCC, PF, Picture Butte Fish & Game, Sarcee Fish & Game, Zone 1 Fish & Game

**Quarter Sections:** NW/NE/SW/SE-13-007-07-W4M, SW/SE-24-007-07-W4M

### Antelope Creek Ranch

**Site Details:** This 5,493-acre site is located approximately 19 km west of Brooks along Highway 542. The site is managed through the Antelope Creek Management Committee. The working ranch is used as an example of managing for sustainable ranching and conserving native habitat values. For more information, please visit [www.antelopecreekranch.ca](http://www.antelopecreekranch.ca).

**Restrictions:** Day use only. No open fires. Foot access only except on designated routes. Follow special restrictions posted on site.

**Partners:** AFGA, AEP, DUC, Wildlife Habitat Canada

**Quarter Sections:** NW/SW-02-019-16-W4M, NW/NE/SW/SE-03-019-16-W4M, NW/NE/SW/SE-04-019-16-W4M, NW/NE/SW/SE-05-019-16-W4M, NE/SE-06-019-16-W4M, NE/SE-07-019-16-W4M, NW/NE/SW/SE-08-019-16-W4M, NW/NE/SW/SE-09-019-16-W4M, NW/NE/SW/SE-10-019-16-W4M, SW-11-019-16-W4M, NW/NE/SW/SE-16-019-16-W4M, NW/NE/SW/SE-17-019-16-W4M, NE/SE-18-019-16-W4M

### East Hays

**Site Details:** This 144-acre site is located approximately 10 km east of Hays and is adjacent to a large area of Crown lease land along the Bow River. This site has been undergoing a transformation over the past few years with the addition of 11,000 shrubs and 13 acres of wetland complexes to enhance the habitat, particularly winter cover, to benefit upland birds such as pheasants and partridge. The remaining tame grasslands are also actively managed to maintain quality nesting and brood habitat. Other wildlife found in the area includes white-tailed and mule deer, waterfowl, and a variety of small mammals and songbirds.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, BRID, Brooks and District Fish & Game Association/Brooks Pheasant Festival, CALFRAC Well Services, MD Taber, Partners in Habitat Development, PF-Chinook and Calgary Chapters, private donors

**Quarter Sections:** SW-25-013-13-W4M, SE-26-013-13-W4M

### Brooks Aqueduct

**Site Details:** Also known as Aqueduct Marshes, this 407-acre site is located approximately 10 km southeast of Brooks and consists of upland and wetland habitat and a fisheries access site. Recreational opportunities include good waterfowl and upland game bird hunting, as well as fishing for rainbow trout in the pond stocked by AEP.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, AEP, County of Newell, DUC, EID, Partners in Habitat Development

**Quarter Sections:** NE-09-018-14-W4M, NW-10-018-14-W4M, NW/NE/SW-15-018-14-W4M, NE/SW/SE-16-018-14-W4M

### Heninger Reservoir

**Site Details:** This 210-acre site is located approximately 50 km northeast of Milk River. Recreational opportunities include upland game bird and waterfowl hunting, nature viewing, and photography. A parking area, gravel boat launch in good condition, garbage bins, and an outhouse are available.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, AEP, Warner County

**Quarter Sections:** NE/SW/SE-16-003-12-W4M

### Sproule

**Site Details:** This 160-acre site is located approximately 3 km southwest of Rolling Hills and consists of tame and native grass uplands and

Get the *Alberta Discover Guide* app!

Search conservation sites by name, activity, or proximity.

a 39-acre wetland complex, which was developed and is maintained by DUC. Wildlife found in the area includes pheasants, partridge, waterfowl, deer, and pronghorn.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AEP, Brooks and District Fish & Game Association/ Brooks Pheasant Festival, County of Newell, DUC, EID

**Quarter Sections:** SE-35-014-14-W4M

### Silver Sage

**Site Details:** This 2,371 acre site is approximately 15 km south of Manyberries. Wildlife surveys have identified 65 species that enjoy the mix of native prairie uplands, riparian areas and ephemeral wetlands. Management activities focus on restoring cropland back to native grassland in order to benefit greater sage grouse and other grassland species such as Sprague's pipit, sharp-tailed grouse and pronghorn antelope.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Government of Canada - Habitat Stewardship Program for Species at Risk, Medicine Hat Fish & Game, MULTISAR, PF - Calgary and Chinook Chapters

**Quarter Sections:** NW-32-003-05-W4M, NW-33-003-05-W4M, NW-34-003-05-W4M, SW-02-004-05-W4M, NW/NE/SW-04-004-05-W4M, SW/SE/NE-05-004-05-W4M, NE/SW/SE-06-004-05-W4M, SW/SE-09-004-05-W4M

### Legacy

**Site Details:** This 100-acre site is located approximately 21 km northeast of Vauxhall. To access the site, travel 6.4 km north of Vauxhall along Highway 36 to Twp Rd 140 and then turn east and travel approximately 15 km. Habitat enhancement activities have been initiated to improve nesting, brood-rearing, and winter cover for upland birds. With the financial assistance of PF - Calgary Chapter, nearly 35 acres of cropland have been reseeded with a grass mix suitable for nesting birds, and a 12-acre wetland complex was developed in the fall of 2011. The remaining habitat primarily consists of tame grass hayland. There are also some draws with native grasses and

shrubs. Wildlife found in the area includes pheasants, sharp-tailed grouse, partridge, deer, pronghorn antelope, and the occasional rattlesnake.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, David Bissett, PF - Calgary Chapter

**Quarter Sections:** NE-05-014-14-W4M

### Bullshead Conservation Area

**Site Details:** This 2,239-acre site is located approximately 29 km northwest of Elkwater and consists of wetland and upland habitat. Wildlife found in the area includes white-tailed deer, mule deer, grouse, waterfowl, and a variety of songbirds.

**Restrictions:** Day use only. No open fires. Foot access only. Please call Carson McCormick at 403-363-8033 for more information.

**Partners:** This is a DUC site.

**Quarter Sections:** NW/NE/SW/SE-04-009-04-W4M, NW/NE/SW-05-009-04-W4M, NW/NE/SE-08-009-04-W4M, NW/SW/SE-09-009-04-W4M, NW-10-009-04-W4M

### Ross Creek

**Site Details:** This 1,097 acre site is approximately 15 km east of Medicine Hat along the Trans-Canada Highway. There is a small subdivision in the northwest corner of NW 09 that is not part of this site. This site conserves native prairie and enhances habitat for game species, such as pronghorn, sharp-tailed grouse, and ring-necked pheasant, and for species at risk, such as Sprague's pipit and northern leopard frog. Over 600 acres consist of native grass communities, and nearly 300 acres comprises a mix of riparian vegetation along Ross Creek, tame grasses and ephemeral wetlands.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Government of Canada Habitat Stewardship Program for Species at Risk, La Terra Ventures Inc., Medicine Hat Fish & Game, MULTISAR, PF - Calgary and Chinook Chapters

**Quarter Sections:** NW/NE/SW/SE-08-012-03-W4M, NW/NE/SW-09-012-03-W4M

### Grantham Lake

**Site Details:** This 420-acre site is located 13 km east of Vauxhall along Highway 524 and consists of native and tame grasslands. Some shrub and tree cover occur along a canal that separates the south part of the property. The area around Grantham Lake is an important waterfowl area. The site provides nesting and brood rearing cover for upland game birds and habitat for ungulates, furbearers, and non-game species. Grantham Lake primarily supports northern pike.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, BRID, AEP, Hays Stock Grazing Association, MD Taber, PF - Calgary Chapter

**Quarter Sections:** NW/SW-25-013-15-W4M, SW/Pt. SE-36-013-15-W4M

### Bull Trail

**Site Details:** Site Details: Located immediately north of the Cypress Hills, Bull Trail is a 530-acre site that offers rolling grasslands and wetlands that are home to deer, elk, sharp-tailed grouse, and many waterfowl. Several at risk species are found here including the *Threatened* Sprague's pipit. Many partners came together to invest in this parcel of important native grassland. If you are in the area you can also check out Ross Creek Conservation Site (F4-20) or Bullshead Conservation Area (F4-19).

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, DUC, Government of Canada - Habitat Stewardship Program for Species at Risk, MULTISAR, PF - Calgary and Chinook Chapters, Wild Elk Federation

**Quarter Sections:** NE/SE 08-009-02-W4M, Pt. SW-09-009-02-W4M, NE-05-009-02-W4M, Pt. SE-05-009-02-W4M

### Escape Coulee

**Site Details:** This 800-acre site is located approximately 94 km south of Medicine Hat and about 14 km north of the U.S. border. Situated on the edge of badland complexes along the Milk River, the site offers

some unique landscape-viewing opportunities as well as ecologically sensitive native grassland habitats for sensitive and at risk species, particularly greater sage-grouse and Sprague's pipit. Recreational hunting opportunities are also available for mule deer, pronghorn and elk, as well as sharp-tailed grouse and waterfowl.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Government of Canada - Habitat Stewardship Program for Species at Risk, PF - Chinook Chapter, TransCanada Pipelines Ltd., Wild Elk Federation

**Quarter Sections:** NW/NE/SW/SE-19-002-06-W4M, NW-20-002-06-W4M

### Chinook

**Site details:** This 464-acre site is located approximately 8 km south of Irvine along Bull Trail. The site consists of native grassland, upland, and riparian habitat. Wildlife found in the area includes, white-tailed and mule deer, and pheasants.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** ACA, AFGA, Government of Canada - ECCC, PF - Calgary Chapter, PF-Chinook Chapter, Wild Elk Federation

**Quarter Sections:** NE/NW/SW-01-011-03-W4M

### Taber Trout Pond - ACA Fish Stocking

**Site details:** Taber Trout Pond is located immediately west of the Town of Taber west of Highway 864 and north of Twp Rd 100. There is a parking lot and paved walking path around the perimeter of the pond. Taber Trout Pond is Y-shaped, has a surface area of 4.5 hectares and a maximum water depth of 6.5 m. ACA annually stocks this pond with rainbow trout, typically before the May long weekend.

**Restrictions:** Day use only. No open fires. Foot access only.

**Partners:** Gouw Quality Onions, MD of Taber, TID, Town of Taber

**Quarter Sections:** NW-01-010-17-W4M

## Partnerships make it happen.

ACA biologists teach youth and their leaders about raising pheasants, and what kind of habitat and food they and other upland game birds need in the wild. The kids experience the business of agriculture first-hand and how it connects to habitat conservation and hunting. We call that a win-win-win.

Want to get involved?
