

## **Alberta Conservation Association 2015/16 Project Summary Report**

**Project Name:** WIN Card Reimbursements

**Information, Education and Communications Program Manager:** Don Myhre

**Project Leader:** Don Myhre

**Primary ACA staff on this project:** Rickie Hunt, Don Myhre and Laura Volkman

### **Partnerships**

Alberta Hunter Education Instructors' Association  
Hunting for Tomorrow

### **Key Findings**

- The WIN Card Reimbursement program supports the recruitment of young people into hunting.
- In 2015/16, Hunting for Tomorrow distributed over 1,500 information packages to youth who had completed the hunter education course.
- A total of 345 youth returned the reimbursement form and asked to be included on ACA's mailing list to receive ongoing information from ACA regarding hunting, fishing, trapping and other conservation activities.

### **Introduction**

In partnership with Hunting for Tomorrow and Alberta Hunter Education Instructors' Association, the WIN Card Reimbursement program supports the recruitment of young people into hunting. The project gives ACA and its member groups a way to connect with new hunters when they purchase their first WIN card.

### **Methods**

This program increases the number of youth 12 to 17 years old who complete the Alberta Hunter Education Instructors' Association hunter education program, and introduces and connects young hunters to programs, information and other groups to enhance their hunting experience.

### **Results**

In 2015/16, Hunting for Tomorrow distributed over 1,500 information packages to youth who had completed the hunter education course. A total of 345 youth returned the reimbursement form and asked to be included on ACA's mailing list to receive ongoing information from ACA regarding hunting, fishing, trapping and other conservation activities.

## **Conclusions**

Although the cost of reimbursing each youth for their first WIN card is relatively small, the impact of this project has been significant. ACA has been able to enhance young hunters' experience by introducing and connecting them to programs, information and member group organizations. It is our hope that making these connections at a young age will result in long-term relationships being formed between these young stakeholders and the larger conservation community.
